<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

#### II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

##### A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

The Exchange proposes to amend Rule 404, Series of Option Contracts Open for Trading. Specifically, the Exchange proposes to adopt new Interpretations and Policies .12 to Rule 404 to implement a new strike interval program for stocks that are priced less than \$2.50 and have an average daily trading volume of at least 1,000,000 shares per day for the three (3) preceding calendar months. The Exchange also proposes to amend the table in Interpretations and Policies .11 of Rule 404 to harmonize the table to the propose change.

###### Background

Currently, Exchange Rule 404, Series of Option Contracts Open for Trading, describes the process and procedures for listing and trading series of options<sup>3</sup> on the Exchange. Rule 404 provides for a \$2.50 Strike Price Program, where the Exchange may select up to 60 option classes<sup>4</sup> on individual stocks for which the interval of strike prices will be \$2.50 where the strike price is greater than \$25.00 but less than \$50.00.<sup>5</sup> Rule 404 also provides for a \$1 Strike Price Interval Program, where the interval between strike prices of series of options<sup>6</sup> on individual stocks may be \$1.00 or greater provided the strike price is \$50.00 or less, but not less than

<sup>3</sup> The term “option contract” means a put or a call issued, or subject to issuance, by the Clearing Corporation pursuant to the Rules of the Clearing Corporation. See Exchange Rule 100.

<sup>4</sup> The terms “class of options” or “option class” means all option contracts covering the same underlying security. See Exchange Rule 100.

<sup>5</sup> See Exchange Rule 404(f).

<sup>6</sup> The term “series of options” means all option contracts of the same class having the same exercise price and expiration date. See Exchange Rule 100.

\$1.00.<sup>7</sup> Additionally, Rule 404 provides for a \$0.50 Strike Program.<sup>8</sup> The interval of strike prices of series of options on individual stocks may be \$0.50 or greater beginning at \$0.50 where the strike price is \$5.50 or less, but only for options classes whose underlying security closed at or below \$5.00 in its primary market on the previous trading day and which have national average daily volume that equals or exceeds 1,000 contracts per day as determined by The Options Clearing Corporation during the preceding three calendar months. The listing of \$0.50 strike prices is limited to options classes overlying no more than 20 individual stocks (the “\$0.50 Strike Program”) as specifically designated by the Exchange. The Exchange may list \$0.50 strike prices on any other option classes if those classes are specifically designated by other securities exchanges that employ a similar \$0.50 Strike Program under their respective rules. A stock shall remain in the \$0.50 Strike Program until otherwise designated by the Exchange.<sup>9</sup>

###### Proposal

At this time, the Exchange proposes to adopt a new strike interval program for underlying stocks that are not in the aforementioned \$0.50 Strike Program (or the Short Term Option Series Program)<sup>10</sup> and that close below \$2.50 and have an average daily trading volume of at least 1,000,000 shares per day for the three (3) preceding calendar months. The \$0.50 Strike Program considers stocks that have a closing price at or below \$5.00 whereas the Exchange’s proposal will consider stocks that have a closing price below \$2.50. Currently, there is a subset of stocks that are not included in the \$0.50 Strike Program as a result of the limitations of that program which provides that the listing of \$0.50 strike prices shall be limited to option classes overlying no more than 20 individual stocks as specifically designated by the Exchange and requires a national average daily volume that equals or exceeds 1,000 contracts per day as determined by The Options Clearing Corporation during the preceding three calendar months.<sup>11</sup> Therefore, the Exchange is proposing to implement a new strike interval program termed the “Low Priced Stock Strike Price Interval Program.”
