Notice of Availability of the Headwaters Forest Reserve Draft Resource Management Plan/ Environmental Impact Statement/ Environmental Impact Report

AGENCY: Bureau of Land Management, Arcata Field Office, and the California Department of Fish and Game.

ACTION: Notice of availability of the Headwaters Forest Reserve Draft Resource Management Plan/ Environmental Impact Statement/ Environmental Impact Report.

SUMMARY: The Bureau of Land Management (BLM), and the California Department of Fish and Game (DFG), have prepared A Draft Resource Management Plan (RMP) and a Draft Environmental Impact Statement/ Environmental Impact Report (DEIS/ DEIR) for the Headwaters Forest Reserve located in Humboldt County, California. The Draft RMP and DEIS/DEIR comply with the National Environmental Policy Act (NEPA), California Environmental Quality Act (CEQA), Federal Land Policy and Management Act (FLPMA), the act authorizing the acquisition of the Headwaters Forest Reserve (H.R. 2107), and BLM and DFG management policies. The Draft RMP and DEIS/DEIR were developed with broad public participation in a scoping process which included three public meetings held in Eureka, Sacramento, and San Francisco, California. The Draft RMP and DEIS/ DEIR provide for a range of alternatives reflecting public input for management direction for the Headwaters Forest Reserve. Management is addressed on approximately 7,500 acres of public land with a state interest in the form of a conservation easement over the reserve held by the State of California and managed by the California Department of Fish and Game. Issues raised by the public and addressed in the Draft RMP and DEIS/DEIR include balancing preservation of old-growth forest ecosystems and threatened and endangered species with public recreation access, extent of trail access to or within old-growth groves, types of uses of a trail system, management of traffic impacts to local residents adjacent to the reserve, appropriate levels of watershed and forest restoration, and access of disabled and elderly to old-growth forest. H.R. 2107 provided specific planning direction to address scientific research on forests, fish, wildlife and other such activities

that shall be fostered and permitted, providing recreation opportunities, access, construction of minimal necessary facilities so as to maintain the ecological integrity, other management needs, and annual budget. Special designations include Wilderness Study Area, Wild and Scenic River eligibility and suitability, Area of Critical Environmental Concern/Research Natural Area, and Ecological Reserve (State of California designation). The action alternatives were prepared in accordance with applicable planning procedures.

DATES: Public comments must be received on or before July 22, 2002. Three public meetings will be held to solicit input on the draft: Eureka, CA: May 7, 2002; San Francisco, CA, May 14, 2002; and Sacramento, CA, May 15, 2002.

SUPPLEMENTARY INFORMATION: The Headwaters Forest Reserve was acquired by the Secretary of Interior and State of California on March 1, 1999 as a culmination of a comprehensive agreement of 1996, the Headwaters Agreement, between the Department of Interior, State of California, and the Pacific Lumber Company (PALCO), for the transfer of approximately 7,500 acres of old-growth and young-growth timber stands and associated buffers in a reserve, and among other considerations, the completion and approval of a Sustained Yield Plan (SYP) and Habitat Conservation Plan (HCP) for PALCO property. Cash transfer for the purchase of the Headwaters Forest Reserve was authorized in the 1997 Interior Appropriations bill (H.R. 2107) on the federal side and in Assembly Bill 1986 (AB 1986), Headwaters Forest, Owl Creek, and Grizzly Creek, on the state side. The federal legislation authorizing acquisition, (1) established a specific boundary and point of access, (2) called for joint federal-state acquisition, with management by the federal government and an easement to guarantee conservation management granted to the state, and (3) established the

requirement for the development of a management plan.

The specific 7,472-acre tract acquired includes 3,088 acres of unharvested conifer forests dominated by redwood groves surrounded by 4,384 acres of previously harvested forest and brush lands. It is located in the northwestern coast ranges of California near Humboldt Bay in Humboldt County, part of California's north coast region. The reserve includes the headwaters of three streams draining into Humboldt Bay; South Fork Elk River, Little South Fork Elk River, and Salmon Creek. The reserve contains three federally listed threatened fish species; southern Oregon/northern California coho salmon, northern California steelhead, and California coastal chinook salmon, and two federally listed threatened animals; marbled murrelet and northern spotted owl. The reserve is designated critical habitat for the coho, chinook, and the murrelet. The reserve is identified in the PALCO HCP as a site for monitoring undisturbed baseline conditions for water quality and wildlife habitat.

DEPARTMENT OF JUSTICE

Office of Community Oriented Policing Services; FY 2002 Community Policing Discretionary Grants

AGENCY: Office of Community Oriented Policing Services, Department of Justice.

ACTION: Notice of Availability.

SUMMARY: The U.S. Department of Justice Office of Community Oriented Policing Services (COPS) announces the availability of the COPS in Schools grant program, which will assist law enforcement agencies in hiring new, additional School Resource Officers (SROs) to engage in community policing in and around primary and secondary schools. This program provides an incentive for law enforcement agencies to build collaborative partnerships with the school community and to use community policing efforts to combat school violence. The School Resource Officer must devote at least 75% of his/her time to work in and around primary and secondary schools, in addition to the time that a law enforcement agency would have devoted in the absence of the COPS in Schools grant.

The COPS in Schools program provides a maximum federal contribution of up to \$125,000 per officer position over the three-year grant period, with any remaining costs to be paid with local funds. Officers paid with COPS in Schools funding must be hired on or after the grant award start date. In addition, all jurisdictions that apply must demonstrate that they have primary law enforcement authority over the school(s) identified in their application and demonstrate their inability to implement this project without federal assistance. Funding will begin when the new officers are hired on or after the award date and will be paid over the course of the grant period.

DATES: There will be two application deadlines for the COPS in Schools (CIS) program in 2002: May 17, 2002 and June 14, 2002. Applications postmarked on or before May 17, 2002 will receive priority consideration for Fiscal Year 2002 funding. Applications postmarked after May 17, 2002, but on or before June 14, 2002 will receive secondary consideration for COPS in Schools funding in Fiscal Year 2002. All applications must be postmarked on or before the second and final June 14,
