Discussion

In accordance with 33 CFR 127.007, Coast Guard Sector Puget Sound received an LOI and WSA from Washington State Ferries on June 27, 2014 regarding their proposal to convert six Issaquah Class Ferries to LNG propulsion. The LOI notes that if the conversion is completed, each vessel would require fueling by truck once every 7 to 10 days.

Under 33 CFR 127.009, and in reference to the Coast Guard's Navigation and Vessel Inspection Circular (NVIC) 01-2011, "Guidance Related to Waterfront Liquefied Natural Gas (LNG) Facilities," the Coast Guard will be reviewing and validating the Washington State Ferries' WSA in cooperation with key port stakeholders. In conjunction with the review and validation of the WSA, the Coast Guard seeks public comments on the proposal which may inform the COTP's recommendation to the State of Washington Department of Transportation. Once the information in the WSA is validated, the COTP will issue an LOR to the State of Washington Department of Transportation regarding the suitability of the waterway for LNG marine traffic.

The Washington State Ferries' LOI, WSA, and other supporting documentation and information can be viewed at: <http://www.wsdot.wa.gov/Ferries/Environment/LNG.htm>. In addition, a copy of NVIC 01-2011 is available for viewing on the Coast Guard's Web site at <http://www.uscg.mil/hq/cg5/nvic/2010s.asp>.

This notice is issued under authority of 33 CFR 127.009.

Dated: October 20, 2014.

M.W. Raymond,

Captain, U.S. Coast Guard, Captain of the Port, Sector Puget Sound.
