DEPARTMENT OF LABOR

Employment and Training
AdministrationTrade Adjustment Assistance
Program; Designation of Certifying
OfficersAGENCY: Employment and Training
Administration, Labor.

ACTION: Notice.

SUMMARY: This notice is to designate Certifying Officers to carry out functions under the Trade Adjustment Assistance (TAA) program under chapter 2 of title II of the Trade Act of 1974, as amended (19 U.S.C. 2271 *et seq.*), and the implementing regulations at 29 CFR part 90.

Background: The TAA program operates under the Trade Act of 1974, as amended, to provide assistance to domestic workers adversely affected in their employment by certain types of foreign trade. The Trade and Globalization Adjustment Assistance Act of 2009 amended the Trade Act of 1974, expanded TAA coverage to more workers and firms, including workers and firms in the service sector; made

benefits available to workers whose jobs have been off-shored to any country, as opposed to only covering certain shifts in production; and improved workers' training opportunities and opportunities for health insurance coverage. The new law also included additional funding for employment services and case management, extended income support, increased funding for training, and provided for earlier access to training. Workers become eligible for program benefits only if the worker group is certified under the Act as eligible to apply for adjustment assistance. From time to time the agency issues an Order designating or redesignating officials of the agency authorized to act as Certifying Officers, responsible for reviewing and signing adjustment assistance determinations. This also is done when current Certifying Officials retire or leave and/or when there is a need to designate new Certifying Officials. Employment and Training Order No. 1-11 was issued to revise the listing of officials designated as Certifying Officers, superseding the previous Order. The Employment and Training Order No. 1-11 is published below.

SUPPLEMENTARY INFORMATION:

I. Introduction

Under section 101 of the Federal Mine Safety and Health Act of 1977, a mine operator may petition and the Secretary of Labor (Secretary) may modify the application of a mandatory safety standard to that mine if the Secretary determines that: (1) An alternative method exists that will guarantee no less protection for the miners affected than that provided by the standard; or (2) that the application of the standard will result in a diminution of safety to the affected miners.

MSHA bases the final decision on the petitioner's statements, any comments and information submitted by interested persons, and a field investigation of the conditions at the mine. In some instances, MSHA may approve a petition for modification on the condition that the mine operator complies with other requirements noted in the decision.
