SUPPLEMENTARY INFORMATION:

I. Background

MCSAC was established to provide FMCSA with advice and recommendations on motor carrier safety programs and motor carrier safety regulations. MCSAC is composed of up to 20 voting representatives from safety advocacy, safety enforcement, labor, and industry stakeholders of motor carrier safety. The diversity of the Committee ensures the requisite range of views and expertise necessary to discharge its responsibilities. The Committee operates as a discretionary committee under the authority of the U.S. Department of Transportation (DOT), established in accordance with the provisions of the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C. App. 2. See FMCSA's MCSAC Web site for additional information about the committee's activities at <http://mcsac.fmcsa.dot.gov/>.

Voluntary Compliance Task

The truck and motorcoach industries and the DOT have invested significant resources to research, develop, and test strategies and technologies to reduce truck and bus crashes. In September 2014, the Commercial Vehicle Safety Alliance submitted a request to FMCSA to consider initiating a pilot program to investigate the benefits and feasibility of voluntary compliance. Citing research that has been underway for several years, the Agency established an Alternative Compliance initiative the goal of which is to analyze the concept and gather data to support how this concept might be developed and implemented. The Agency will request that the MCSAC, with its collective expertise on transportation safety, identify options for the motor carrier safety community to promote programs that could improve safety beyond the standards established in FMCSA regulations.

II. Meeting Participation

Oral comments from the public will be heard during the last half-hour of the meetings each day. Should all public

comments be exhausted prior to the end of the specified period, the comment period will close.
