Topic for Comment

The Commission requests comment on the following topic.

International

The adoption of competition or antitrust laws by over 100 jurisdictions around the world, as well as the globalization of commerce and markets, has given rise to the potential for conflict between the United States and foreign jurisdictions with respect to enforcement actions taken and remedies sought. Are there multilateral procedures that should be implemented, or other actions taken, to enhance international antitrust comity? In commenting, please address the significance of the issue, what solutions might reduce that problem, and how such solutions could be implemented by the United States.

Dated: November 9, 2005.

By direction of the Antitrust Modernization Commission.
