

local media, newspapers, and the BLM and the USFS Web sites.

The amended application does not affect the current segregation, which expires June 28, 2017, unless the application is denied or canceled or the withdrawal is approved prior to that date.

The application will be processed in accordance with the regulations set forth in 43 CFR part 2300.

Leslie A. Frewing,

Chief, Branch of Land, Minerals, and Energy Resources, Acting.

Notice of Availability of the Draft Craters of the Moon National Monument and Preserve Plan Amendment and Environmental Impact Statement, Idaho

AGENCY: Bureau of Land Management,
Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM) has prepared a Draft Monument Management Plan (MMP) Amendment and Draft Environmental Impact Statement (EIS) for the Craters of the Moon National Monument and Preserve (Monument) and by this notice is announcing the opening of the public comment period.

DATES: To ensure that comments will be considered, the BLM must receive written comments on the Draft MMP Amendment/Draft EIS by December 29, 2016. The BLM will announce future meetings or hearings and any other public participation activities at least 15 days in advance through public notices, media releases, and/or mailings.

ADDRESSES: You may submit comments related to the Draft MMP Amendment/Draft EIS by any of the following methods:

- *Web site:* http://www.blm.gov/id/st/en/prog/nepa_register/Craters-plan-amdt_2013.html.
- *email:* BLM_ID_CRMO@blm.gov.
- *fax:* 208-732-7317.
- *mail:* BLM Shoshone FO, 400 West F Street, Shoshone, ID 83352.

Copies of the Draft MMP Amendment/Draft EIS are available in the Shoshone Field Office at the above address.

FOR FURTHER INFORMATION CONTACT: Lisa Cresswell, Planning Team Lead, telephone 208-732-7200; BLM Shoshone Field Office, 400 West F Street Shoshone, ID 83352; email BLM_ID_CRMO@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to contact Ms. Cresswell. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question for Ms. Cresswell. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The Draft MMP Amendment/Draft EIS for the Craters of the Moon National Monument and Preserve (Monument) is now available. The BLM prepared this document in consultation with cooperating agencies and in accordance with NEPA, FLPMA, implementing regulations, the BLM's Land Use Planning Handbook (H-1601-1) and National Environmental Policy Handbook (H-1790-1), and other applicable law and policy, including BLM Instruction Memorandum No. 2016-105, Land Use Planning and Environmental Policy Act Compliance within Greater Sage-Grouse Approved Resource Management Plans and Plan Amendments Decision Area.

The original Monument was created in 1924 by President Calvin Coolidge and was expanded in 2000 by President Bill Clinton. The Monument is part of the BLM's National Conservation Lands and one of two BLM national monuments jointly managed with the National Park Service. The MMP covers the approximately 275,100 BLM-managed acres of the 753,200-acre Monument.

In 2011, the U.S. District Court for the District of Idaho found that the 2007 MMP/EIS did not adequately consider current science and agency policies designed to protect Greater Sage-Grouse (GRSG) habitat, particularly with regard to managing livestock grazing in the Monument. The court also found that BLM violated NEPA by failing to analyze a sufficient range of livestock grazing alternatives. In September 2015, the BLM issued a decision amending BLM land use plans in Idaho and Southwestern Montana to address GRSG conservation, including the 2007 Craters of the Moon MMP. The 2015 decision and supporting analysis addressed several of the deficiencies identified by the Court with regard to GRSG conservation in the Monument, but the

BLM determined that issues such as the location and amount of livestock grazing and protection of Monument values required additional analysis, which is addressed in this Draft MMP Amendment/Draft EIS.

The Draft MMP Amendment/Draft EIS analyzes management options for the BLM-managed portions of the Monument that were not evaluated in the EIS for the 2007 MMP, as amended by the 2015 Sage-Grouse Approved Resource Management Plan Amendment (ARMPA). This Draft MMPA/EIS will amend the 2007 plan, but will not change decisions from the 2015 Sage-Grouse ARMPA. Its purpose is to consider a range of reasonable alternatives for managing livestock grazing and GRSG on BLM-managed lands in the Monument in a manner that maintains the values identified in the Presidential Proclamations that established and expanded it. The range of alternatives is broad, from those that would reduce the area available for grazing to those that would make the entire planning area unavailable for grazing.

The Draft MMP Amendment/Draft EIS analyzes five alternatives that provide a range of livestock grazing levels and availability. Alternative C is the BLM's preferred alternative. Alternative A, the no action alternative, would continue the management established in the 2007 MMP as amended by the 2015 Sage-Grouse ARMPA. Under the No Action Alternative, 273,900 acres would be available for livestock grazing, with 38,187 animal unit months (AUMs).

Alternative B would reduce AUMs available for livestock grazing by 75 percent (making 9,432 AUMs available) and close five areas to grazing: Little Park kipuka, the North Pasture of Laidlaw Park Allotment, Larkspur Park kipuka, the North Pasture of Bowl Crater Allotment, and Park Field kipuka. This alternative would adjust two allotment boundaries to make 21,000 acres unavailable for livestock grazing and for the protection of GRSG and other Monument values. A total of 254,100 acres would be available for livestock grazing.

Alternative C, the agency-preferred alternative, would make 273,600 acres available for livestock grazing and adjust two allotment boundaries, which would set the maximum number of AUMs at 37,792. Where appropriate, livestock grazing would be used as a tool to improve and/or protect wildlife habitat. Guidelines for livestock grazing management would be set based on vegetation and wildlife habitat conditions and needs, consistent with the 2015 Sage-Grouse ARMPA.

Alternative D would eliminate livestock grazing from BLM-managed lands within the Monument boundary (0 acres and 0 AUMs available) and adjust two allotment boundaries. All livestock-related developments would be removed, while some fences might be required to exclude livestock from the Monument.

Alternative E would reduce AUMs available for livestock grazing by approximately 50 percent (making 19,388 AUMs available) and close Larkspur Park kipuka to grazing. This alternative would adjust two allotment boundaries and make 272,900 acres available for grazing. No net gain in livestock-related infrastructure would be allowed.

The land use planning process was initiated on June 28, 2013, through a Notice of Intent published in the **Federal Register**, notifying the public of a formal scoping period and soliciting public participation in the planning process. Four scoping meetings were held in July 2013 in Arco, Carey, Rupert, and American Falls, Idaho. Based on public input regarding relevant issues to consider in the planning process and BLM goals and objectives, the BLM formulated the five alternatives considered and analyzed in the Draft MMP Amendment/Draft EIS. Because nominations for the designation of areas of critical environmental concern (ACECs) were previously analyzed for the 2007 MMP, the BLM did not solicit new ACEC nominations during scoping.

Following the close of the public review and comment period, the Draft MMP Amendment/Draft EIS will be revised in preparation for its release as the Proposed MMP Amendment and Final EIS. The BLM will respond to substantive comments by making appropriate revisions to the document or explain why a comment did not warrant a change.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 40 CFR 1506.6, 40 CFR 1506.10, 43 CFR 1610.2.

Timothy M. Murphy,
BLM Idaho State Director.

Notice of 30 Day Comment Period for an Environmental Assessment on a Special Use Permit for a Wireless Telecommunication Facility

AGENCY: National Park Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: The National Park Service (NPS) is announcing a 30-day review period for an environmental assessment prepared for a permit request from Verizon Wireless to obtain a right-of-way to replace an existing communication tower with a shorter tower at Theodore Roosevelt National Park, North Dakota. This notice is issued in accordance with the procedures of Director's Order 53, Special Park Uses.

DATES: Comments must be received on, or before October 31, 2016.

ADDRESSES: Information on this application process can be obtained by contacting the Superintendent at Theodore Roosevelt National Park, P.O. Box 7, Medora, North Dakota, 58645–0007, or by telephone at 701–623–4466.

FOR FURTHER INFORMATION CONTACT:

Please contact Superintendent Wendy Ross at the address and telephone number listed above.

SUPPLEMENTARY INFORMATION: Theodore Roosevelt National Park (the Park) has received an application from Verizon Wireless to obtain a right of way to replace the park's existing communication tower with a shorter tower to accommodate Verizon Wireless equipment and to mitigate adverse impacts to park resources.

The current and proposed telecommunications site, located just northeast of U.S. Highway 85 at the park's east boundary, is in Township 148 North, Range 99 West, in the northwest quarter of Section 26, in McKenzie County, North Dakota. The current tower accommodates U.S. Forest Service equipment as well as communications equipment belonging to the park that would be relocated to the new tower. The proposed project includes removing the current tower and blinking aviation lighting, and constructing a tower not to exceed 190 feet in height, a 12-foot by 30-foot equipment shed, a small graveled parking area, and supporting underground utilities. The new tower would not have blinking aviation lighting.

The no-action alternative would result in the park continuing to maintain its current tower and require Verizon to construct a second tower just outside the park boundary. The NPS is continuing to evaluate the proposal pursuant to the National Environmental Policy Act, the National Historic Preservation Act, the Telecommunications Act of 1966, and other NPS requirements, policies, and regulations. Impact analyses, including the effects, if any, on cultural resources, will be available for public review on the NPS planning, Environment, and Public Comment (PEPC) Web site at: <http://parkplanning.nps.gov/publicHome.cfm>. A 30-day public review period for the environmental assessment will be held after the publishing of this notice. Project related background material, including press releases, site photographs, public scoping material, and other project related documents previously released, are available on the PEPC Web site at the address listed above.

Dated: July 13, 2016.

Cameron H. Sholly,
Regional Director.

National Register of Historic Places; Notification of Pending Nominations and Related Actions

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The National Park Service is soliciting comments on the significance of properties nominated before September 2, 2016, for listing or related actions in the National Register of Historic Places.

DATES: Comments should be submitted by October 17, 2016.

ADDRESSES: Comments may be sent via U.S. Postal Service to the National Register of Historic Places, National Park Service, 1849 C St. NW., MS 2280, Washington, DC 20240; by all other carriers, National Register of Historic Places, National Park Service, 1201 Eye St. NW., 8th Floor, Washington, DC 20005; or by fax, 202–371–6447.

SUPPLEMENTARY INFORMATION: The properties listed in this notice are being considered for listing or related actions in the National Register of Historic
