[Docket No. TB–01–03]

Burley Tobacco Advisory Committee; Meeting

In accordance with the Federal Advisory Committee Act (5 U.S.C. App.) announcement is made of the following committee meeting:

Name: Burley Tobacco Advisory Committee.

Date: September 13, 2001.

Time: 9:00 a.m.

Place: Campbell House Inn, South Colonial Hall, 1375 Harrodsburg Road, Lexington, Kentucky 40504.

Purpose: To elect officers, establish submarketing areas, recommend opening

dates for auctions, discuss selling schedules, and review the operational policies and procedures for the 2001–2002 burley tobacco marketing season.

The meeting is open to the public. Persons, other than members, who wish to address the Committee at the meeting should contact John P. Duncan III, Deputy Administrator, Tobacco Programs, AMS, U.S. Department of Agriculture, Stop 0280, 1400 Independence Avenue, SW., Room 502 Annex Building, Washington, DC 20250–0280, (202) 205–0567, prior to the meeting. Written statements may be submitted to the Committee before, at, or after the meeting. If you need any accommodations to participate in the meeting, please contact the Tobacco Programs at (202) 205–0567 by September 7, 2001, and inform us of your needs.

Dated: August 14, 2001.

Barry L. Carpenter,

Acting Administrator, Agricultural Marketing Service.

BILLING CODE 3410–02–P

DEPARTMENT OF AGRICULTURE

Forest Service

Exodus Timber Sale Project, Umpqua National Forest, Douglas County, OR

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The USDA Forest Service, will prepare an Environmental Impact Statement (EIS) for a timber sale and connected actions within the Black Creek watershed planning area of the North Umpqua Ranger District. These actions include timber sales, the construction of temporary roads, site preparation, tree planting, fuels hazard reductions, road decommissioning, road repair, precommercial thinning, instream wood placement, and soil restoration. The planning area is located approximately 38 miles east of Roseburg, Oregon. The project is expected to be implemented 2003 through 2005. The agency gives notice of the full environmental analysis and decision-making process that will occur on the proposal so that interested and affected people may become aware of how they can participate in the process and contribute to the final decision.

DATES: Comments concerning the scope of the analysis should be received in writing, by November 16, 2001.

ADDRESSES: Send written comments and suggestions concerning this proposal to Carol Cushing, District Ranger, North Umpqua Ranger District, 18782 North Umpqua Highway, Glide, Oregon 97443

FOR FURTHER INFORMATION CONTACT:

Direct questions about the proposed action or EIS to Debbie Anderson, ID Team Leader, North Umpqua Ranger District, 18782 North Umpqua Highway, Glide, Oregon 97443 or (541) 496–3532.

SUPPLEMENTARY INFORMATION: The area being analyzed in the Exodus Timber Sale Project EIS encompasses approximately 6,750 acres of National Forest System land on the North Umpqua Ranger District. The planning area is bounded to the North by the Dutch Creek Ridge, to the South by the Little River/South Umpqua Divide, to the East by Black Butte and Clover Ridge, and to the West by Red Butte and Peter Paul Prairie. The planning area includes all or portions of sections 20, 21, 28, 29, 32 through 34, T26S, R3E; sections 1 through 5, 8 through 17, 20 through 29, and 32 through 36, T27S, R3E; section 7, 17 through 23 and 25 through 36, T27S, R4E; sections 30 and 31, T27S, R5E; sections 1 through 4, 10 through 15, 23 through 26, 35 and 36, T28S, R3E; sections 1 through 24 and 26 through 30, T28S, R4E; sections 18 and 19, T28S, R5E, Willamette Meridian, Douglas County, Oregon.

The Exodus Timber Sale Project proposed action is based on the need to achieve the desired conditions for the planning area recommended in the 1995 Little River Watershed Analysis. Timber harvest proposals are based on the need to maintain a high level of vegetative diversity in both structure and pattern within the watershed over time, by approximating large and small scale natural disturbance processes and patterns through even and uneven aged silvicultural treatments. Proposed natural fuels prescriptions are based on the need to move the planning area from a high severity fire regime towards a moderate severity fire regime. Rehabilitation of soils through subsoiling is based on the need to improve the long term site productivity and water infiltration within managed stands that have been adversely affected by past management practices. Instream wood placement is based on the need to improve aquatic habitat where large woody debris has been removed or is otherwise absent or deficient. Pre-
