

For Products 007173–00283 and 007173–00285:

Because the Agency has identified significant potential risk concerns associated with these pesticide products, upon cancellation EPA intends to issue a cancellation order prohibiting sale or distribution of existing stocks by the registrant, except for export consistent with FIFRA section 17 or for proper disposal. Persons other than the registrant will be allowed to sell or distribute existing stocks of products, until such stocks are exhausted. Users will be allowed to use existing stocks regardless of date of purchase until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product.

For all other products identified in Table 1 of Unit II:

Because the Agency has identified no significant potential risk concerns associated with these pesticide products, upon cancellation of the products identified in Table 1 of Unit II, EPA anticipates allowing registrants to sell and distribute existing stocks of these products for 1 year after publication of the Cancellation Order in the **Federal Register**. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit II, except for export consistent with FIFRA section 17 or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

EXPORT-IMPORT BANK

Economic Impact Policy

This notice is to inform the public that the Export-Import Bank of the United States has received an application for a \$500 million direct loan to support the \$325 million export of U.S. mining equipment and services to mine copper concentrate in Mongolia.

The concentrate contains approximately 30% copper, and significantly less than 1% of gold and silver. The U.S. exports will enable the mine to produce 828,000 metric tons of copper concentrate per annum on average in the early years of production, and 1,796,000 metric tons of copper concentrate per annum on average in the later years. Available information indicates that the foreign buyer's concentrate output will mainly be sold to smelters in China.

Interested parties may submit comments on this transaction by email to economic.impact@exim.gov or by mail to 811 Vermont Avenue NW., Room 442, Washington, DC 20571, within 14 days of the date this notice appears in the **Federal Register**.

SUPPLEMENTARY INFORMATION:**A. Purpose**

Per FAR 47.208, military (and, as required, civilian agency) storage and distribution points, depots, and other receiving activities require advance notice of shipments en-route from contractors' plants. Generally, this notification is required only for classified material; sensitive, controlled, and certain other protected material; explosives, and some other hazardous materials; selected shipments requiring movement control; or minimum carload or truckload shipments. It facilitates arrangements for transportation control, labor, space, and use of materials handling equipment at destination. Also, timely receipt of notices by the consignee transportation office precludes the incurring of demurrage and vehicle detention charges. Unless otherwise directed by a contracting officer, a contractor shall send the notice to the consignee transportation office at least twenty-four hours before the arrival of the shipment.

B. Annual Reporting Burden

There is no centralized database in the Federal Government that maintains information regarding advance notice of shipments of classified material; sensitive, controlled, and certain other protected material; explosives, and some other hazardous materials; selected shipments requiring movement control; or minimum carload or truckload shipments en-route from contractor's plants. No public comments were received in prior years that have challenged the validity of the Government's estimates. Based on the number of unique vendors awarded contracts for Fiscal Year 2011 in the Federal Procurement Data System, the estimated respondents required to

submit the Report of Shipment notice make up less than one-quarter percent of the total number unique vendors awarded contracts. Additionally, consultation with Government subject matter experts did not yield information to warrant a revision to the estimate. The estimated annual reporting burden remains unchanged.

Respondents: 250.

Responses per Respondent: 4.

Annual Responses: 1,000.

Hours per Response: 167.

Total Burden Hours: 167.

Obtaining Copies of Proposals:

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat (MVCB), 1275 First Street NE., Washington, DC 20417, telephone (202) 501-4755. Please cite OMB Control No. 9000-0056, Report of Shipment, in all correspondence.

Dated: February 13, 2013.

William Clark,

Acting Director, Federal Acquisition Policy Division, Office of Governmentwide Acquisition Policy, Office of Acquisition Policy, Office of Governmentwide Policy.
