BILLING CODE 9110-12-P

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****49 CFR Part 225**

[FRA-2007-0018]

Adjustment of Monetary Threshold for Reporting Rail Equipment Accidents/Incidents for Calendar Year 2008

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: This rule increases the rail equipment accident/incident reporting threshold from \$8,200 to \$8,500 for certain railroad accidents/incidents involving property damage that occur during calendar year 2008. This action is needed to ensure that FRA's reporting

requirements reflect cost increases that have occurred since the reporting threshold was last computed for calendar year 2007.

DATES: *Effective Date:* This regulation is effective January 1, 2008.

FOR FURTHER INFORMATION CONTACT:

Arnel B. Rivera, Staff Director, Office of Safety Analysis, RRS-22, Mail Stop 17, FRA, 1200 New Jersey Avenue, SE., West Building 3rd Floor, Washington, DC 20590 (telephone 202-493-1331); or Sandra S. Ries, Trial Attorney, Office of Chief Counsel, RCC-10, Mail Stop 10, FRA, 1200 New Jersey Avenue, SE., West Building 3rd Floor, Washington, DC 20590 (telephone 202-493-6047).

SUPPLEMENTARY INFORMATION:

Background

A "rail equipment accident/incident" is a collision, derailment, fire, explosion, act of God, or other event involving the operation of railroad on-track equipment (standing or moving) that results in damages to railroad on-track equipment, signals, tracks, track structures, or roadbed, including labor costs and the costs for acquiring new equipment and material, greater than the reporting threshold for the year in which the event occurs. 49 CFR 225.19(c). Each rail equipment accident/incident must be reported to FRA using the Rail Equipment Accident/Incident

Report (Form FRA F 6180.54). 49 CFR 225.19(b) and (c). Paragraphs (c) and (e) of 49 CFR 225.19 provide that the dollar figure that constitutes the reporting threshold for rail equipment accidents/incidents will be adjusted, if necessary, every year in accordance with the procedures outlined in appendix B to part 225 to reflect any cost increases or decreases. 61 FR 30940 (June 18, 1996); 61 FR 60632 (November 29, 1996); 61 FR 67477 (December 23, 1996); 62 FR 63675 (December 2, 1997); 63 FR 71790 (December 30, 1998); 64 FR 69193 (December 10, 1999); 65 FR 69884 (November 21, 2000); 66 FR 66346 (December 26, 2001); 67 FR 79533 (December 30, 2002); 70 FR 75414 (December 20, 2005); 72 FR 1184 (January 10, 2007).

New Reporting Threshold

Approximately one year has passed since the rail equipment accident/incident reporting threshold was revised. 72 FR 1184 (January 10, 2007). Consequently, FRA has recalculated the threshold, as required by § 225.19(c), based on increased costs for labor and increased costs for equipment. FRA has determined that the current reporting threshold of \$8,200, which applies to rail equipment accidents/incidents that occur during calendar year 2007, should increase by \$300 to \$8,500 for

equipment accidents/incidents occurring during calendar year 2008, effective January 1, 2008. The specific

inputs to the equation set forth in appendix B (i.e., $T_{new} = T_{prior} * [1 +$

$0.4(W_{new} - W_{prior})/W_{prior} + 0.6(E_{new} - E_{prior})/100]$) to part 225 are:

T_{prior}	W_{new}	W_{prior}	E_{new}	E_{prior}
\$8,200	\$21.50323	\$21.45800	175.56667	169.7

Where: T_{new} = New threshold; T_{prior} = Prior threshold (with reference to the threshold, "prior" refers to the previous threshold rounded to the nearest \$100, as reported in the **Federal Register**); W_{new} = New average hourly wage rate, in dollars; W_{prior} = Prior average hourly wage rate, in dollars; E_{new} = New equipment average PPI value; E_{prior} = Prior equipment average PPI value. Using the above figures, the calculated new threshold, (T_{new}) is \$8,495.55, which is rounded to the nearest \$100 for a final new reporting threshold of \$8,500.

Notice and Comment Procedures

In this rule, FRA has recalculated the monetary reporting threshold based on the formula discussed in detail and adopted, after notice and comment, in the final rule published December 20, 2005, 70 FR 75414. FRA has found that both the current cost data inserted into this pre-existing formula and the original cost data that they replace were obtained from reliable Federal government sources. FRA has found that this rule imposes no additional burden on any person, but rather provides a benefit by permitting the valid comparison of accident data over time. Accordingly, finding that notice and comment procedures are either impracticable, unnecessary, or contrary to the public interest, FRA is proceeding directly to the final rule.

Regulatory Impact

Executive Order 12866 and DOT Regulatory Policies and Procedures

This rule has been evaluated in accordance with existing policies and procedures, and determined to be non-significant under both Executive Order 12866 and DOT policies and procedures (44 FR 11034 (Feb. 26, 1979)).

Regulatory Flexibility Act

The Regulatory Flexibility Act of 1980 (5 U.S.C. 601–612) requires a review of proposed and final rules to assess their impact on small entities, unless the Secretary certifies that the rule will not have a significant economic impact on a substantial number of small entities. Pursuant to Section 312 of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), FRA has issued a final policy that formally establishes "small entities" as including railroads that meet the line-haulage revenue requirements of a Class

III railroad. 49 CFR part 209, app. C. For other entities, the same dollar limit in revenues governs whether a railroad, contractor, or other respondent is a small entity. *Id.*

About 680 of the approximately 718 railroads in the United States are considered small entities by FRA. FRA certifies that this final rule will have no significant economic impact on a substantial number of small entities. To the extent that this rule has any impact on small entities, the impact will be neutral or insignificant. The frequency of rail equipment accidents/incidents, and therefore also the frequency of required reporting, is generally proportional to the size of the railroad. A railroad that employs thousands of employees and operates trains millions of miles is exposed to greater risks than one whose operation is substantially smaller. Small railroads may go for months at a time without having a reportable occurrence of any type, and even longer without having a rail equipment accident/incident. For example, current FRA data indicate that 3,379 rail equipment accidents/incidents were reported in 2004, with small railroads reporting 307 of them. In 2005, 3,252 rail equipment accidents/incidents were reported, and small railroads reported 321 of them. Data for 2006 show that 2,935 rail equipment accidents/incidents were reported, with small railroads reporting 345 of them. On average for those three calendar years, small railroads reported about 10% (ranging approximately from 9% to 12%) of the total number of rail equipment accidents/incidents. FRA notes that these data are accurate as of the date of issuance of this final rule, and are subject to minor changes due to additional reporting. Absent this rulemaking (i.e., any increase in the monetary reporting threshold), the number of reportable accidents/incidents would increase, as keeping the 2007 threshold in place would not allow it to keep pace with the increasing dollar amounts of wages and rail equipment repair costs. Therefore, this rule will be neutral in effect. Increasing the reporting threshold will slightly decrease the recordkeeping burden for railroads over time. Any recordkeeping burden will not be significant and will

affect the large railroads more than the small entities, due to the higher proportion of reportable rail equipment accidents/incidents experienced by large entities.

Paperwork Reduction Act

There are no new information collection requirements associated with this final rule. Therefore, no estimate of a public reporting burden is required.

Federalism Implications

FRA has analyzed this rule in accordance with Executive Order 13132, which requires an agency to determine whether a rule will have a substantial direct effect on States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. FRA has determined that the rule will not have sufficient federalism implications to warrant consultation with State and local officials or the preparation of a federalism assessment. Accordingly, a federalism assessment has not been prepared.

Environmental Impact

FRA has evaluated this regulation in accordance with its "Procedures for Considering Environmental Impacts" (FRA's Procedures) (64 FR 28545, May 26, 1999) as required by the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*), other environmental statutes, Executive Orders, and related regulatory requirements. FRA has determined that this regulation is not a major FRA action (requiring the preparation of an environmental impact statement or environmental assessment) because it is categorically excluded from detailed environmental review pursuant to section 4(c)(20) of FRA's Procedures. 64 FR 28545, 28547, May 26, 1999. In accordance with sections 4(c) and (e) of FRA's Procedures, the agency has further concluded that no extraordinary circumstances exist with respect to this regulation that might trigger the need for a more detailed environmental review. As a result, FRA finds that this regulation is not a major Federal action significantly affecting the quality of the human environment.

Unfunded Mandates Reform Act of 1995 Privacy Act

Pursuant to Section 201 of the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4, 2 U.S.C. 1531), each Federal agency “shall, unless otherwise prohibited by law, assess the effects of Federal regulatory actions on State, local, and tribal governments, and the private sector (other than to the extent that such regulations incorporate requirements specifically set forth in law).” Section 202 of the Act (2 U.S.C. 1532) further requires that “before promulgating any general notice of proposed rulemaking that is likely to result in the promulgation of any rule that includes any Federal mandate that may result in expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of [\$132,300,000 or more (as adjusted for inflation)] in any one year, and before promulgating any final rule for which a general notice of proposed rulemaking was published, the agency shall prepare a written statement” detailing the effect on State, local, and tribal governments and the private sector. The final rule will not result in the expenditure, in the aggregate, of \$132,300,000 or more in any one year, and thus preparation of such a statement is not required.

Energy Impact

Executive Order 13211 requires Federal agencies to prepare a Statement of Energy Effects for any “significant energy action.” 66 FR 28355 (May 22, 2001). Under the Executive Order, a “significant energy action” is defined as any action by an agency (normally published in the **Federal Register**) that promulgates or is expected to lead to the promulgation of a final rule or regulation, including notices of inquiry, advance notices of proposed rulemaking, and notices of proposed rulemaking: That (1)(i) is a significant regulatory action under Executive Order 12866 or any successor order, and (ii) is likely to have a significant adverse effect on the supply, distribution, or use of energy; or (2) that is designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. FRA has evaluated this final rule in accordance with Executive Order 13211. FRA has determined that this final rule is not likely to have a significant adverse effect on the supply, distribution, or use of energy. Consequently, FRA has determined that this regulatory action is not a “significant energy action” within the meaning of Executive Order 13211.

List of Subjects in 49 CFR Part 225

Investigations, Penalties, Railroad safety, Reporting and recordkeeping requirements.

The Rule

■ In consideration of the foregoing, FRA amends part 225 of chapter II, subtitle B of title 49, Code of Federal Regulations, as follows:

PART 225—[AMENDED]

■ 1. The authority citation for part 225 continues to read as follows:

Authority: 49 U.S.C. 103, 322(a), 20103, 20107, 20901–02, 21301, 21302, 21311; 28 U.S.C. 2461, note; and 49 CFR 1.49.

■ 2. Amend § 225.19 by revising the first sentence of paragraph (c) and revising paragraph (e) to read as follows:

§ 225.19 Primary groups of accidents/incidents.

* * * * *

(c) *Group II—Rail equipment.* Rail equipment accidents/incidents are collisions, derailments, fires, explosions, acts of God, and other events involving the operation of on-track equipment (standing or moving) that result in damages higher than the current reporting threshold (*i.e.*, \$6,700 for calendar years 2002 through 2005, \$7,700 for calendar year 2006, \$8,200 for calendar year 2007, and \$8,500 for calendar year 2008) to railroad on-track equipment, signals, tracks, track structures, or roadbed, including labor costs and the costs for acquiring new equipment and material. * * *

(e) The reporting threshold is \$6,700 for calendar years 2002 through 2005, \$7,700 for calendar year 2006, \$8,200 for calendar year 2007 and \$8,500 for calendar year 2008. The procedure for determining the reporting threshold for calendar years 2006 and beyond appears as paragraphs 1–8 of appendix B to part 225.

* * * * *

Issued in Washington, DC, on December 19, 2007.

Joseph H. Boardman,
Administrator.

Taking of Marine Mammals Incidental to Commercial Fishing Operations; Atlantic Large Whale Take Reduction Plan

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule.

SUMMARY: The Assistant Administrator for Fisheries (AA), NOAA, announces temporary restrictions consistent with the requirements of the Atlantic Large Whale Take Reduction Plan’s (ALWTRP) implementing regulations. These regulations apply to lobster trap/pot and anchored gillnet fishermen in an area totaling approximately 1,939 nm² (6,650 km²), south of Rockland, Maine, for 15 days. The purpose of this action is to provide protection to an aggregation of northern right whales (right whales).

DATES: Effective beginning at 0001 hours December 30, 2007, through 2400 hours January 13, 2008.

ADDRESSES: Copies of the proposed and final Dynamic Area Management (DAM) rules, Environmental Assessments (EAs), Atlantic Large Whale Take Reduction Team (ALWTRT) meeting summaries, and progress reports on implementation of the ALWTRP may also be obtained by writing Diane Borggaard, NMFS/Northeast Region, One Blackburn Drive, Gloucester, MA 01930.

FOR FURTHER INFORMATION CONTACT: Diane Borggaard, NMFS/Northeast Region, 978–281–9300 x6503; or Kristy Long, NMFS, Office of Protected Resources, 301–713–2322.

SUPPLEMENTARY INFORMATION:**Electronic Access**

Several of the background documents for the ALWTRP and the take reduction planning process can be downloaded
