Title: National Scenic Byway Program.

OMB Control #: 2125–0611.

Form #: FHWA–1569, FHWA–1570, FHWA–1577.

Background: The National Scenic Byways Program was established under the Intermodal Surface Transportation Efficiency Act of 1991, and reauthorized in 1998 under the Transportation Equity Act for the 21st Century. Under the program, the U.S. Secretary of Transportation recognizes certain roads as National Scenic Byways or All-American Roads based on their archaeological, cultural, historic, natural, recreational, and scenic qualities. There are 126 such designated Byways in 44 states, which the FHWA promotes as the America's Byways. It is a voluntary, grassroots program that recognizes and supports outstanding roads while providing resources to help manage the intrinsic qualities within the broader Byway corridor to be treasured and shared. The vision of the FHWA's National Scenic Byways Program is “to create a distinctive collection of American roads, their stories, and treasured places.” The program's mission is to provide resources to the byway community in creating a unique travel experience and enhanced local quality of life through efforts to preserve, protect, interpret, and promote the intrinsic qualities of designated byways. Title 23, Section 162 of the United States Code describes the creation of the National Scenic Byways Program. This legislation was most recently amended in 2005 upon passage of the Public Law 109–59 Safe, Accountable, Flexible, and Efficient Transportation Equity Act—A Legacy for Users (SAFETEA–LU). The legislation includes provisions for review and dissemination of grant monies by the U.S. Secretary of Transportation. Grant applications are
