A0215-1 DAPE

SYSTEM NAME:

Library Borrowers'/Users' Profile Files

SYSTEM LOCATION:

Libraries on Army installations and activities. Official mailing addresses of installations and activities are published as an appendix to the Army's compilation of systems of records notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Authorized users of Army library facilities.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, Social Security Number, and telephone number rank, date of birth, and email address.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, Departmental Regulations and E.O. 9397 (SSN), 10 U.S.C. 3013, Secretary of the Army; Pub. L. 106-554, Children's Internet Protection Act; AR 215-1, Morale, Welfare, and Recreation Activities and Nonappropriated Fund Instrumentalities.

PURPOSE(S):

To identify individuals authorized to borrow library materials; to ensure that all library property is returned and individual's account is cleared, and to provide librarian useful information for selecting, ordering, and meeting user requirements. To comply with the Children's Internet Protection Act and to provide authentication for borrowed electronic resources (e.g., e-books, e-journals).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, these records or information contained therein may specifically be disclosed outside the DoD as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows: The DoD 'Blanket Routine Uses' set forth at the beginning of the Army's compilation of systems of records notices also apply to this system.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

STORAGE:

Paper in file folders; card files; and electronic storage media.

RETRIEVABILITY:

By user's surname, Social Security Number, and/or residence.

SAFEGUARDS:

Information is maintained in areas accessible only to authorized persons who have official need therefore. Libraries are secured during non-duty hours.

RETENTION AND DISPOSAL:

Records are destroyed when no longer needed to obtain and/or control library materials.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief of Staff, G-1, 300 Army Pentagon, Washington, DC 20310-0300.

NOTIFICATION PROCEDURE:

Individuals seeking to determine whether information about themselves is contained in this system should address written inquiries to the specific installation library that provided services. Official mailing addresses are published as an appendix to the Army's compilation of systems of records notices.

For verification purposes, individuals should provide full name, period in which a user has or had an account, and any other information that would assist in locating applicable records.

RECORD ACCESS PROCEDURES:

Individuals seeking access to information about themselves contained in this system should address written inquiries to the specific installation library that provided services. Official mailing addresses are published as an appendix to the Army's compilation of systems of records notices.

For verification purposes, individuals should provide full name, period in which a user has or had an account, and any other information that would assist in locating applicable records.

CONTESTING RECORD PROCEDURES:

The Army's rules for accessing records, and for contesting contents and appealing initial agency determinations are published in the Army Regulation 340-21; 32 CFR part 505; or may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

From the individual and Defense Enrollment Eligibility Reporting System (DEERS) database.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

DEPARTMENT OF DEFENSE

Defense Logistics Agency

Privacy Act of 1974; Systems of Records

AGENCY: Defense Logistics Agency.

ACTION: Notice to amend a system of records; S200.60 DD-Chaplain Care and Counseling Records.

SUMMARY: The Defense Logistics Agency is amending a system of records notice to its existing inventory of record systems subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended.

DATES: This action will be effective without further notice on September 2, 2005, unless comments are received that would result in a contrary determination.

ADDRESSES: Send comments to the Privacy Act Officer, Headquarters, Defense Logistics Agency, ATTN: DP, 8725 John J. Kingman Road, Stop 2533, Fort Belvoir, VA 22060-6221.

FOR FURTHER INFORMATION CONTACT: Ms. Susan Salus at (703) 767-6183.

SUPPLEMENTARY INFORMATION: The Defense Logistics Agency notices for systems of records subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended, have been published in the **Federal Register** and are available from the address above.

The specific changes to the record system being amended are set forth below followed by the notice, as amended, published in its entirety. The proposed amendment is not within the purview of subsection (r) of the Privacy Act of 1974, (5 U.S.C. 552a), as amended, which requires the submission of a new or altered system report.

Dated: July 15, 2005.

Jeannette Owings-Ballard,
OSD Federal Register Liaison Officer,
Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE**Department of the Army; Corps of Engineers****Intent To Prepare a Draft Environmental Impact Statement for the Modification of the Kissimmee Basin Structure Operating Criteria**

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The Jacksonville District, U.S. Army Corps of Engineers, intends to prepare a Draft Environmental Impact Statement (DEIS) for the Modification of the Kissimmee Basin (KB) Structure Operating Criteria.

This project involves the establishment of a coordinated schedule of water level drawdowns throughout the seventeen lakes comprising the Kissimmee Chain of Lakes, in the Kissimmee Upper Basin (KUB), and the possible effects on the Kissimmee Lower Basin (KLB). The ultimate purpose of the action is to facilitate environmental restoration throughout those water bodies. The local sponsor is the South Florida Water Management District.

This Notice of Intent (NOI) constitutes a re-issue of the NOI titled: Intent to Prepare a Draft Environmental Impact Statement for the Kissimmee Chain of Lakes Portion of the Kissimmee River Restoration Project, and published in the **Federal Register** on May 19, 2005 (70 FR 28923). The re-issue is due to the work undergoing a change in both title and scope, to now include the entire basin (KB) of the Kissimmee River.

FOR FURTHER INFORMATION CONTACT: Mr. Esteban Jimenez, 904-232-2551, Special Projects Section, Environmental Branch, Planning Division, P.O. Box 4970, Jacksonville, FL 32232-0019.

SUPPLEMENTARY INFORMATION: The authority to conduct this comprehensive analysis is granted under Section 206 of the 1996 Water Resources Development Act. The Kissimmee River Basin flood control works were authorized by the Rivers and Harbors Act of 1954 as an addition to the Central & South Florida Flood Control Project. The primary project purposes are restoration of natural flooding in the historic floodplain in order to reestablish wetland conditions while maintaining the existing protection against flood damages within the Kissimmee Basin, and to improve the environmental setting of the KB area.

The proposed action on the Kissimmee Chain of Lakes includes: Lake Hart, Lake Mary Jane, East Lake Tohopekaliga, Lake Myrtle, Lake Preston, Lake Conlin, Lake Tohopekaliga, Lake Gentry, Lake Russell, Cypress Lake, Lake Marion, Lake Hatchinehea, Lake Pierce, Lake Rosalie, Tiger Lake, Lake Jackson, Lake Marian, and Lake Weohyakapka. The lakes are all located in the Kissimmee River Upper Basin (KUB), and covers both Osceola and Polk Counties in Florida. The action is also expected to have effects on the Kissimmee Lower Basin (KLB).

The objective of the study is to evaluate the possibility of implementing revised regulation schedules for the Upper Kissimmee Chain Of Lakes. This is so that common and coordinated regulation schedules can be enacted for the Chain of Lakes, in order to facilitate ecosystem restoration throughout the KB.

Flora and Fauna—The 35,000 acres of wetlands that existed in the Kissimmee River Flood Plain prior to canalization are estimated to have declined to about 14,000 acres in the existing condition. Existing conditions of flora and fauna in the KB are addressed below.

Type	Total	Percent
Wetland Forested		
Cypress	262	1.9
Wetland Prairie		
Rhynchospora	1005	7.2
Aquatic Grass	2359	16.8
Maidencane	2743	19.5
Wetland Shrub		
Buttonbush	803	5.7
Primrose Willow	693	4.9
Willow	1639	11.7
Broadleaf	3447	24.4
Switchgrass	471	3.4
Tussock	630	4.5
Total	14052	100

The lakes are generally surrounded by pine flatwoods, dry and wet prairies, and cypress domes.

Wildlife in the Kissimmee River Lower Basin (KLB) consists of deer, small mammals, alligators and small reptiles, amphibians, invertebrates, wading birds, and ducks. Because of the large expanse of area involved, the following Federally-listed threatened or endangered species could occur in both the KUB and KLB: bald eagle, snail kite, indigo snake, Audubon's crested caracara, wood stork, and grasshopper sparrow.

Endangered and threatened species in the KB include:

- Endangered: bald eagle, snail kite, wood stork, whooping crane, and Audubon's crested caracara, and Florida grasshopper sparrow.
- Threatened: indigo snake.
- State listed as threatened species: Sandhill crane.
- Species of special concern: American alligator, snowy egret, gopher tortoise, osprey, burrowing owl, limpkin, little blue heron, least tern, and tricolored heron.

Fluctuating water levels of the lake littoral zones are important for overwintering waterfowl that utilize these lakes during migrational periods. Wading birds use the littoral zone as an important feeding habitat.

Alternatives: The various scheduling alternatives will be developed upon modeling based on the determination of the existing environment and the goals to be attained. The no action alternative will be considered.

Issues: The proposed action is to modify the regulation schedules for the Upper Kissimmee Chain of Lakes, to include periodic extreme low water stages for the purposes of enhancing the lake's environmental resources and improving the physical and chemical characteristics of these lakes. This habitat enhancement technique involves lowering lakes to consolidate bottom sediments and expand desirable aquatic plant communities. The extreme drawdown of these areas mimic low water conditions prior to flood control (activities which result in more stable water levels than would occur naturally). Low water levels historically occurred about every seven to ten years. The drawdown will be coordinated with the South Florida Water Management District (SFWMD).

Habitat enhancement activities would be carried out by the Florida Fish and Wildlife Conservation Commission (FWC) or others acting under it. The FWC would obtain all necessary permits.

Enhancement activities may include much removal, burning, disking and herbicide application to reduce dense
