Office of Elementary and Secondary Education

Type of Review: Extension.

Title: 21st Century Community Learning Centers Annual Performance Report.

Frequency: On Occasion, Quarterly, Annually.

Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs; not-for-profit institutions.

Reporting and Recordkeeping Hour Burden:

Responses: 1,400.

Burden Hours: 36,400.

Abstract: Originally authorized under Title X, Part I, of the Elementary and Secondary Education Act, the program was initially administered through the U.S. Department of Education, which provided grants directly to over 1,825 grantees. With the reauthorization of the program under the No Child Left Behind Act, direct administration of the program was transferred to state education agencies (SEA) to administer their own grant competitions. Preliminary data shows that states have awarded approximately 1,400 grants to support more than 4,700 centers in every state in the country. The purpose of the 21st Century Community Learning Centers program (21st CCLC) program, as reauthorized under Title IV, Part B, of the No Child Left Behind Act of 2001, 4201 *et seq.*, (20 U.S. Code 7171 *et seq.*), is to provide expanded academic enrichment opportunities for children attending low-performing schools. To reflect the changes in the authorization and administration of the 21st CCLC program and to comply with its reporting requirements, the Education Department (ED) is requesting authorization for the collection of data through Web-based, data-collection modules, the Annual Performance Report, the Grantee Profile, the Competition Overview, and the State Activities module, which collectively will be housed in an application called the 21st CCLC Profile and Performance Information Collection System (PPICS). The data will continue to be used to fulfill ED's requirement under the Government Performance and Results Act (GPRA) to report to Congress annually on the implementation and progress of 21st CCLC projects and the use of state administrative and technical assistance funds allocated to the states to support the program. The data collection will

also provide SEA liaisons with needed descriptive data about their grantees and allow SEA liaisons to conduct performance monitoring and identify areas of needed technical assistance.

This study focuses on literacy across the curriculum intervention that emphasizes literacy instruction throughout a high school student's day. High school students from diverse types of school districts across at least two of

the states in the Midwest region will be tested in literacy and other student achievement data will be collected from school records. Classroom instruction will be observed throughout the course of the intervention.
