[Docket No. USCG-2016-0165]

Port Access Route Study (PARS): In Nantucket Sound

AGENCY: Coast Guard, DHS.

ACTION: Notice of study; final report.

SUMMARY: The U.S. Coast Guard (USCG) conducted the Nantucket Sound Port Access Route Study (PARS) in accordance with the Ports and Waterways Safety Act (PWSA) (33 U.S.C. 1223(c)), as directed by the Coast Guard Authorization Act of 2015. The USCG used the standards and methodology of the Atlantic Coast PARS to determine whether existing regulations should be revised to improve navigation safety in Nantucket Sound due to factors such as increased vessel traffic, changing vessel traffic patterns, weather conditions, or navigational difficulty. The report, as submitted to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate on February 27, 2017, is available in the docket for viewing. It concluded that no regulatory changes to existing vessel routing measures are needed.

FOR FURTHER INFORMATION CONTACT: If you have questions on this notice, email D01-SMB-NantucketPARS@uscg.mil.

SUPPLEMENTARY INFORMATION:

Discussion

The Nantucket Sound PARS considered whether existing regulations should be revised to improve navigation safety in Nantucket Sound due to factors such as vessel traffic density, vessel traffic patterns, weather conditions, or navigation challenges in the study area. All available sources of data relevant to this process, including existing and potential traffic patterns, existing regulations, public submissions, and other factors were analyzed. Although the study recommended no regulatory changes to existing vessel routing measures, the USCG will continue to actively monitor and initiate appropriate actions on all waterways

subject to its jurisdiction as needed to support navigation safety.

The USCG analyzed vessel traffic density, hazards, agency and stakeholder experience in vessel traffic management, navigation, ship handling, the effects of weather, and impacts to marine mammals and other wildlife. The USCG also considered public comments in the final report. The Nantucket Sound PARS concluded that no regulatory changes to existing vessel routing measures are needed but reiterated that the USCG actively monitors all waterways subject to its jurisdiction to help ensure navigation safety. As such, the USCG will continue to monitor Nantucket Sound for changing conditions and consider appropriate actions to promote waterway and user safety.
