## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project No. 539–015]

#### Lock 7 Hydro Partners, LLC; Notice of Intent To Prepare an Environmental Assessment

On April 30, 2020, Lock 7 Hydro Partners, LLC filed an application for a new major license for the 2.21-megawatt Mother Ann Lee Hydroelectric Station Water Power Project (Mother Ann Lee Project) (FERC No. 539). The Mother Ann Lee Project is located on the Kentucky River in Mercer, Jessamine, and Garrard Counties, Kentucky. The project does not occupy federal land.

In accordance with the Commission's regulations, on February 26, 2021, Commission staff issued a notice that the project was ready for environmental analysis (REA notice). Based on the information in the record, including comments filed on the REA notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the

application to license the Mother Ann Lee Project.

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The application will be processed according to the following schedule. Revisions to the schedule may be made as appropriate.

| Milestone             | Target date                |
|-----------------------|----------------------------|
| Commission issues EA. | October 2021. <sup>1</sup> |
| Comments on EA .....  | November 2021.             |
