Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Information Collection Clearance Division, U.S. Department of Education, 400 Maryland Avenue SW., LBJ, Room 2E105, Washington, DC 20202–4537.**FOR FURTHER INFORMATION CONTACT:** For specific questions related to collection activities, please contact Braden Goetz, 202–245–7405.**SUPPLEMENTARY INFORMATION:** The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that

is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

*Title of Collection:* Natural Experiments and Model Career-Focused Schools: An Environmental Scan.*OMB Control Number:* 1830–NEW.*Type of Review:* A new information collection.*Respondents/Affected Public:* State, Local and Tribal Governments.*Total Estimated Number of Annual Responses:* 100.*Total Estimated Number of Annual Burden Hours:* 25.*Abstract:* The purpose of this collection is to determine the extent to which there are natural circumstances that approximate random assignment among a group of college- and career-focused schools that belong to one or more school reform networks. A survey will be administered to principals of these schools to determine if they are oversubscribed and use lotteries for student admission. If a sufficient number of schools with such practices are identified, future research could use these naturally occurring experimental conditions to investigate differences in the outcomes achieved by students who attend these types of schools.

**BILLING CODE 4000–01–P****DEPARTMENT OF ENERGY****[OE Docket No. EA–306–B]****Application To Export Electric Energy; MAG Energy Solutions, Inc.****AGENCY:** Office of Electricity Delivery and Energy Reliability, DOE.**ACTION:** Notice of application.**SUMMARY:** MAG Energy Solutions, Inc. (Applicant or MAG E.S.) has applied to

renew its authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

**DATES:** Comments, protests, or motions to intervene must be submitted on or before December 24, 2015.**ADDRESSES:** Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585–0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to [Electricity.Exports@hq.doe.gov](mailto:Electricity.Exports@hq.doe.gov), or by facsimile to 202–586–8008.**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On March 30, 2011, DOE issued Order No. EA–306–A to MAG E.S., which authorized the Applicant to transmit electric energy from the United States to Canada as a power marketer for a five-year term using existing international transmission facilities. That authority expires on April 6, 2016. On November 3, 2015, MAG E.S. filed an application with DOE for renewal of the export authority contained in Order No. EA–306 for an additional five-year term.

In its application, MAG E.S. states that it does not own or operate any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that MAG E.S. proposes to export to Canada would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by MAG E.S. have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

*Procedural Matters:* Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC)
