# DEPARTMENT OF HOMELAND SECURITY

# Office of the Secretary

## **Homeland Security Advisory Council**

**AGENCY:** Office of the Secretary, Department of Homeland Security. **ACTION:** Notice of Federal Advisory Committee meeting.

SUMMARY: The Homeland Security
Advisory Council (HSAC) will hold its
next meeting in Washington, DC on
Thursday, June 17, 2004. The HSAC
will meet for purposes of: (1)
Welcoming and swearing in new
members; (2) deliberation on
recommendations of the Task Force on
State and Local Funding; (3) receiving
reports from Senior Advisory
Committees; (4) receiving briefings from
DHS staff on Departmental initiatives;
and (5) holding roundtable discussions
with and among HSAC members.

This meeting will be partially closed; the open portions of the meeting for purposes of (1) through (3) above will be held at the U.S. Secret Service Headquarters, 950 H Street, NW., Washington, DC from 10 a.m. to 12 p.m. The closed portions of the meeting, for purposes of (4) and (5) above will be held at the U.S. Secret Service Headquarters from 9 a.m. to 9:50 a.m. and from 12:10 p.m. to 3 p.m.

Public Attendance: A limited number of members of the public may register to attend the public session on a firstcome, first-served basis per the procedures that follow. Security requires that any member of the public who wishes to attend the public session provide his or her name, social security number, and date of birth no later than 5 p.m. EST, Friday, June 11, 2004. Please provide the required information to Mike Miron or Jeff Gaynor of the HSAC staff, via e-mail at HSAC@dhs.gov, or via phone at (202) 692–4283. Persons with disabilities who require special assistance should indicate so in their admittance request. Photo identification will be required for entry into the public session, and everyone in attendance must be present and seated by 9:45 a.m.

Basis for Člosure: In accordance with section 10(d) of the Federal Advisory Committee Act, Public Law 92–463, as amended (5 U.S.C. App. 2), the Secretary has issued a determination that portions of this HSAC meeting will concern matters sensitive to homeland security within the meaning of 5 U.S.C. 552b(c)(7) and (c)(9)(B) and that, accordingly, these portions of the meeting will be closed to the public.

Public Comments: Members of the public who wish to file a written statement with the HSAC may do so by mail to Mike Miron at the following address: Homeland Security Advisory Council, Department of Homeland Security, Washington, DC 20528. Comments may also be sent via e-mail to HSAC@dhs.gov or via fax at (202) 772–9718.

Dated: May 28, 2004.

## Tom Ridge,

Secretary of Homeland Security.

## Office of the Secretary

# National Satellite Land Remote Sensing Data Archive (NSLRSDA) Advisory Committee; Notice of Reestablishment

This notice is published in accordance with section 9(a)(2) of the Federal Advisory Committee Act (Public

Law 92–463), 5 U.S.C. App. (1988). Following consultation with the General Services Administration, notice is hereby given that the Secretary of the Interior is reestablishing the National Satellite Land Remote Sensing Data Archive (NSLRSDA) Advisory Committee. The NSLRSDA was established by Congress in the Land Remote Sensing Policy Act of 1992, Public Law 102–555, 15 U.S.C. 5601.

The purpose of the Committee is to advise the U.S. Geological Survey (USGS), Earth Resources Observation Systems (EROS) Data Center (EDC), on guidelines or rules relating to the NSLRSDA archival data deposit, maintenance, and preservation as well as access management policies and procedures. The Committee will be responsible for providing advice and consultation on a broad range of technical and policy topics in guiding development of NSLRSDA.

In order for the Secretary to be advised by a broad spectrum of remote sensing data users and producers, committee membership will be composed of 15 members, as follows: Two from academia, with one laboratory researcher-data user and one classroom educator-data user; four from government, with two Federal data users and two State/local data users; four from industry, with two licensed data providers, one value-added industruy provider, and one commercial industry provider; and five others, with one non-USA representative and four non-affiliated Individuals at-large from any sector. Expertise in information science, natural science, social science, and policy/law are represented within the sectors listed above.

The Committee will function solely as an advisory body and in compliance with the provisions of the Federal Advisory Committee Act. The Charter will be filed under the Act, 15 days from the date of publication of this notice.

Further information regarding the NSLRSDA Advisory Committee may be obtained from the Director, USGS, Department of the Interior, 12201 Sunrise Valley Drive, Reston, Virginia, 20192. Certification of reestablishment is published below.

# Certification

I hereby certify that the reestablishment of the National Satellite Land Remote Sensing Data Archive Advisory Committee is necessary and in the public interest in connection with the performance of duties by the Department of the Interior mandated pursuant to the Land Remote Sensing Policy Act of 1992, Public Law 102–555, 15 U.S.C. 5601.

Dated: May 19, 2004.

Gale A. Norton,

Secretary of the Interior.

## Fish and Wildlife Service

## Notice of Availability of a Final Recovery Plan for the Ouachita Rock Pocketbook

**AGENCY:** Fish and Wildlife Service,

Interior.

**ACTION:** Notice of document availability.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a final recovery plan for the endangered Ouachita rock pocketbook (Arkansia wheeleri). This rare freshwater mussel inhabits portions of certain streams in and near the southern slope of the Ouachita Uplift. A viable population of fewer than 1,800 individuals inhabits the Kiamichi River in Oklahoma and a smaller population (fewer than 100 individuals) inhabits the lower Little River in Oklahoma and Arkansas. Limited evidence exists for recent occurrence of the species in the Ouachita River in Arkansas (where it occurred historically) and in two Red River tributaries in Texas. Populations outside of the Kiamichi River are believed to be too reduced at present to ensure long-term viability. All of the populations have experienced reductions and degradation of their inhabited stream segments and are separated by major impoundments. The final plan outlines objectives, criteria, and tasks for recovering this endangered species.

ADDRESSES: A copy of the final recovery plan may be requested by contacting the Oklahoma Ecological Services Field Office, 222 South Houston Avenue, Suite A, Tulsa, Oklahoma 74127.

FOR FURTHER INFORMATION CONTACT: David Martinez, U.S. Fish and Wildlife Service, at the above address, or by telephone, 918/581–7458 ext. 228.

# SUPPLEMENTARY INFORMATION:

# Background

Restoring endangered or threatened animals and plants to points where they are again secure, self-sustaining members of their ecosystems is a primary goal of the Service's endangered species program. The Service is working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered

necessary for conservation of the species, establish criteria for recovery levels to upgrade or delist the species, and estimate time and cost for implementing the identified recovery measures.

The Endangered Species Act of 1973, as amended (Act) (16 U.S.C. 1531 et seq.), requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided during recovery plan development. The Ouachita rock pocketbook was listed as endangered in 1991 (56 FR 54950) and a draft recovery plan was prepared and issued for the species in 1994.

Issuance of the draft plan included a notice of availability and opportunity for public comment (59 FR 35948) and other public notification efforts. Pertinent information received by the Service during the public comment period has been considered in preparation of the final recovery plan, and is summarized in the plan's appendix. This information will also be taken into account in the course of implementing recovery actions. Additional information on population status and distribution has been collected and updated since publication of the draft in 1994; however, no substantive changes have been made to the overall recovery strategy for the species in the final recovery plan.

The Ouachita rock pocketbook (Arkansia wheeleri) represents a monotypic genus now believed to be restricted to approximately 431 kilometers (268 miles) of stream segments in the Red River and Ouachita River drainages in southeastern Oklahoma, southwestern Arkansas, and northwestern Texas. Stream impoundment, potential water withdrawals, channelization, water quality degradation, and potential land use changes are major threats to the species' continued survival.

The final recovery plan includes updated scientific information about the Ouachita rock pocketbook and identifies research and management actions needed to conserve and recover the species' populations and habitat. The strategy for recovery is based on protection of the Kiamichi River population along with re-establishing and protecting viable populations in other portions of the species' historical range. Activities believed necessary to accomplish recovery include increased protection of populations and their habitats, restoration of degraded

habitats, filling of critical information gaps regarding the species' biology and propagation, and public outreach efforts. The plan includes downlisting and interim delisting recovery criteria.

**Authority:** The Authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: April 6, 2004.

## **DEPARTMENT OF THE INTERIOR**

#### **Bureau of Reclamation**

# Glen Canyon Dam Adaptive Management Work Group (AMWG), Notice of Meeting

**AGENCY:** Bureau of Reclamation,

Interior.

**ACTION:** Notice of public meeting.

**SUMMARY:** The Adaptive Management Program (AMP) was implemented as a result of the Record of Decision on the Operation of Glen Canyon Dam Final **Environmental Impact Statement to** comply with consultation requirements of the Grand Canyon Protection Act (Pub. L. 102-575) of 1992. The AMP provides an organization and process to ensure the use of scientific information in decision making concerning Glen Canvon Dam operations and protection of the affected resources consistent with the Grand Canyon Protection Act. The AMP has been organized and includes a federal advisory committee (AMWG), a technical work group (TWG), a monitoring and research center, and independent review panels. The TWG is a subcommittee of the AMWG and provides technical advice and information for the AMWG to act upon.

**DATES:** The TWG will conduct the following public meeting:

Phoenix, Arizona—June 30–July 1, 2004. The meeting will begin at 8 a.m. and conclude at 5 p.m. on the first day, and will begin at 8 a.m. and conclude at 12 noon on the second day. The meeting will be held at the Scottsdale Plaza Resort (La Valencia Conference Room), 7200 N. Scottsdale Road, Scottsdale, Arizona.

Agenda: The purpose of the meeting will be to continue working on development of the core monitoring plan and the long-term experimental plan, review the TWG Operating Procedures, receive an update on the AMWG Retreat, hear results of scientific investigations, and discuss environmental compliance and other
