FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 555-1870-00 is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

Permit No. 555-1870-00, issued on April 10, 2007 (74 FR 19469), authorizes the permit holder to conduct research on the biology and ecology of harbor seals (*Phoca vitulina*) in California, Oregon, Washington, and Alaska. Researchers are authorized to capture, handle, flipper tag, instrument, and biologically sample (blood, skin, hair, swabs, lavage/enema) 670 harbor seals annually; an additional 2,910 seals may be taken by incidental disturbance during capture, scat collection, experimental harassment, and exposure to playback of vocalizations annually. Of those animals captured, 140 may have surgical procedures conducted to implant subcutaneous radio transmitters. Up to two incidental mortalities per year are authorized.

California sea lions and northern elephant seals are authorized to be incidentally harassed during research activities.

The permit holder is requesting the permit be amended to include authorization for increasing the number of harbor seal pups of both sexes captured in California from 40 animals (20 of each sex) to 70 (35 of each sex) annually to allow for a more robust survival estimate model. The applicant also proposes to bring a subset of harbor seals captured in California (seals one year or older of either sex excluding pregnant or lactating females) into temporary captivity in quarantine at The Marine Mammal Center (Sausalito, California) to conduct trials to modify the currently permitted sedation and surgical protocols for subcutaneous implantation of radio transmitters. The purposes of these modifications are to (1) minimize the amount of time needed for surgery; and (2) test three different tag types and a revised suture protocol to improve tag retention. The amendment would be valid through the expiration date on April 15, 2012.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: December 2, 2009.

Tammy C. Adams,

Acting Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.
