

taking, retaining, or using a vessel to fish for Western Pacific coral reef ecosystem management unit species in the designated low-use Marine Protected Areas, (2) fishing for any of these species using gear not specifically allowed in the regulations, or (3) fishing for, taking, or retaining any Potentially Harvested Coral Reef Taxa in the coral reef ecosystem regulatory area, to obtain and carry a permit. A receiving vessel owner must also have a transshipment permit for at-sea transshipment of coral reef ecosystem management unit species. The permit application form provides basic information about the permit applicant, vessel, fishing gear and method, target species, projected fishing effort, *etc.*, for use by NMFS and the Western Pacific Fishery Management Council in determining eligibility for permit issuance. The information is important for understanding the nature of the fishery and provides a link to participants. It also aids in the enforcement of Fishery Ecosystem Plan measures.

The two forms have been combined and minor changes made.

Affected Public: Business or other for-profit organizations; individuals or households.

Frequency: Annually.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: July 13, 2015.

Sarah Brabson,

NOAA PRA Clearance Officer.
