

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a current valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.
2. *The title of the information collection:* 10 CFR part 75—Safeguards on Nuclear Material, Implementation of US/IAEA Agreement.
3. *The form number if applicable:* Not applicable.

4. *How often the collection is required:* Installation information is submitted upon written notification from the Commission. Changes are submitted as they occur.

Nuclear material accounting and control information is submitted in accordance with specified instructions.

5. *Who will be required or asked to report:* All persons licensed or certified by the Commission or Agreement States to possess source or special nuclear material at an installation specified on the U. S. eligible list as determined by the Secretary of State or his designee and filed with the Commission, as well as holders of construction permits and persons who intend to receive source material.

6. *An estimate of the number of responses:* 7 (1 response and 6 recordkeepers)

7. *The estimated number of annual respondents:* 6. One reporting and recordkeeping and five others recordkeeping only. The NRC-licensed facility selected for inspection will be reporting design information. This facility and the five facilities selected pursuant to a separate protocol will maintain transfer and material balance records, but reporting to the IAEA will be through the Nuclear Materials Management and Safeguards System.

8. *An estimate of the number of hours needed annually to complete the*

requirement or request: 2,400 (.2 hours for reporting and 2,400 hours for recordkeeping).

9. *An indication of whether Section 3507(d), Public Law 104-13 applies:* Not applicable.

10. *Abstract:* 10 CFR Part 75 establishes a system of nuclear material accounting and control to implement the agreement between the United States and the International Atomic Energy Agency (IAEA). Under that agreement, NRC is required to collect the information and make it available to the IAEA. Currently, the IAEA has selected and is inspecting one NRC-licensed facility pursuant to 10 CFR 75.41.

The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a current valid OMB control number.

1. *Type of submission, new, revision, or extension:* Revision.

2. *The title of the information collection:* 10 CFR part 20—Standards for Protection Against Radiation

3. *The form number if applicable:* Not applicable.

4. *How often the collection is required:* Annually for most reports and at license termination for reports dealing with decommissioning.

5. *Who will be required or asked to report:* NRC licensees, including those requesting license termination.

6. *An estimate of the number of responses:* 5,733 (685 responses + 5,048 recordkeepers).

7. *The number of annual respondents:* 5,048.

8. *An estimate of the number of hours needed annually to complete the requirement or request:* 322,851 hours (319,008 recordkeeping + 3,843 reporting).

9. *An indication of whether Section 3507(d), Public Law 104-13 applies:* Not applicable.

10. *Abstract:* 10 CFR part 20 establishes standards for protection against ionizing radiation resulting from activities conducted under licenses issued by the NRC. These standards require the establishment of radiation protection programs, maintenance of radiation records, recording of radiation received by workers, reporting of incidents which could cause exposure to radiation, submittal of an annual report to NRC of the results of individual monitoring, and submittal of license termination information. These mandatory requirements are needed to protect occupationally exposed individuals from undue risks of excessive exposure to ionizing radiation and to protect the health and safety of the public.
