**SUPPLEMENTARY INFORMATION:** The BLM will consider the public land described below for direct sale in accordance with Section 203 of FLPMA (43 U.S.C. 1713).

**New Mexico Principal Meridian**

T. 13 S., R. 11 E.,

Sec. 28, NE $\frac{1}{4}$ NE $\frac{1}{4}$ NE $\frac{1}{4}$ .

The area described contains 10 acres in Otero County, New Mexico.

The BLM will consider selling the 10-acre parcel through a direct sale of public lands to resolve an inadvertent occupancy trespass. 43 CFR 2711.3–3(a)(5). The parcel proposed for sale is the smallest size possible to resolve the trespass. The BLM identified the parcel as suitable for disposal in the White Sands Resource Management Plan (RMP), dated October 1986, and the September 1986 Record of Decision. The sale meets the criteria for disposal in Section 203(a)(1), (d) and (f) of FLPMA and regulations in 43 CFR 2710.0–3(a)(3) and 43 CFR 2711.3–3(a)(5). A residential house, domestic well, septic system, access road, and utilities constitute the inadvertent occupancy to be resolved by the proposed sale. The patent will contain a reservation to the United States of all minerals in accordance with regulation 43 CFR 2711.5.

The BLM must receive the purchase price paid by certified check, postal money order, bank draft or cashier's check payable to the BLM within 90 days of the sale. Failure to submit the proceeds for the land will constitute a waiver of this preference consideration. No representation, warranty or covenant of any kind, express or implied, will be given or made by the United States, its officers or employees, as to access to or from the above described parcel of land, the title to the land, whether or to what extent the land may be developed, its physical condition or its past, present or potential uses, and the conveyance of any such parcel will not be on a contingency basis. The purchaser must be responsible for and aware of all applicable Federal, State, and local government policies and regulations that would affect the subject land. It is also the purchaser's responsibility to be aware of existing or prospective uses of nearby properties. Any land lacking access from a public road or highway will be conveyed as such, and future access acquisition will be the responsibility of the purchaser. To the extent required by law, the sale will be subject to the requirements of Section 120(h) of the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C 9620(h)).
