

pilot (see **FOR FURTHER INFORMATION CONTACT** above for instructions for contacting CBP if you do not have an assigned client representative). CBP will notify the selected applicants by an email message of their selection and the starting date of their participation. Selected participants may have different starting dates. Anyone providing incomplete information, or otherwise not meeting participation requirements, will be notified by an email message and given the opportunity to resubmit their application.

At this time, PGA Message Set data may be submitted only for entries filed at certain ports. A current listing of those ports may be found on the CBP Web site at <http://www.cbp.gov/document/guidance/list-aceitds-pga-message-set-pilot-ports>.

This test covers communication and coordination among the agencies and the filers of data through the PGA Message Set for the importation of plants, animals, and plant and animal products regulated by APHIS. Entry data submissions will be subject to validation edits and any applicable PGA business rules programmed into ACE. Once all of the PGAs have concluded their review of the shipment, issued a "May Proceed," and have unset any remaining holds, CBP will send a single U.S. Government release message to the filer indicating that CBP has conditionally released the goods.

IV. Confidentiality

All data submitted and entered into ACE is subject to the Trade Secrets Act (18 U.S.C. 1905) and is considered confidential, except to the extent as otherwise provided by law. Participation in this test is not confidential and upon a written Freedom of Information Act request, the name(s) of an approved participant(s) will be disclosed by CBP in accordance with 5 U.S.C. 552.

SUPPLEMENTARY INFORMATION:

Title: Importation of Baby Corn and Baby Carrots From Zambia.

OMB Control Number: 0579-0284.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in "Subpart—Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-73).

In accordance with § 319.56-43, baby corn and baby carrots from Zambia are subject to certain conditions before entering the continental United States to prevent the introduction of plant pests into the United States. The regulations include requirements for the use of a phytosanitary certificate issued by the national plant protection organization (NPPO) of Zambia stating that the commodity was inspected and found free of certain pests.

The information collection activity of a phytosanitary certificate was approved by the Office of Management and Budget (OMB) under control number 0579-0284. However, when we compared the regulations with this collection activity, we found that inspection of production sites was omitted. Therefore, we have added inspection of production sites to this collection.

We are asking OMB to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic,

mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1.4 hours per response.

Respondents: Importers and exporters of baby corn and baby carrots and the NPPO of Zambia.

Estimated annual number of respondents: 6.

Estimated annual number of responses per respondent: 1.67.

Estimated annual number of responses: 10.

Estimated total annual burden on respondents: 14 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 28th day of September 2015.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.
