Needs and Uses: The Federal Communications Commission (Commission or FCC) adopted Use of *Spectrum Bands Above 24 GHz for Mobile Radio Services* in a *Second Report and Order* ("Second R&O"), GN Docket No. 14-177, IB Docket No. 15-256, WT Docket No. 10-112 and IB Docket No. 97-95, FCC 17-152, on November 16, 2017, published in 83 FR 37 on January 2, 2018. The Commission also adopted *Use of Spectrum Bands Above 24 GHz for Mobile Radio Services* in the *Third R&O*, GN Docket No. 14-177, WT Docket No. 10-112, on June 7, 2018, FCC 18-73, published in 83 FR 34478 on July 20, 2018. In the *Second and Third R&Os*, the Commission amended § 25.136 by revising the section heading and paragraphs (a) introductory text, (a)(4), (b), (c), and (d) and adding paragraphs (e), (f) and (g). The Commission added the 24 GHz band (24.75-25.25 GHz) and 47 GHz band (47.2-48.2 GHz) to the bands that are subject to the framework for sharing between the Upper Microwave Flexible Use Service (UMFUS) and the Fixed-Satellite Service (FSS) established in that rule. Therefore, the Commission expanded the scope of the rules to include additional bands. In turn, since the rules now apply in additional bands, the number of respondents, the annual number of responses, annual burden hours and annual costs will increase for this collection. In addition, the

Commission modified the sharing criteria between UMFUS and FSS to facilitate deployment of FSS earth stations in smaller markets and decrease the possibility of conflicts between UMFUS and FSS. The other rule sections previously approved under OMB Control Number 3060-1215 have not changed.

RIN 0648-XG739

Fisheries of the Northeastern United States; Summer Flounder Fishery; Retroactive Quota Transfer

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces a retroactive commercial summer flounder quota transfer for the 2018 fishing year. The State of North Carolina is transferring quota to the Commonwealth of Virginia. This quota adjustment is necessary to comply with the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan quota transfer provisions. This announcement informs the public of the revised 2018 commercial quotas for North Carolina and Virginia.

DATES: Effective February 6, 2019, through December 31, 2019.

FOR FURTHER INFORMATION CONTACT: Cynthia Ferrio, Fishery Management Specialist, (978) 281-9180.

SUPPLEMENTARY INFORMATION: Regulations governing the summer flounder fishery are found in 50 CFR 648.100 through 648.110. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through North Carolina. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.102, and the initial 2018 allocations were published on December 22, 2017 (82 FR 60682),

and corrected January 30, 2018 (83 FR 4165).

The final rule implementing Amendment 5 to the Summer Flounder Fishery Management Plan, as published in the **Federal Register** on December 17, 1993 (58 FR 65936), provided a mechanism for transferring summer flounder commercial quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider the criteria in § 648.102(c)(2)(i)(A) through (C) in the evaluation of requests for quota transfers or combinations.

North Carolina is transferring 5,000 lb (2,268 kg) of 2018 summer flounder commercial quota to Virginia through mutual agreement of the states. This transfer was requested to repay landings made by a North Carolina-permitted vessel in Virginia under a safe harbor agreement. Based on the initial quotas published in the 2018 Summer Flounder, Scup, and Black Sea Bass Specifications and subsequent adjustments and transfers, the revised summer flounder quotas for calendar year 2018 are now: North Carolina, 1,747,145 lb (792,492 kg); and Virginia, 1,356,972 lb (615,512 kg).

The 2018 fishing year ended December 31, 2018. The revised 2018 quotas will be used by NMFS in the ongoing quota accounting that is

finalized in late 2019. These transfers were requested as a result of unforeseeable late-season events. Specifically, a landing event where a vessel were granted safe harbor too late in the year to publish notice in 2018.
