

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Coastal and Estuarine Land Conservation Planning, Protection or Restoration**

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on November 10, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Coastal and Estuarine Land Conservation Planning, Protection or Restoration.

OMB Control Number: 0648–0459.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 50.

Average Hours Per Response: CELCP Plans, 120 hours to develop, 35 hours to revise or update; project application and checklist, 20 hours; final grant application, 3.5 hours; semi-annual and annual reporting, 1.5 hours each.

Total Annual Burden Hours: 1,455.

Needs and Uses: NOAA's Office for Coastal Management requests the extension of a currently approved information collection. NOAA has, or is given, authority under the Coastal Zone Management Act (CZMA), annual appropriations or other authorities, to issue funds to coastal states, localities or other recipients for planning, conservation, acquisition, protection, restoration, or construction projects. The required information enables NOAA to implement the Coastal and Estuarine Land Conservation Program (CZMA Section 307A), under its current or future authorization, and facilitate the review of similar projects under different, but related, authorities, including the National Estuarine

Research Reserve System (CZMA Section 315) Land Acquisition and Construction program, the Coastal Zone Management Program's low-cost acquisition and construction program (CZMA Section 306A), or the Fish and Wildlife Coordination Act.

This collection covers the development of state coastal land conservation plans, and collection of information specifically needed for applying for and carrying out land acquisition, restoration and construction projects, such as: Appraisals, property surveys and site plans, legal documentation such as deeds, easements and/or plats, and information needed for environmental compliance reviews. Such information is collected from project applicants or sub-recipients, which are typically state or local government agencies, but may also include nongovernmental or tribal organizations.

The information will be used in evaluating project proposals, reviewing the location and impact of proposed activities, documenting compliance with the National Environmental Policy Act and other applicable statutes, and conducting due diligence on market value, title encumbrances, property boundaries, proper recording of legal instruments. No changes are proposed to the collection.

Affected Public: Primary respondents are State, Local, or Tribal government.

Frequency: Information is collected once every 5 years for CELCP plans, one time each year for project proposals, final grant applications and due diligence materials for selected projects, two times per year for progress reports.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: Coastal Zone Management Act (16 U.S.C. 1451, *et seq.*).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and

entering either the title of the collection or the OMB Control Number 0648–0459.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Southeast Region Logbook Family of Forms**

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on October 12, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Southeast Logbook Family of Forms.

OMB Control Number: 0648–0016.

Form Number(s): None.

Type of Request: Regular submission (extension, revision of a current information collection).

Number of Respondents: 6,867.

Average Hours per Response: Annual fixed-cost report, 45 minutes; discard logbook, 15 minutes; headboat, charter vessel, golden crab, reef fish-mackerel, economic cost per trip, wreckfish, 10 minutes; no-fishing report for golden crab, reef fish-mackerel, charter vessels, and wreckfish, 2 minutes; installation of a vessel monitoring unit, 5 hours; landing location request and power-down exemption request, 5 minutes; trip declaration, 2 minutes; and proposed intercept survey, 15 minutes.

Total Annual Burden Hours: 16,429.

Needs and Uses: This request is for an extension and revision of a current information collection.

Participants in most federally managed fisheries in the NMFS Southeast Region are currently required to keep and submit catch and effort logbooks from their fishing trips. A subset of fishermen on these vessels also provides information on the species and quantities of fish, shellfish, marine turtles, and marine mammals that are caught and discarded or have interacted with the fishing gear. A subset of fishermen on these vessels also provides information about dockside prices, trip operating costs, and annual fixed costs. An intercept survey for vessels with Federal charter vessel/headboat permits is designed to support and validate the electronic logbooks.

The data are used for scientific analyses that support critical conservation and management decisions made by national and international fishery management organizations. Interaction reports are needed for fishery management planning and to help protect endangered species and marine mammals. Price and cost data will be used in analyses of the economic effects of proposed and existing regulations.

Regulatory Amendment 29 effective July 15, 2020 would require at least one descending device to be on board and ready for use on commercial, for-hire, and private recreational vessels while fishing for or possessing snapper-grouper species in the South Atlantic. Most recently the Descend Act was passed, which added a new section 321 to the Magnuson-Stevens Fishery Conservation and Management Act. This requires commercial and recreational fishermen to possess a venting tool or descending device that is rigged and ready for use when fishing for reef fish in the Gulf of Mexico Exclusive Economic Zone.

Descending devices increase survivability from barotrauma, which is injury caused by internal gas expansion when reeled up from depth. In addition to being asked to report the number of fish released respondents would be asked to report the method used to release fish as part of their current logbook submissions. The purpose of asking respondents to distinguish between fish releases without descending devices, fish released with gas bladders vented, and fish released with descending devices is to provide data needed by NMFS to accurately account for fishing mortality when performing stock assessments.

Affected Public: Businesses or other for-profit organizations; individuals.

Frequency: Monthly for no activity or once per fishing trip.

Respondent's Obligation: Mandatory.

Legal Authority: 16 U.S.C. 1801 *et seq.*

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0016.

North Pacific Albacore United States Stakeholder Meeting; Meeting Announcement

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: NMFS announces a U.S. stakeholder meeting open to the public to discuss North Pacific albacore (NPALB) management. This meeting is intended to prepare for potential discussions at the 2022 annual meetings of the Inter-American Tropical Tuna Commission (IATTC) and Western and Central Pacific Fisheries Commission Northern Committee (WCPFC NC) on a harvest strategy for NPALB fisheries. The meeting topics are described under the **SUPPLEMENTARY INFORMATION** section of this notice.

DATES: The virtual meeting will be held on April 5, 2022, from 9 a.m. to 1 p.m. HST (or until business is concluded). You must complete the registration process by March 29, 2022, if you plan to attend the meeting (see **ADDRESSES**). Members of the public may submit written comments on meeting topics or materials to Valerie Post at valerie.post@noaa.gov by March 29, 2022, and may also provide oral comments during the virtual meeting.

ADDRESSES: If you plan to attend the meeting, which will be held by webinar, please register at <https://forms.gle/eoY4EPsnkdLTy/MP7>. Instructions for attending the meeting will be emailed to meeting participants before the meeting occurs.

FOR FURTHER INFORMATION CONTACT:

Valerie Post, Pacific Islands Regional Office at valerie.post@noaa.gov, (808) 725–5034.

SUPPLEMENTARY INFORMATION: In 2021, the International Scientific Committee on Tuna and Tuna-like Species in the North Pacific Ocean (ISC) completed a management strategy evaluation (MSE) on NPALB,¹ and the ISC Albacore Working Group hosted a meeting among U.S. and Canadian stakeholders from March 22–25, 2021, to review the results of the MSE. As a follow-up to the ISC meeting in March 2021, NMFS hosted a U.S. virtual meeting on June 1, 2021, for U.S. stakeholders to express their priorities and consider future management of NPALB. This April 5 meeting, is intended to follow up to the June 2021 webinar, as well as to prepare for anticipated discussions at the IATTC and WCPFC NC.

NPALB U.S. Stakeholder Meeting Topic

This meeting agenda will be distributed to participants in advance of the meeting. The meeting agenda will include a discussion on a potential future harvest strategy for NPALB and may include, but is not limited to, candidate limit and target reference points.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be indicated when registering for the meeting (see **ADDRESSES**) by March 29, 2022.

Authority: 16 U.S.C. 951 *et seq.*, 16 U.S.C. 1801 *et seq.*, and 16 U.S.C. 6901 *et seq.*

Dated: February 10, 2022.

Ngagne Jafnar Gueye,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
