

DEPARTMENT OF AGRICULTURE**Agricultural Marketing Service****[Docket Number FV-05-309]****United States Standards for Grades of Dewberries and Blackberries****AGENCY:** Agricultural Marketing Service, USDA.**ACTION:** Notice.

SUMMARY: The Agricultural Marketing Service (AMS) published a notice soliciting comments on a proposal to revise the color requirements in the voluntary United States Standards for Grades of Dewberries and Blackberries. The Agency has decided not to proceed further with this action due to the comments and concerns received from the industry.

EFFECTIVE DATE: October 6, 2005.**FOR FURTHER INFORMATION CONTACT:**

Cheri L. Emery, Standardization Section, Fresh Products Branch, Fruit and Vegetable Programs, Agricultural Marketing Service, U.S. Department of Agriculture, 1400 Independence Avenue, SW., Room 1661 South Building, STOP 0240, Washington, DC 20250-0240, Fax (202) 720-8871 or call (202) 720-2185; E-mail Cheri.Emery@usda.gov. The United States Standards for Grades of Dewberries and Blackberries are available either through the address cited above or by accessing the Fresh Products Branch Web site at: <http://www.ams.usda.gov/standards/stanfrfv.htm>.

Background

At a 2003 meeting with the Fruit and Vegetable Industry Advisory Committee, AMS was asked to review all the fresh fruit and vegetable grade standards for usefulness in serving the industry. AMS had identified the United States Standards for Grades of Dewberries and Blackberries for a possible revision. The United States Standards for Grades of Dewberries and Blackberries were last amended on February 13, 1928.

On June 21, 2005, a notice seeking comments on the possible revision of the standards to allow for a lesser amount of color or varying shades of color was published in the **Federal Register** (70 FR 21392) with the comment period ending August 22, 2005.

Two comments were received from the industry during the official period for comment. Both comments received did not support the revision of the standards based on color being a factor of the ripening process, and the effect

that it has on the marketing of dewberries and blackberries.

After reviewing and considering the comments received, the Agency has decided not to proceed further with this action.

Authority: 7 U.S.C. 1621-1627.

Dated: October 3, 2005.

BILLING CODE 3410-11-M**DEPARTMENT OF COMMERCE****Foreign-Trade Zones Board****[Docket T-3-2005]**

Foreign-trade Zone 77 — Memphis, Tennessee, Application for Temporary/interim Manufacturing Authority, Brother Industries (U.S.A.) Inc., (Manufacture/Refurbish Toner Cartridges), Bartlett, Tennessee

An application has been submitted to the Executive Secretary of the Foreign-Trade Zones Board (the Board) by the City of Memphis and Shelby County, Division of Planning and Economic Development, grantee of FTZ 77, requesting temporary/interim manufacturing (T/IM) authority within Subzone 77B at the Brother Industries (U.S.A.) Inc. plant located in Bartlett, Tennessee. The application was filed on September 29, 2005.

The Brother facility (260 employees; annual capacity for 120,000 toner cartridges) is located within Subzone 77B. Under T/IM procedures, the company has requested authority to manufacture, remanufacture, charge and recharge toner cartridges (HTS 8472.90 and 8473.30; these products enter the United States duty free). The company may source the following items from abroad for manufacturing of one or both of the finished products under T/IM authority, as delineated in Brother's application: toner (HTS 3707.90); toner caps (3923.50); collars, guards, and covers (3926.90); seals (5911.90); labels (4821.10); developer rollers (9009.99); bearings (8483.30); springs (7320.20); gears (8483.90); retaining rings (7318.29); washers (7318.22); and "lower film" (3919.90). Duty rates on these inputs range from duty-free to 6.5%. T/IM authority could be granted for a period of up to two years. Brother has also submitted a request for permanent FTZ manufacturing authority (for which Board filing is pending), which includes five additional inputs.

FTZ procedures would allow Brother to elect the finished-product duty rates for the imported production inputs listed above. The company indicates that it would also realize logistical/paperwork savings under FTZ procedures. Public comment is invited
