

a birth certificate. Form DS-10 is a form affidavit for completion by a witness to the birth of such an applicant; it collects information relevant to establishing the identity of the affiant, and the birth circumstances of the passport applicant. If credible, the affidavit may permit the applicant to show U.S. nationality based on the applicant's birth in the United States, despite never having been issued a U.S. birth certificate. We use the information collected on the person completing the affidavit to confirm that individual's identity, which is relevant to confirming his or her relationship to the applicant and the likelihood that the affiant has actual knowledge of the circumstances of the applicant's birth.

Methodology

When needed, a Birth Affidavit is completed at the time a person applies for a U.S. passport.
