

regulated community to prepare for the rule to come into effect. See *Omnipoint Corp. v. Fed. Comm'n Comm'n*, 78 F.3d 620, 630 (D.C. Cir. 1996) (in determining whether good cause exists to make a rule immediately effective, an agency should “balance the necessity for immediate implementation against principles of fundamental fairness which require that all affected persons be afforded a reasonable amount of time to prepare for the effective date of its ruling”). EPA has balanced the necessity for immediate implementation against the benefits of delaying implementation. Because this action restores important deleted regulatory text that has already been established and aligns with the intent described in the December 2016 technical correction, the public is aware of the content of the rule. In addition, restoring this language expeditiously would allow important activities (*i.e.*, sampling, visible inspection) to continue to take place after abatement is considered complete. These are critical elements of EPA’s lead-based paint activities program that help ensure safe work practices are being upheld. As a result, good cause exists for this rule to be made immediately effective in accordance with the APA (5 U.S.C. 553(d)(3)).

VI. Do any of the statutory and executive order review requirements apply to this action?

No. As a technical correction, this action is not subject to the regulatory assessment requirements and does not otherwise change the detailed discussion of the statutory and executive order review requirements contained in Unit IX. of the November 2024 final dust-lead reconsideration rulemaking.

V. Is this action subject to the Congressional Review Act (CRA)?

Yes. This action is subject to the CRA (5 U.S.C. 801 *et seq.*), and EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. The CRA allows the issuing agency to make a rule effective sooner than otherwise provided by the CRA if the agency makes a good cause finding that notice and comment rulemaking procedures are impracticable, unnecessary or contrary to the public interest (5 U.S.C. 808(2)). EPA has made a good cause finding for this rule as discussed in Unit III., including the basis for that finding.

(v) The following post-abatement testing activities shall be conducted as appropriate based upon the extent or manner of abatement activities conducted in or to the residential dwelling or child-occupied facility:

(A) After conducting an abatement with containment between abated and unabated areas, one dust sample shall be taken from one interior window sill and from one window trough (if present) and one dust sample shall be taken from the floors of each of no less than four rooms, hallways or stairwells within the containment area. In addition, one dust sample shall be taken from the floor outside the containment area. If there are less than four rooms, hallways or stairwells within the containment area, then all rooms, hallways or stairwells shall be sampled.

(B) After conducting an abatement with no containment, two dust samples shall be taken from each of no less than four rooms, hallways or stairwells in the residential dwelling or child-occupied facility. One dust sample shall be taken from one interior window sill and window trough (if present) and one dust sample shall be taken from the floor of each room, hallway or stairwell selected. If there are less than four rooms, hallways or stairwells within the residential dwelling or child-occupied facility then all rooms, hallways or stairwells shall be sampled.

(C) Following an exterior paint abatement, a visible inspection shall be conducted. All horizontal surfaces in

the outdoor living area closest to the abated surface shall be found to be cleaned of visible dust and debris. In addition, a visual inspection shall be conducted to determine the presence of paint chips on the dripline or next to the foundation below any exterior surface abated. If paint chips are present, they must be removed from the site and properly disposed of, according to all applicable Federal, State and local requirements.

On November 18, 2011, the Commission adopted an order reforming its high-cost universal service support mechanisms. *Connect America Fund; A National Broadband Plan for Our Future; Establish Just and Reasonable Rates for Local Exchange Carriers; High-Cost Universal Service Support; Developing a Unified Intercarrier Compensation Regime; Federal-State Joint Board on Universal Service; Lifeline and Link-Up; Universal Service Reform—Mobility Fund*, WC Docket Nos. 10–90, 07–135, 05–337, 03–109; GN Docket No. 09–51; CC Docket Nos. 01–92, 96–45; WT Docket No. 10–208, Order and Further Notice of Proposed Rulemaking, 26 FCC Rcd 17663 (2011) (*USF/ICC Transformation Order*). The Commission and Wireline Competition Bureau (WCB or the Bureau) have since adopted a number of orders that implement the *USF/ICC Transformation Order*; see also *Connect America Fund et al.*, WC Docket No. 10–90 et al., Third Order on Reconsideration, 27 FCC Rcd 5622 (2012); *Connect America Fund et al.*, WC Docket No. 10–90 et al., Order, 27 FCC Rcd 605 (WCB 2012); *Connect America Fund et al.*, WC Docket No. 10–90 et al., Fifth Order on Reconsideration, 27 FCC Rcd 14549 (2012); *Connect America Fund et al.*,

In 2019, the Commission adopted an order establishing the Uniendo a Puerto Rico Fund (PR Fund) and the Connect USVI Fund, a separate, parallel high-cost program for the U.S. territories suffering extensive infrastructure damage due to Hurricanes Irma and Maria. *The Uniendo a Puerto Rico Fund and the Connect USVI Fund, et al.*, WC Docket No. 18–143, et al., Report and Order and Order on Reconsideration, 34 FCC Rcd 9109 (2019) (*Puerto Rico and USVI Stage 2 Order*). Also, in the 2019 *Supply Chain Order*, the Commission adopted a rule prohibiting the use of Universal Service Fund (USF) support, including high-cost universal service support, to purchase or obtain any equipment or services produced or provided by a covered company posing a national security threat to the integrity of communications networks or the communications supply chain. *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs*, WC

Docket No. 18–89, Report and Order, Further Notice of Proposed Rulemaking, and Order, 34 FCC Rcd 11423, 11433, paragraph 26 (WCB 2019). *See also* 47 CFR 54.9.

On January 30, 2020, the Commission adopted an order establishing the framework for the Rural Digital Opportunity Fund (RDOF), building on the successful CAF Phase II auction. *Rural Digital Opportunity Fund; Connect America Fund*, WC Docket Nos. 19–126 and 10–90, Report and Order, 35 FCC Rcd 686 (2020) (*RDOF Order*). Later that year, the Commission adopted two additional supply chain rules associated with newly required certifications. *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs*, WC Docket No. 18–89, Second Report and Order, 35 FCC Rcd 14284 (2020) (*2020 Supply Chain Order*).

Through several orders, the Commission has reconfigured and extended certain high-cost programs, adding obligations applicable to these particular programs, and has changed, modified, and eliminated certain other obligations for high-cost support. These changes are outlined in the following:

In 2018, the Bureau announced that, as of March 1, 2018, and continuing with annual reports due March 1 in subsequent years, recipients of Rural Broadband Experiments (RBE) support would no longer submit location information and associated evidence with their annual FCC Form 481, as previously required, but would instead submit this information using the Universal Service Administrative Company (USAC or the Administrator)'s High-Cost Universal Broadband (HUBB) portal. *See Wireline Competition Bureau Provides Guidance to Carriers Receiving Connect America Fund Support Regarding their Broadband Location Reporting Obligations*, Public Notice, 31 FCC Rcd 12900, 12908 (WCB 2016). OMB approved the collection of this location information through the HUBB in OMB Control No. 3060–1228, *Connect America Fund—High Cost Portal Filing*. This collection now reflects that this obligation is being collected under OMB Control No. 3060–1228.

On July 23, 2023, the Commission established the Enhanced Alternative Connect America Cost Model (A–CAM)

program, the next iteration of the A–CAM programs. *See Connect America Fund: A National Broadband Plan for Our Future High-Cost Universal Service Support et al.*, WC Docket No. 10–90 et al., Report and Order, Notice of Proposed Rulemaking, and Notice of Inquiry, FCC 23–60 (rel. July 24, 2023) (*Enhanced A–CAM Order*). Under the Enhanced A–CAM program, carriers electing to receive Enhanced A–CAM support will receive such support for a term ending in 2038, for broadband deployment with speeds of at least 100 Mbps download and 20 Mbps upload, and will be subject to reporting and certification obligations associated with Enhanced A–CAM support. *See Enhanced A–CAM Order* at 24 through 27, paragraphs 52–59. On October 30, 2023, the Bureau announced that 368 carriers electing Enhanced A–CAM will receive \$18.28 billion in total over the 15-year term. *See Wireline Competition Bureau Authorizes 368 Companies in 44 States to Receive Enhanced Alternative Connect America Cost Model Support to Expand Rural Broadband*, WC Docket No. 10–90, Public Notice, DA 23–1025 (WCB 2023).

On October 20, 2023, the Commission adopted an Order, that among other things, modified and clarified certain requirements associated with FCC Form 481 and similar filings. *See Connect America Fund et al.*, WC Docket No. 10–90 et al., Notice of Proposed Rulemaking and Report and Order, FCC 23–87 (rel. Oct. 20, 2023) (*Administrative Order*). The *Administrative Order* updated the rules to properly state that duplicate copies of the annual high-cost reports and certifications, *i.e.*, the FCC Form 481, as described in §§ 54.313 and 54.314 of the Commission's rules, need not be filed with more than one entity; carriers must now only file the FCC Form 481 with USAC. *See Administrative Order* at 60 through 62, paras. 133–34; 47 CFR 54.313–14. *See also Connect America Fund; ETC Annual Reports and Certifications*, WC Docket Nos. 10–90, 14–58, Report and Order, 32 FCC Rcd 5944, 5948, paragraph 15 (2017) (*ETC Reporting Streamlining Order*) (“[C]ontingent upon USAC's completion of the rollout of an online portal for recipients of high cost services, we will no longer require ETCs to file duplicate copies of Form 481 with the FCC and with states, U.S.

Territories, and/or Tribal governments beginning in 2018.”). The *Administrative Order* also made explicit that the required certification of compliance with voice and broadband benchmarks in FCC Form 481 covers the calendar year preceding the date that the FCC Form 481 is due, and is based on benchmarks released by the Commission before that calendar year (two years before the year that the FCC Form 481 is due to be submitted). *See Administrative Order* at 67, paragraph 150.

The Commission therefore revises this information collection, as well as the Form 481 and its accompanying instructions, to reflect these new and modified requirements.

Federal Communications Commission.
