

all assessable gross revenues from each gaming operation under the jurisdiction of the Commission. If a tribe has a certificate of self-regulation under 25 CFR part 518, the 2014 preliminary fee rate on Class II revenues shall be one-half of the annual fee rate, which is 0.036% (.00036).

Pursuant to 25 CFR 514.16, the National Indian Gaming Commission has also adopted its fingerprint processing fees of \$22 per card.

Both the preliminary fee rate and fingerprint fees being adopted here are effective March 1st, 2014 and will remain in effect until new rates are adopted.

SUPPLEMENTARY INFORMATION: The Indian Gaming Regulatory Act (IGRA) established the National Indian Gaming Commission, which is charged with, among other things, regulating gaming on Indian lands.

Commission regulations (25 CFR part 514) provide for a system of fee assessment and payment that is self-administered by gaming operations. Pursuant to those regulations, the Commission is required to adopt and communicate assessment rates and the gaming operations are required to apply those rates to their revenues, compute the fees to be paid, report the revenues, and remit the fees to the Commission. All gaming operations within the jurisdiction of the Commission are required to self administer the provisions of these regulations, and report and pay any fees that are due to the Commission. As noted above, if a tribe has a certificate of self-regulation under 25 CFR part 518 the 2014 preliminary fee rate on Class II revenues shall be one-half of the annual fee rate, which is 0.036% (.00036).

Pursuant to 25 CFR part 514, the Commission must also review annually the costs involved in processing fingerprint cards and set a fee based on fees charged by the Federal Bureau of Investigation and costs incurred by the Commission. Commission costs include Commission personnel, supplies, equipment costs, and postage to submit the results to the requesting tribe. Based on that review, the Commission hereby sets the 2014 fingerprint processing fee at \$22 per card.

Acting Chairman.

SUPPLEMENTARY INFORMATION:

I. Abstract. The National Park Service leasing program allows the public to lease property located within the boundaries of the park system, under the authority of the Director of the National Park Service. A lease may not authorize an activity that could be authorized by a concessions contract or commercial use authorization. All leases must provide for the payment of fair market value rent. The Director may retain rental payments for park infrastructure needs and, in some cases, to provide administrative support of the leasing program.

Our authority to collect information for the leasing program is derived from section 802 of the National Parks Omnibus Management Act of 1998 (Pub. L. 105-391), the National Historic Preservation Act (Pub. L. 89-665), and Title 36, Code of Federal Regulations, section 18 (36 CFR 18). For competitive leasing opportunities, the regulations require the submission of proposals or bids by parties interested in applying for a lease. The regulations also require that the Director approve lease amendments, construction or demolition of structures, and encumbrances on leasehold interests.

We collect Information from anyone who wishes to submit a bid or proposal to lease a property. The Director may issue a request for bids if the amount of rent is the only criterion for award of a lease. The Director issues a request for proposals when the award of a lease is based on selection criteria other than the rental rate. A request for proposals may be preceded by a request for qualifications to select a "short list" of potential offerors that meet minimum management, financial, and other qualifications necessary for submission of a proposal.

The Director may enter into negotiations for a lease with nonprofit organizations and units of government without soliciting proposals or bids. In those cases, the Director collects information from the other party regarding the planned use of the premises, potential modifications to the premises, and other information as necessary to support a decision on whether or not to enter into a lease.

We also collect Information from existing leaseholders who seek to:

- Sublet a leased property or assign the lease to a new lessee.
- Construct or demolish portions of a leased property.
- Amend a lease to change the type of activities permitted under the lease.
- Encumber (mortgage) the leased premises.

We use the information to evaluate offers, proposed subleases or

assignments, proposed construction or demolition, the merits of proposed lease amendments, and proposed encumbrances. The completion times for each information collection requirement vary substantially

depending on the complexity of the leasing opportunity.
