

Rules and Regulations

Federal Register

Vol. 65, No. 176

Monday, September 11, 2000

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

7 CFR Part 301

[Docket No. 97-056-18]

Mediterranean Fruit Fly; Quarantined Areas, Regulated Articles, Treatments

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: We are adopting as a final rule, with minor, nonsubstantive changes, interim rules that amended the Mediterranean fruit fly regulations. In a series of interim rules published in the *Federal Register* between June 1997 and October 1998, we amended the Mediterranean fruit fly regulations by establishing and removing quarantined areas in the State of Florida. Two of the interim rules also added a regulated article; added the use of irradiation as a treatment for berries, fruits, nuts, and vegetables that are regulated articles; and added a definition for core area. These actions were necessary on an emergency basis to prevent the spread of the Mediterranean fruit fly into noninfested areas of the continental United States, and to provide an additional option for qualifying regulated articles for movement from quarantined areas.

EFFECTIVE DATE: September 11, 2000.

FOR FURTHER INFORMATION CONTACT: Mr. Michael B. Stefan, Operations Officer, Invasive Species and Pest Management, PPQ, APHIS, 4700 River Road Unit 134, Riverdale, MD 20737-1236, (301) 734-8247.

SUPPLEMENTARY INFORMATION:

Background

The Mediterranean fruit fly, *Ceratitidis capitata* (Wiedemann), is one of the

world's most destructive pests of numerous fruits and vegetables. The Mediterranean fruit fly (Medfly) can cause serious economic losses. Heavy infestations can cause complete loss of crops, and losses of 25 to 50 percent are not uncommon. The short life cycle of this pest permits the rapid development of serious outbreaks. Regulations to prevent the interstate spread of the Medfly from infested areas of the United States are contained in 7 CFR 301.78 through 301.78-10, referred to below as the regulations.

In an interim rule effective June 16, 1997, and published in the *Federal Register* on June 20, 1997 (62 FR 33537-33539, Docket No. 97-056-2), we quarantined Hillsborough County, FL, because of an infestation of the Medfly. Subsequently, we published a series of interim rules that added to or removed from the list of quarantined areas certain portions of Dade, Highlands, Hillsborough, Lake, Manatee, Marion, Orange, Polk, and Sarasota Counties, FL; added eggplant, other than commercially produced eggplant, to the list of regulated articles; provided for the use of irradiation as a treatment for berries, fruits, nuts, and vegetables; and added a definition for *core area*. These interim rules were made effective on July 3, 1997 (62 FR 36976-36978, Docket No. 97-056-3), August 7, 1997 (62 FR 43269-43272, Docket No. 97-056-4), September 4, 1997 (62 FR 47553-47558, Docket No. 97-056-5), October 15, 1997 (62 FR 54571-54572, Docket No. 97-056-7), November 14, 1997 (62 FR 61897-61898, Docket No. 97-056-8), April 17, 1998 (63 FR 19797-19798, Docket No. 97-056-9 and 63 FR 20053-20054, Docket No. 98-046-1), May 5, 1998 (63 FR 25748-25750, Docket No. 97-056-11), May 13, 1998 (63 FR 27439-27440, Docket No. 97-056-12), June 5, 1998 (63 FR 31887-31888, Docket No. 97-056-13), August 7, 1998 (63 FR 43287-43289, Docket No. 97-056-14), August 13, 1998 (63 FR 44538-44539, Docket No. 97-056-15), August 24, 1998 (63 FR 45392-45393, Docket No. 97-056-16), and October 2, 1998 (63 FR 54037-54038, Docket No. 97-056-17).

Comments on these interim rules were required to be received on or before 60 days after the date of publication in the *Federal Register*. We received comments on only one of the interim rules.

In that interim rule, which was effective September 4, 1997, and published in the *Federal Register* on September 10, 1997 (62 FR 47553-47558, Docket No. 97-056-5), we amended the regulations by, among other things, providing for the use of irradiation as a treatment for berries, fruits, nuts, and vegetables that are regulated articles. This change provided an additional option for qualifying those regulated articles for interstate movement from quarantined areas.

We received three comments on this rule. They were from government agencies and an association. They are discussed below.

Two of the commenters said that in § 301.78-10(c)(5)(ii) we should use the term "dosimetry system" rather than the word "dosimeter" in explaining how an absorbed dose should be measured when using irradiation treatment on berries, fruits, nuts, and vegetables. We agree with the commenters. It is the system that is used for the measurement of irradiation; the dosimeter is only a part of the dosimetry system. We are making this change in this final rule.

One commenter suggested that we reword our reference in § 301.78-10(c)(5)(iii) to American Society for Testing and Materials (ASTM) standards. The interim rule stated that the number and placement of dosimeters used must be in accordance with ASTM standards. This statement is correct, but it suggests that other important aspects of the dosimeter, such as calibration, do not need to follow these standards. We are correcting that language in this final rule.

Another commenter pointed out an incorrect address. In § 301.78-10, footnote 10, we stated that if there is a question as to the adequacy of the construction of a carton for shipping fruits and vegetables, requests for approval of the carton, along with a sample of the carton, could be sent to the Animal and Plant Health Inspection Service, Plant Protection and Quarantine, Phytosanitary Issues Management Team, 4700 River Road Unit 140, Riverdale, Maryland 20737-1236. This address is incorrect. Requests should be sent to the Animal and Plant Health Inspection Service, Plant Protection and Quarantine, Oxford Plant Protection Center, 901 Hillsboro Street, Oxford, NC 27565. We are correcting the address in this final rule.

Therefore, for the reasons given in the interim rules and in this document, we are adopting the interim rules as final, with the changes discussed in this document.

This final rule also affirms the information contained in the interim rules concerning Executive Order 12866 and the Regulatory Flexibility Act, Executive Orders 12372 and 12988, and the Paperwork Reduction Act.

Further, for this action, the Office of Management and Budget has waived the review process required by Executive Order 12866.

Effective Date: Pursuant to the administrative procedure provisions in 5 U.S.C. 553, we find good cause for making this rule effective less than 30 days after publication in the **Federal Register**. This rule makes minor, nonsubstantive changes to the regulations. They are necessary to clarify requirements concerning the use of irradiation treatment on berries, fruits, nuts, and vegetables that are regulated because of the Medfly and to correct an address. Therefore, the Administrator of the Animal and Plant Health Inspection Service has determined that this rule should be effective upon publication in the **Federal Register**.

List of Subjects in 7 CFR Part 301

Agricultural commodities, Plant diseases and pests, Quarantine, Reporting and recordkeeping requirements, Transportation.

Accordingly, the interim rules amending 7 CFR part 301 that were published at 62 FR 33537–33539 on June 20, 1997; 62 FR 36976–36978 on July 10, 1997; 62 FR 43269–43272 on August 13, 1997; 62 FR 47553–47558 on September 10, 1997; 62 FR 54571–54572 on October 21, 1997; 62 FR 61897–61898 on November 20, 1997; 63 FR 19797–19798 on April 22, 1998; 63 FR 20053–20054 on April 23, 1998; 63 FR 25748–25750 on May 11, 1998; 63 FR 27439–27440 on May 19, 1998; 63 FR 31887–31888 on June 11, 1998; 63 FR 43287–43289 on August 13, 1998; 63 FR 44538–44539 on August 20, 1998; 63 FR 45392–45393 on August 26, 1998; and 63 FR 54037–54038 on October 8, 1998, are adopted as final with the following changes:

PART 301—DOMESTIC QUARANTINE NOTICES

1. The authority citation for part 301 continues to read as follows:

Authority: Title IV, Pub. L. 106–224, 114 Stat. 438, 7 U.S.C. 7701–7772; 7 U.S.C. 166; 7 CFR 2.22, 2.80, and 371.3.

2. Section 301.78–10 is amended as follows:

a. In paragraph (c)(3)(i), by revising footnote 10 to read “¹⁰ If there is a question as to the adequacy of a carton, send a request for approval of the carton, together with a sample carton, to the Animal and Plant Health Inspection Service, Plant Protection and Quarantine, Oxford Plant Protection Center, 901 Hillsboro Street, Oxford, NC 27565.”

b. By revising paragraphs (c)(5)(ii) and (c)(5)(iii).

§ 301.78–10 Treatments.

* * * * *

(c) * * *

(5) * * *

(ii) Absorbed dose must be measured using a dosimetry system that can accurately measure an adsorbed dose of 225 Gray (22.5 krad).

(iii) The utilization of the dosimetry system, including its calibration and the number and placement of dosimeters used, must be in accordance with the American Society for Testing and Materials (ASTM) standards.¹²

BILLING CODE 3410–34–P

FARM CREDIT ADMINISTRATION

12 CFR Parts 612 and 614

RIN 3052–AB95

Standards of Conduct; Loan Policies and Operations

AGENCY: Farm Credit Administration (FCA).

ACTION: Confirmation of effective date; partial withdrawal.

SUMMARY: The FCA published a direct final rule, with opportunity for comment, amending parts 612 and 614 on June 30, 2000 (65 FR 40486). The rule rewrote part 612 of our Standards of Conduct regulations in plain language. The rule amended part 614 to

correctly reference our Standard of Conduct regulations. The opportunity for comment expired on July 31, 2000. We received significant adverse comment on part 612. As a result we are withdrawing the revision of part 612 of the direct final rule. The amendment to part 614 will become effective in accordance with this document.

DATES: The regulation amending 12 CFR part 614 published on June 30, 2000 (65 FR 40486) is effective September 11, 2000. The regulation revising 12 CFR part 612 published on June 30, 2000 (65 FR 40486) is withdrawn September 11, 2000.

FOR FURTHER INFORMATION CONTACT:

Dale Aultman, Policy Analyst, Office of Policy and Analysis, Farm Credit Administration, McLean, VA 22102–5090, (703) 883–4498, TDD (703) 883–4444,

or

Howard Rubin, Attorney, Office of General Counsel, Farm Credit Administration, McLean, VA 22102–5090, (703) 883–4020, TDD (703) 883–4444.

SUPPLEMENTARY INFORMATION: Direct final rulemaking enables Federal agencies to quickly adopt noncontroversial regulations without the usual notice and comment period. On June 30, 2000, we notified you that this rule would become effective 30 days after publication in the **Federal Register** during which either or both Houses of Congress are in session unless we receive significant adverse comment by July 31, 2000. A significant adverse comment is one where a commenter explains why the rule would be inappropriate (including challenges to its underlying premise or approach), ineffective, or unacceptable. Our June 30, 2000 notice informed you that if we received a significant adverse comment about any amendment, paragraph, or section of this rule, we would withdraw that amendment, paragraph, or section, but adopt all other provisions as a final rule. We received significant adverse comments on several provisions of part 612 of the rule. The breadth of the comments makes it impossible to adopt the remaining provisions as a final rule. Therefore, part 612 of the rule will not become effective. The amendment to § 614.4440(f) in the direct final rule will take effect on September 11, 2000.

Dated: September 6, 2000.

Kelly Mikel Williams,

Secretary, Farm Credit Administration Board.
