

this proposed rule change. The Exchange has not received any written comments from members or other interested parties, except as described below.

In Amendment No. 3, ISE noted that the Commission received a comment letter on another ISE rule proposal related to the price at which a transaction may be effected through the PIM (the "Price Proposal"), which asserted that the combined effect of the Price Proposal and this proposal to reduce the exposure period to one second would be increased internalization rates.¹⁸ ISE further noted that the Commission subsequently approved the Price Proposal, stating that it did not agree with the concerns raised by the commenter and that the PIM would continue to provide an opportunity for customer orders to receive an execution at a price better than the NBBO.¹⁹ The Commission stated in its approval order that the Price Proposal could increase the likelihood of members entering agency orders into the PIM because the members would only be required to guarantee an execution at the NBBO, which would provide additional customer orders an opportunity for price improvement. ISE also noted that the Commission mentioned in its approval order the potential for the Price Proposal to encourage increased participation in a PIM and that increased participation would decrease the proportion of an agency order that would be internalized by the submitting member.

As the Exchange discusses in the Purpose section of this filing, and as further supported by the results of the survey discussed above, ISE members are able to respond to PIM orders in less than one second, and therefore the Exchange does not believe this proposal will discourage competition for PIM orders. Rather, ISE believes that this rule change, like the Price Proposal, could provide additional customer orders an opportunity for price improvement because it would reduce the market risk for members that are required to guarantee an execution at the NBBO or better.

III. Date of Effectiveness of the Proposed Rule Change and Timing of Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which the Exchange consents, the Commission will:

June 26, 2008.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on June 23, 2008, the New York Stock Exchange LLC ("NYSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been substantially prepared by the Exchange. II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to extend for three months the current Moratorium related to the qualification and registration of RCMMs, pursuant to Exchange Rule 107A, and CTs, pursuant to Exchange Rule 110.

On September 22, 2005, the Exchange filed SR-NYSE-2005-63³ with the Commission proposing to implement a Moratorium on the qualification and registration of new RCMMs and CTs. The purpose of the Moratorium was to allow the Exchange an opportunity to review the viability of RCMMs and CTs in the NYSE HYBRID MARKETSM ("Hybrid Market").⁴

During each phase of the Hybrid Market, new system functionality was included in the operation of Exchange systems, and new data was generated. As a result, the Exchange was unable to make an informed decision as to the viability of RCMMs and CTs in the Hybrid Market. The phased-in implementation of the Hybrid Market required the Exchange to extend the Moratorium an additional six times over the next twenty-four months.⁵

The Exchange is now proposing to extend the Moratorium, as amended,⁶ for an additional three months to September 30, 2008 in order to finalize its determination as to the roles of RCMMs and CTs and to formally submit a proposal to the Commission outlining the role, if any, these classes of traders have in the Exchange's evolving market.

On June 12, 2008, the Exchange filed its proposal to create its new market model ("New Model").⁷ Pursuant to its proposal, the Exchange intends to: (i) Provide market participants with additional abilities to post hidden liquidity on Exchange systems; (ii) create a Designated Market Maker ("DMM") and phase out the NYSE specialist; and (iii) enhance the speed of execution through technological enhancements and a reduction in message traffic between Exchange systems and its DMMs.

In light of these proposed changes, the Exchange seeks to continue its review of the data related to RCMMs' and CTs' current trading on the NYSE. Accordingly, the Exchange requests additional time to decide what roles, if any, RCMMs and CTs should perform in the proposed New Model.

The Exchange will issue an Information Memo announcing the extension of the Moratorium.

2. Statutory Basis

The basis under the Act⁸ for this proposed rule change is the requirement under section 6(b)(5)⁹ that an exchange have rules that are designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. The Exchange is currently reviewing the data related to RCMMs and CTs to evaluate its trading volume in the current, more electronic market. Since it is undergoing significant developments in its technology and its market model, the Exchange believes that an extension of time to finalize its determination of what, if any, roles the RCMMs and CTs will play in this evolving marketplace could potentially remove impediments to, and better improve, the mechanism of a free and open market.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change: (i) Does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(6) thereunder.¹¹

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act¹² normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii)¹³ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The NYSE has requested that the Commission waive the 30-day operative delay. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because it would allow the Moratorium to continue without interruption so that the Exchange may have additional time to make a final determination as to the future roles of RCMMs and CTs in the proposed New Model and to file with the Commission a proposed rule change outlining such roles. For these reasons, the Commission designates that the

¹¹ 17 CFR 240.19b-4(f)(6). Pursuant to Rule 19b-4(f)(6)(iii) under the Act, the Exchange is required to give the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied the five-day pre-filing requirement.

proposed rule change become operative immediately.¹⁴
