SUPPLEMENTARY INFORMATION:

Background

The Sawyer County Airport currently has non-precision instrument approach capabilities. During inclement weather with low visibility and low ceilings, aircraft pilots may not be able to land because they are unable to see the landing runway as they approach to land. Instrument flight rules (IFR) regulate aircraft operations during inclement weather under low visibility and cloud ceilings. Under IFR conditions, aircraft must use an instrument approach to initiate the landing process. The proposed ILS would provide instrumentation that would allow landings under IFR conditions.

Medical transport pilots from several companies use the Sawyer County Airport on a regular basis. Medical flights are not scheduled events; they occur whenever a medical emergency arises, good weather or bad. When medical transports cannot land, it is more than an inconvenience; it's typically a life-threatening situation. An ILS at the Sawyer County Airport would serve the purpose of increasing the

probability that those medical transports could land whenever they were needed.

Acting Manager, Infrastructure Engineering Center, Chicago, AJW-C14D, Central Service Area.

SIGTARP is responsible for coordinating and conducting audits and investigations of any program established by the Secretary of the Treasury under the act. One of SIGTARP's primary areas of focus is ensuring, to the fullest extent possible, transparency in the operation of TARP. Increasingly, members of the Congress, the press, and the public have expressed frustration with the opaque nature of TARP operations, and they have raised questions about (1) the use

funding provided by the Federal government under the various TARP programs; and (2) efforts to restrain excessive executive compensation. The questionnaires that are the subject of this notice are limited in scope to these questions, and are intended to accommodate a September 2009 report to Congress.

- (2) *Title of form:* Use of TARP Funds and Compliance with Executive Compensation Issues.
- (3) *Type of request:* New.

- (5) *Description of respondents:* TARP recipients.
- (6) *Estimated number of respondents:* Based upon current program participants, the questionnaires initially will be sent to 350 respondents.
- (7) *Estimated total number of hours for all respondents combined to complete the form:* 1,750.
- (8) Information obtained from the form that qualifies as confidential business information will be so treated by SIGTARP, and not disclosed in a manner that would reveal the individual operations of a TARP recipient.

Additional Information or Comment: Requests for additional information or copies of the questionnaire and instructions should be directed to Barry W. Holman, Deputy Inspector General for Audit, at (202) 622-4633. Comments about the proposals should be directed to Mr. Holman at Office of the Special Inspector General for Troubled Asset Relief Program, Department of the Treasury, 1500 Pennsylvania Ave., Washington, DC 20220. All comments should be specific, indicating which part of the questionnaire is objectionable, describing the concern in detail, and including specific suggested revisions or language changes.
