SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the
expansion of the scope of recognition of
TUV Rheinland of North America, Inc.
(TUVRNA), as a NRTL. TUVRNA's
expansion covers the addition of nine
test standards to the NRTL scope of
recognition.

OSHA recognition of a NRTL signifies
that the organization meets the
requirements specified in 29 CFR
1910.7. Recognition is an
acknowledgment that the organization
can perform independent safety testing
and certification of the specific products
covered within the scope of recognition.
Each NRTL's scope of recognition
includes (1) the type of products the
NRTL may test, with each type specified
by the applicable test standard and (2)
the recognized site(s) that has/have the
technical capability to perform the
product-testing and product-
certification activities for test standards
within the NRTL's scope. Recognition is
not a delegation or grant of government
authority; however, recognition enables
employers to use products approved by
the NRTL to meet OSHA standards that
require product testing and certification.

The agency processes applications by
a NRTL for initial recognition and for an
expansion or renewal of this
recognition, following requirements in
Appendix A to 29 CFR 1910.7. This
appendix requires that the agency
publish two notices in the **Federal
Register** in processing an application. In
the first notice, OSHA announces the
application and provides the
preliminary finding. In the second
notice, the agency provides the final
decision on the application. These
notices set forth the NRTL's scope of
recognition or modifications of that
scope. OSHA maintains an
informational web page for each NRTL,
including TUVRNA, which details the
NRTL's scope of recognition. These
pages are available from the OSHA
website at <http://www.osha.gov/dts/otpc/nrtl/index.html>.

TUVRNA submitted an application,
dated June 19, 2019 (OSHA-2007-
0042-0045), to expand recognition to
include the addition of nine test
standards. OSHA staff performed a
detailed analysis of the application
packet and reviewed other pertinent
information. OSHA did not perform any
on-site reviews in relation to this
application.

OSHA published the preliminary
notice announcing TUVRNA's
expansion applications in the **Federal
Register** on March 15, 2021 (86 FR
14342). The agency requested comments
by March 30, 2021, but it received no
comments in response to this notice.
OSHA now is proceeding with this final
notice to grant expansion of TUVRNA's
scope of recognition.

To obtain or review copies of all
public documents pertaining to
TUVRNA's application, go to
www.regulations.gov or contact the
Docket Office, Occupational Safety and
Health Administration, U.S. Department
of Labor. Docket No. OSHA-2007-0042
contains all materials in the record
concerning TUVRNA's recognition.
Please note: Due to the COVID-19
pandemic, the Docket Office is closed to
the public at this time but can be
contacted at (202) 693-2350.

II. Final Decision and Order

OSHA staff examined TUVRNA's
expansion application, their capability
to meet the requirements of the test
standards, and other pertinent
information. Based on its review of this
evidence, OSHA finds that TUVRNA
meets the requirements of 29 CFR
1910.7 for expansion of its recognition,
subject to the limitations and conditions
listed below. OSHA, therefore, is
proceeding with this final notice to
grant TUVRNA's scope of recognition.
OSHA limits the expansion of
TUVRNA's recognition to testing and
certification of products for
demonstration of conformance to the
test standards listed in Table 1 below.

UL 62841–3–10	Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery—Safety—Part 3–10: Particular Requirements For Transportable Cut-Off Machines.

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL's scope of recognition does not include these products.

The American National Standards Institute (ANSI) may approve the test standard listed above as an American National Standard. However, for convenience, we may use the designation of the standards-developing organization for the standard as opposed to the ANSI designation. Under the NRTL Program's policy (see OSHA Instruction CPL 1–0.3, Appendix C, paragraph XIV), any NRTL recognized for a particular test standard may use either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, TUVRNA must abide by the following conditions of the recognition:

1. TUVRNA must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as a NRTL, and provide details of the change(s);
2. TUVRNA must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
3. TUVRNA must continue to meet the requirements for recognition, including all previously published conditions on TUVRNA's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of TUVRNA, subject to the limitations and conditions specified above.

III. Authority and Signature

James S. Frederick, Acting Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW, Washington, DC 20210, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 8–2020 (85 FR 58393, September 18, 2020) and 29 CFR 1910.7.

Signed at Washington, DC, on May 12, 2021.

SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of CSA Group Testing & Certification Inc. (CSA) as a NRTL. CSA's expansion covers the addition of twenty-one test standards to the NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. The agency processes an application by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A, 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides the preliminary finding. In the second notice, the agency provides the final decision on the application. These
