Abstract of Proposed Collection

Department of State will be surveying the general populations of select foreign

¹² 17 CFR 200.30-3(a)(12).

countries. The data DoS collects will be used internally by DoS to determine how its missions can maximize the impact of their public diplomacy resources: DoS analysts will use the data to produce guidance on how budget, personnel, and other resources that drive USG communications to foreign publics can be used more efficiently and effectively. The U.S. Information and Educational Exchange Act of 1948, the State Department Basic Authorities Act of 1956 (in particular, 22 U.S.C. 2732), and the Mutual Educational and Cultural Exchange Act of 1961 give DoS the legal authority to engage in public diplomacy activities, including this data collection.

Methodology

Surveys will be administered by experienced in-country data collection subcontractors who will also clean and weight the data and then transfer the final data file to Department of State for analysis. Sampling strategies will vary by country/data collection subcontractor, but all surveys will employ a sampling and weighting strategy so that the surveys genuinely represent the general populations in terms of their geographic distribution and their demographic characteristics. For each country, the data should have an aggregate margin of error of no more than $\pm 5\%$ at a 95% level of confidence and should be free of any bias.

Director of Policy and Planning, R/PPR, U.S. Department of State.
