

response options to existing information collection and will represent non-substantive changes without additional public notice. Such small incremental changes will not significantly affect the burden.

A 60-day notice published in the **Federal Register** on May 16, 2025, vol. 90, No. 94; pp. 21049–51. There were no public comments.

Need and Proposed Use of the Information: Per statutory responsibilities, the collection of information outlined in the “Total Estimated Annualized Burden Hours”

section below is needed to collect, analyze, and publish stem cell transplantation-related data, including patient outcomes data, and provide the Secretary of HHS with an annual report of transplant center-specific survival data.

Likely Respondents: Transplant centers.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to

develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Form name ¹	Number of respondents ²	Number of responses per respondent ³	Total responses	Average burden per response (in hours)	Total burden hours ⁴
Pre-Transplant Information Collection	182.00	53.80	⁵ 9,788.00	⁶ 2.24	21,902.61
Transplant Procedure and Product Information	182.00	53.80	⁷ 9,788.00	⁸ 0.75	7356.66
Post-Transplant Periodic Information Collection based on Pre-determined Schedule	182.00	418.90	⁹ 76,232.00	¹⁰ 0.57	43,810.53
Total	182.00	95,808.00	73,069.80

¹ This burden estimate table refers to data collections at different time periods consistent with approved practice. The SCTOD contractor is working with respondents to reduce burden by submitting data using interoperability standards. These data collections may include OMB-approved forms.

² The total number of U.S. transplant centers that submit data to the SCTOD is 182 as of April 14, 2025. The number of centers providing data may change intermittently based on opening or closure of centers.

³ The Number of Responses per Respondent was calculated by dividing the Total Responses by the Number of Respondents and rounding to the nearest hundredth.

⁴ The numbers in this column have been rounded to the nearest hundredth and do not sum precisely due to rounding adjustments throughout the table.

⁵ Total responses for Pre-Transplant Information Collection equals the estimated number of new transplant patients in 2024.

⁶ Pre-transplant Data includes baseline recipient data including patient demographics, pertinent medical history, disease characteristics and status, co-morbidities, transplant data procedure characteristics, including preparative regimen, and donor data. This number is rounded to the nearest hundredth. The actual burden estimate for these data is 2.2377.

⁷ Transplant Procedure and Product Information equals estimated number of new transplant patients in 2024.

⁸ Transplant Procedure and Product Information includes Graft-vs-Host Disease prophylaxis, graft source, donor type and degree of HLA matching and graft manipulation; graft characteristic data for cord blood units, including infused cell dose; and product information. This number is rounded to the nearest hundredth. The actual burden estimate for these data is 0.7516.

⁹ The number of responses for Post-Transplant Periodic Information Collection is based on a predetermined schedule: 100 days after transplant, 6 months after transplant, 1 year after transplant, annually for 6 years after transplant and then biennially thereafter. In any given year the number of responses is a function of the number of transplants in that year, the number of transplants in previous years, and expected patient survival between the time of transplant and any follow-up activity.

¹⁰ Post-Transplant Data Collection includes hematopoietic recovery and engraftment, serious complications including Graft-vs-Host Disease and second cancers, disease status, survival status, cause of death, and subsequent procedures. This number is rounded to the nearest hundredth. The actual burden estimate is 0.5747.

BILLING CODE 4165–15–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Proposed Collection: Public Comment Request; Information Collection Request Title: The National Health Service Corps and Nurse Corps Interest Capture Form—OMB No. 0915–0337—Revision

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 requirement for opportunity for public comment on proposed data collection projects, HRSA announces plans to submit an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, HRSA seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on this ICR should be received no later than September 29, 2025.

ADDRESSES: Submit your comments to paperwork@hrsa.gov or mail the HRSA Information Collection Clearance

Officer, Room 14NWH04, 5600 Fishers Lane, Rockville, Maryland 20857.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, email paperwork@hrsa.gov or call Samantha Miller, the HRSA Information Collection Clearance Officer, at (301) 443-3983.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the ICR title for reference.

Information Collection Request Title: The National Health Service Corps and Nurse Corps Interest Capture Form OMB No. 0915-0337—Revision.

Abstract: HRSA's National Health Service Corps (NHSC) and the Nurse Corps Scholarship and Loan Repayment Programs are committed to improving the health of the nation's underserved by uniting communities in need with caring health professionals and by supporting communities' efforts to build better systems of care. The NHSC and Nurse Corps Interest Capture Form, which can be accessed on the HRSA website at <https://bhwh.hrsa.gov/about-us/ask-question>, is an optional form that

a health profession student, licensed clinician, faculty member, clinical site administrator, or other interested individual can complete and submit to HRSA online. The purpose of the form is to enable individuals and clinical sites to ask questions about the NHSC and/or Nurse Corps Scholarship and Loan Repayment Programs, and to provide their contact information so that HRSA may provide them with periodic program updates and other general information via email. Completed forms will contain information such as the names and roles of the individual(s), their phone number(s) and email address(es), and the HRSA program(s) in which they are interested or about which they have questions. The revisions in this ICR are as follows:

(a) An increase in the annualized information collection burden due to a higher number of respondents.

(b) The addition of an online version of the NHSC and Nurse Corps Interest Capture Form, located on the HRSA website at <https://bhwh.hrsa.gov/about-us/ask-question>.

Need and Proposed Use of the Information: The need and purpose of this information collection is to share resources and information regarding the

NHSC and Nurse Corps Scholarship and Loan Repayment Programs with interested HRSA website (<https://www.hrsa.gov/>) visitors.

Likely Respondents: Health profession students, licensed clinicians, faculty members, clinical site administrators or other individuals who are interested in learning more or have questions about NHSC and Nurse Corps Scholarship and Loan Repayment Programs.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours *
NHSC and Nurse Corps Interest Capture Form	17,676	1	17,676	0.025	442
Total	17,676	17,676	442

* Total Burden Hours are rounded up to the nearest whole number.

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

BILLING CODE 4165-15-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[A2407-014-004-065516; #O2412-014-004-047181.1; LLESJ00000]

Right-of-Way Application; Tennessee

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of application.

SUMMARY: The purpose of this notice is to inform the public that the Bureau of Land Management (BLM) has received a right-of-way (ROW) application from East Tennessee Natural Gas, LLC (ETNG) for a natural gas pipeline that is proposed to cross Trousdale, Smith, Jackson, Putnam, Overton, Fentress, Morgan, and Roane counties, Tennessee. The BLM anticipates deciding on the pipeline ROW application after the

publication of this notice, including any associated terms and conditions, if approved.

DATES: On December 30, 2024, the Federal Energy Regulatory Commission (FERC) published a notice of availability in the **Federal Register** (FR 2024-31338) for the Final Environmental Impact Statement (FEIS) regarding the 30-inch natural gas pipeline and appurtenant facilities.

ADDRESSES: The ROW application and maps of the project are available for review at the BLM Southeastern States District Office located at 273 Market Street, Flowood, Mississippi 39232. The FEIS is publicly available to view and download on the FERC eLibrary at the following website https://elibrary.ferc.gov/eLibrary/filelist?accession_num=20241220-3002.
