

independent, non-federal consensus development panel will weigh the scientific evidence and write a draft statement that will be presented to the audience on the second day. The panel's statement will address these questions:

- Is the evidence on benefits and risks of repeat courses of antenatal corticosteroids sufficient to permit consensus recommendations?
- If so, what are the recommendations?
- If not, what additional information should be obtained?

On the final day of the conference, the panel's draft statement will be read in public, at which time members of the public are invited to offer comments on the draft.

The primary sponsors of this meeting are the National Institute of Child Health and Human Development and the NIH Office of Medical Applications of Research. Co-sponsors include the National Institute of Nursing Research and the National Heart, Lung, and Blood Institute.

This is the 112th Consensus Development Conference held by the NIH in the 23-year history of the Consensus Development Program. Advance information about the conference and conference registration materials may be obtained from the NIH Consensus Program Web site—<http://consensus.nih.gov>. Conference information can also be obtained from Prospect Associates of Silver Spring, Maryland by calling (301) 592-3320 or by e-mail to antenatal@prospect.com. Prospect Associate's address is 10720 Columbia Pike, Suite 500, Silver Spring, Maryland 20901-4437.

Dated: July 20, 2000.

Ruth L. Kirschstein,
Acting Director, NIH.
