DEPARTMENT OF LABOR**Employment and Training
Administration****[NAFTA-03888]****Lear Corp., United Technologies,
Automotive, Inc.; Mold and Die Shop,
El Paso, TX; Amended Certification
Regarding Eligibility To Apply for
NAFTA-Transitional Adjustment
Assistance**

In accordance with Section 250(A), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974 (19 USC 2273), the Department of Labor issued a Certification for NAFTA Transitional Adjustment Assistance on July 11, 2000, applicable to workers of Lear Corp., Mold and Die Shop, El Paso, Texas. The notice was published in the **Federal Register** on July 24, 2000 (65 FR 45621).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers inspected, modified and assembled dies manufactured by outside vendors but used by the subject firm for crimping wire terminals. New information received from the company shows that on May 4, 1999, Lear Corp. purchased United Technologies Automotive, Inc. Information also shows that workers separated from employment at Lear Corp., Mold and Die Shop had their wages reported under a separate unemployment insurance (UI) tax account for United Technologies Automotive, Inc.

Accordingly, the Department is amending the certification to properly reflect this matter.

The intent of the Department's certification is to include all workers of Lear Corp., Mold and Die Shop, El Paso, Texas who were adversely affected by the shift of production to Mexico.

The amended notice applicable to NAFTA-03888 is hereby issued as follows:

All workers of Lear Corp., United Technologies Automotive, Inc., Mold and Die

Shop, El Paso, Texas who became totally or partially separated from employment on or after April 21, 1999 through July 11, 2002 are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed at Washington, D.C. this 13th day of September, 2000.

Edward A. Tomchick,*Director, Division of Trade Adjustment Assistance.*

SUPPLEMENTARY INFORMATION: Each year satellite carriers submit royalties to the Copyright Office for the retransmission to their subscribers of over-the-air broadcast signals. 17 U.S.C. 119. These royalties are, in turn, distributed in one of two ways to copyright owners whose works were included in a retransmission of an over-the-air broadcast signal and who timely filed a claim for royalties with the Copyright Office. The copyright owners may either negotiate the terms of a settlement as to the division of the royalty funds, or the Librarian of Congress may convene a Copyright Arbitration Royalty Panel ("CARP") to determine the distribution of the royalty fees that remain in controversy. See 17 U.S.C. chapter 8.

During the pendency of any proceeding, however, the Librarian of Congress may distribute any amounts that are not in controversy, provided that sufficient funds are withheld to cover reasonable administrative costs and to satisfy all claims with respect to which a controversy exists under his authority set forth in section 119(b)(4)(C) of the Copyright Act, title 17 of the United States Code. See, e.g., Order, Docket No. 97-1 CARP SD 92-95 (dated July 20, 1999).

On September 15, 2000, representatives of the Phase I claimant categories to which royalties have been allocated in prior satellite distribution proceedings filed a motion with the Copyright Office for a partial distribution of 75% of the 1996-1998 satellite royalty funds. The Office will consider this motion after all interested parties have been identified by filing the Notices of Intention requested herein and have had an opportunity to file responses to the motion.
