SUPPLEMENTARY INFORMATION:

Background

On December 1, 2011, the FAA published the final rule entitled, "Damage Tolerance and Fatigue Evaluation for Composite Rotorcraft Structures" (76 FR 74655). On December 2, 2011, the FAA published the final rule entitled, "Damage Tolerance and Fatigue Evaluation for Metallic Structures" (76 FR 75435).

In the "Composite Rotorcraft Structures" final rule, the FAA amended its regulations to require evaluation of fatigue and residual static strength of composite rotorcraft structures using a damage tolerance evaluation, or a fatigue evaluation if the applicant establishes that a damage tolerance evaluation is impractical.

In the "Metallic Structures" final rule, the FAA amended its regulations to address advances in structural fatigue substantiation technology for metallic structures. This provides an increased level of safety by avoiding or reducing the likelihood of the catastrophic fatigue failure of a metallic structure. These increased safety requirements help ensure that should serious accidental damage occur during manufacturing or within the operational life of the rotorcraft, the remaining structure could withstand, without failure, any fatigue loads that are likely to occur, until the damage is detected or the part is replaced.

Both final rules included information collection requirements. However, the FAA inadvertently neglected to include a statement advising affected parties that they are not required to comply with these portions of the regulations until the Office of Management and Budget (OMB) approves the collections and assigns control numbers under the Paperwork Reduction Act of 1995. The FAA will publish in the **Federal Register** a notice of the control numbers assigned by OMB when these information collection requirements are approved.

Corrections

In FR Doc. 2011-30945, beginning on page 74655 in the **Federal Register** of December 1, 2011, make the following correction:

On page 74655, in the second column, after "Dates: Effective January 30, 2012.", insert "Affected parties, however, are not required to comply with the information collection requirement in §§ 27.573 and 29.573 until the Office of Management and Budget (OMB) approves the collection and assigns a control number under the Paperwork Reduction Act of 1995. The FAA will publish in the **Federal Register** a notice of the control number assigned by the Office of Management and Budget (OMB) for this information collection requirement."

In FR Doc. 2011-30941, beginning on page 75435 in the **Federal Register** of December 2, 2011, make the following correction:

On page 75435, in the second column, after "Dates: Effective January 31, 2012.", insert "Affected parties, however, are not required to comply with the information collection requirement in § 29.571 until the Office of Management and Budget (OMB) approves the collection and assigns a control number under the Paperwork Reduction Act of 1995. The FAA will publish in the **Federal Register** a notice of the control number assigned by the Office of Management and Budget (OMB) for this information collection requirement."

[Docket No. RM11-30-000; Order No. 756]

Technical Corrections to Commission Regulations

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Commission is issuing this Final Rule to make minor changes to its regulations. This Final Rule revises a number of references that have become outdated for various reasons or contain typographical errors. Generally, these changes add or delete language in the current regulations by eliminating obsolete information, incorporating reference to updated electronic filing

options, modernizing language, and correcting incorrect citations and clerical mistakes. The revisions are intended to be ministerial and/or informational in nature.

DATES: *Effective Date:* The rule will become effective February 1, 2012.

FOR FURTHER INFORMATION CONTACT: Kenneth Yu, Office of the General Counsel, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, (202) 502-8482.

SUPPLEMENTARY INFORMATION:

Before Commissioners: Jon Wellenhoff, Chairman; Philip D. Moeller, John R. Norris, and Cheryl A. LaFleur.

Issued January 19, 2012.

I. Introduction

1. The Commission is issuing this Final Rule to make minor changes to its regulations. This Final Rule revises a number of references that have become outdated for various reasons or contain typographical errors. Generally, these changes add or delete language in the current regulations by eliminating obsolete information, incorporating reference to updated electronic filing options, modernizing language, and correcting incorrect citations and clerical mistakes. The revisions are intended to be ministerial and/or informational in nature.

II. Discussion

A. Minor Revisions To Correct References and Outdated Nomenclature

2. In Part 3a of Title 18 of the *Code of Federal Regulations*, this Final Rule corrects references, where appropriate, to the "FPC" and the "Federal Power Commission" (the predecessor to the Federal Energy Regulatory Commission) to read "FERC" or "Federal Energy Regulatory Commission." Additionally, the Commission's contact information is updated and corrected in Part 380.

3. In Parts 2, 3a, 4, 12, and 284, references to outdated titles, positions, and technologies are revised.

4. In Parts 1b, 2, 4, 5, 131, 157, 284, 376, and 380, multiple outdated and incorrect references to Commission regulations, guidelines, the **Federal Register**, and Federal statutes are removed or corrected.

B. Corrections to Grammatical, Typesetting, and Typographical Mistakes

5. In Parts 1b, 2, 4, 157, 380, and 385, this Final Rule corrects grammatical, typesetting, and typographical mistakes in the Commission's regulations to improve the clarity and accuracy of the regulations.

C. Renumbering of Disjointed Section Numbering

6. As a result of the deletions and corrections made to references to the Commission's regulations in this and previous rulemakings, the ordering and numbering of regulations in Part 5 are disjointed. This Final Rule corrects this problem.

D. Minor Revisions By Referencing to Web site Language

7. Part 11 of the Commission's regulations pertain to annual charges. In § 11.2(b), reference is made to the outdated fee schedule for FY 2010. Therefore, in order to reference the most current fee schedule, the Final Rule removes outdated language from the regulations and replaces it with reference to the current language provided on the Commission's Web site.

III. Information Collection Statement

8. Office of Management and Budget (OMB) regulations require OMB to approve certain information collection requirements imposed by agency rule.¹ This Final Rule contains no new information collections and makes no changes to existing information collections that would require a formal OMB review.² Therefore, the Commission will submit this Final Rule to OMB for informational purposes only.

IV. Environmental Analysis

9. The Commission is required to prepare an Environmental Assessment or an Environmental Impact Statement for any action that may have a significant adverse effect on the human environment.³ Excluded from this requirement are rules that are clarifying, corrective, or procedural or that do not substantially change the effect of the

regulations being amended.⁴ Because this Final Rule only eliminates obsolete information, incorporates updated electronic filing options, clarifies ambiguous language, and corrects clerical and citation references, it is not an action that has a significant adverse effect on the human environment under the Commission's regulations implementing the National Environmental Policy Act of 1969. This rule is procedural in nature and therefore falls within this exception; consequently, no environmental consideration is necessary.

V. Regulatory Flexibility Act Certification

10. The Regulatory Flexibility Act of 1980 (RFA)⁵ generally requires a description and analysis of rules that will have significant economic impact on a substantial number of small entities. Because this Final Rule only provides clarification and corrects the Commission's regulations, the Commission does not anticipate that it will have an impact on any small entities. Therefore, the Commission certifies that this Final Rule will not have significant economic impact on a substantial number of small entities.

VI. Document Availability

11. In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the Internet through the Commission's Web site (<http://www.ferc.gov>) and in the Commission's Public Reference Room during normal business hours (8:30 a.m. to 5 p.m. Eastern Standard Time) at 888 First Street NE., Room 2A, Washington, DC 20426.

12. From the Commission's homepage on the Internet, this information is available in the Commission's document management system, eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field.

13. User assistance is available for eLibrary and the Commission's Web site during normal business hours from FERC Online Support at 1-866-208-3676 (toll free) or 202-502-6652 (email at ferconlinesupport@ferc.gov), or the Public Reference Room at 202-502-

8371, TTY 202-502-8659 (email at public.referenceroom@ferc.gov).

VII. Effective Date and Congressional Notification

14. These regulations are effective on the date of issuance. In accordance with 5 U.S.C. 553(d)(3), the Commission finds that good cause exists to make this Final Rule effective immediately. It makes minor revisions with respect to matters of internal operations and is unlikely to affect the rights of persons appearing before the Commission. There is therefore no reason to make this rule effective at a later time.

15. The provisions of 5 U.S.C. 801 regarding Congressional review of final rules do not apply to this Final Rule because this Final Rule concerns agency procedure and practice and will not substantially affect the rights of non-agency parties.

16. The Commission is issuing this Final Rule without a period for public comment. Under 5 U.S.C. 553(b), notice and comment procedures are unnecessary where a rulemaking concerns only agency procedure and practice, or where the agency finds that notice and comment is unnecessary. This rule concerns only matters of agency procedure and will not significantly affect regulated entities or the general public.

² Two changes to Commission regulations are made to conform them to current Commission practice. First, the rule removes 18 CFR 4.34(b)(5)(iv) concerning new requests for water quality certification if an application to amend an existing license or an application to amend a pending application for a license would have a material adverse impact on the water quality in the discharge from the project or proposed project. The Commission has not enforced the information collection requirement in § 4.34(b)(5)(iv) for many years based on current practice and court precedent (*Alabama Rivers Alliance v. FERC*, 325 F.3d 290 (DC Cir. 2003)). Second, the modification to § 284.270 reflects current practice for submitting the required documentation since the telegraph is no longer used. Therefore, the changes to the regulations are being made to reflect current practice.
