#### SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit http://www.epa.gov/dockets.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another Federal Register notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The Acid Rain Program was established under Title IV of the 1990 Clean Air Act Amendments to address acid deposition by reducing emissions of sulfur dioxide (SO<sub>2</sub>) and nitrogen oxides (NO<sub>X</sub>). This information collection extension is necessary to continue implementation of the Acid Rain Program. It includes burden and costs associated with developing and modifying permits, complying with NO<sub>X</sub> permitting requirements, monitoring emissions, transferring allowances, participating in the annual allowance auctions, and participating in the program as an opt-in source.

Form Numbers: Agent Notice of Delegation #5900-172, Certificate of Representation #7610-1, General Account Form #7610-5, Allowance Transfer Form #7610-6, Retired Unit Exemption #7610-20, Allowance Deduction #7620-4, Acid Rain Permit Application #7610–16, Acid Rain NO<sub>X</sub> Compliance Plan #7610-28, Acid Rain NO<sub>X</sub> Averaging Plan #7610-29, New Unit Exemption #7610-19, Opt-In Permit Application #7610-26, Opt-In Utilization Report #7620-9. Respondents/affected entities: Electricity generating plants, industrial sources, and other persons.

Respondents' obligation to respond: Voluntary and mandatory (Clean Air Act sections 403, 407, 408, 410, 412, and 416).

Estimated number of respondents: 1,219 (total); includes 1,169 sources and 50 non-source entities participating in allowance trading activities.

Frequency of response: On occasion, quarterly, and annually.

Total estimated burden: 1,826,133 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$276,811,849 (per year); includes \$129,450,755 annualized capital or operation & maintenance costs.

Changes in Estimates: There is a decrease of 47,747 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. The decrease is principally due to source retirements, which have both reduced the estimated overall number of affected sources and shifted the estimated mix of monitoring methodologies used. The other factors contributing to the decrease in burden are reductions in the estimated numbers of allowance transfer and deduction

submissions, expected opt-in sources, and allowance auction bids.

## III. Summary of Public Comments Received and Agency Response to Comments

The Agency received one anonymous public comment and two other public comments on the notice. For these reasons, the Agency does not believe that the comments submitted during the comment period merit further review or a denial of the requests for voluntary cancellation and use termination.

#### IV. Cancellation Order

Pursuant to FIFRA section 6(f) (7 U.S.C. 136d(f)(1)), EPA hereby approves the requested cancellations and amendments to terminate uses of the registrations identified in Tables 1 and 2 of Unit II. Accordingly, the Agency hereby orders that the product registrations identified in Tables 1 and 2 of Unit II are canceled and amended to terminate the affected uses. The effective date of the cancellations that are subject of this notice is April 2, 2021. Any distribution, sale, or use of existing stocks of the products identified in Tables 1 and 2 of Unit II in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI will be a violation of FIFRA.

# V. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment in the **Federal Register** of February 10,

2021 (86 FR 8902) (FRL-10016-15). The comment period closed on March 12, 2021.

# VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the action. The existing stocks provision for the products subject to this order is as follows.

For the voluntary cancellations listed in Table 1 of Unit II, the registrants may continue to sell and distribute existing stocks of products listed in Table 1 until March 31, 2022, which is 1 year after publication of this cancellation order in the **Federal Register**. Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1 of Unit II, except for export in accordance with FIFRA section 17 (7 U.S.C. 1360) or for proper disposal.

Now that EPA has approved the product labels reflecting the requested amendments to terminate, listed in Table 2 of Unit II, registrants are permitted to sell or distribute products listed in Table 2 of Unit II under the previously approved labeling until September 30, 2022, a period of 18 months after publication of the cancellation order in this Federal Register, unless other restrictions have been imposed. Thereafter, registrants will be prohibited from selling or distributing the products whose labels include the terminated uses identified in Table 2 of Unit II, except for export consistent with FIFRA section 17 or for proper disposal.

Persons other than the registrant may sell, distribute, or use existing stocks of canceled products and products whose labels include the terminated uses until supplies are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products and terminated uses.

Authority: 7 U.S.C. 136 et seq.

Dated: March 26, 2021.

# Product Cancellation Order for Certain Pesticide Registrations

**AGENCY:** Environmental Protection

Agency (EPA). **ACTION:** Notice.

**SUMMARY:** This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Table 1 of Unit II, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows a February 17, 2021 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 2 of Unit II to voluntarily cancel these product registrations. In the February 17, 2021 notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency received three public comments on the notice, but none merited its further review of the requests. Further, the registrant of 70596–9 & 15440–31 withdrew their requests for cancellation; therefore, these registrations have been removed from this notice. Accordingly,
