

Vietnam. This NOFO will contribute directly to the national HIV prevention, care, and treatment goals by supporting direct services and will support long-term sustainability of the HIV response through capacity building and TA.

Summary of the Award

Recipient: Ho Chi Minh City Department of Health (HCMC DOH).

Purpose of the Award: The purpose of this award is to strengthen the capacity of the HCMC DOH to provide sustainable evidence-based effective HIV prevention, care and treatment services.

Amount of Award: The approximate year 1 funding amount will be \$2,000,000 in Federal Fiscal Year (FFY) 2022 funds, subject to the availability of funds. Funding amounts for years 2–5 will be set at continuation.

Authority: This program is authorized under Public Law 108–25 (the United States Leadership Against HIV AIDS, Tuberculosis and Malaria Act of 2003).

Period of Performance: September 30, 2022 through September 29, 2027.

Dated: February 15, 2022.

Terrance Perry,

Chief Grants Management Officer, Centers for Disease Control and Prevention.

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day–22–22CR; Docket No. CDC–2022–0026]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Homeless Service Providers Knowledge, Attitudes, and Practices Regarding Body Lice, Fleas and

Associated Diseases. This proposed study is designed to improve CDC's understanding of homeless service providers knowledge, attitudes, and practices regarding vector-borne diseases that can affect persons experiencing homelessness.

DATES: CDC must receive written comments on or before April 25, 2022.

ADDRESSES: You may submit comments, identified by Docket No. CDC–2022–0026, by either of the following methods:

- *Federal eRulemaking Portal:* [regulations.gov](https://www.regulations.gov). Follow the instructions for submitting comments.

- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21–8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to [regulations.gov](https://www.regulations.gov).

PLEASE NOTE: Submit all comments through the Federal eRulemaking portal ([regulations.gov](https://www.regulations.gov)) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21–8, Atlanta, Georgia 30329; phone: 404–639–7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected;

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and

5. Assess information collection costs.

Proposed Project

Homeless Service Providers Knowledge, Attitudes, and Practices Regarding Body Lice, Fleas and Associated Diseases—New—National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

This proposed information collection aims to improve CDC's understanding of homeless service providers knowledge, attitudes, and practices regarding vector-borne diseases that can affect persons experiencing homelessness (PEH). Insights gained from this information collection will be used to develop guidance for control of vector-borne diseases among PEH and to improve educational outreach regarding these diseases.

Several bacterial vector-borne diseases that are spread by body lice and fleas disproportionately affect PEH. Given the potential severity of louse- and flea-borne diseases, as well as their disproportionate impact on PEH, understanding the knowledge and gaps in knowledge of urban homeless service providers will allow for targeted education and interventions to reduce the risk of louse- and flea-borne disease among this vulnerable population. This investigation aims to gain insight about gaps in understanding, prevention, and intervention to inform tailored educational campaigns and intervention efforts to reduce risk of infestation with body lice and fleas and their associated diseases.

CDC requests OMB approval for an estimated 38 annual burden hours. There is no cost to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Homeless Service Providers—Shelter Workers and Volunteers.	Knowledge, Attitudes, and Practices About Body Lice- and Flea-borne Diseases: Survey for Shelter Workers.	150	1	10/60	25
Homeless Service Providers—Street Outreach Team.	Knowledge, Attitudes, and Practices About Body Lice- and Flea-borne Diseases: Survey for Street/Outreach Workers.	50	1	10/60	9
Supervisor—Shelter	Site Assessment Form for Homeless Service Sites.	30	1	5/60	3
Supervisor—Street Outreach Teams.	Site Assessment Form for Street/Outreach Workers.	10	1	5/60	1
Total	38

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Notice of Award of a Single-Source Grant To Fund the International Agency for Research on Cancer

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Disease Control and Prevention (CDC), located within the Department of Health and Human Services (HHS), announces the award of approximately \$200,000, with an expected total funding of approximately \$1,000,000 over a five-year period to the International Agency for Research on Cancer (IARC). The award will support the IARC Handbooks on Cancer Prevention program which provide comprehensive reviews and consensus evaluations evidence on the effectiveness of preventive interventions that may reduce cancer incidence or mortality in the United States and other countries.

DATES: The period for this award will be July 1, 2022 through June 30, 2027.

FOR FURTHER INFORMATION CONTACT: Mary C. White, National Center for Chronic Disease Prevention and Health Promotion, Centers for Disease Control and Prevention, 4770 Buford Highway, MS S107–4, Atlanta, GA 30341, Telephone: 800–232–6348, Email: MCWhite@cdc.gov.

SUPPLEMENTARY INFORMATION: The single-source award will focus on evaluations of the evidence on the effectiveness of preventive interventions that may reduce cancer incidence or mortality in the United States and other countries.

IARC is uniquely qualified for this award because no other organization, within the United States or elsewhere, convenes internationally recognized experts to rigorously evaluate scientific evidence on the effectiveness of preventive interventions that may reduce cancer incidence or mortality.

IARC is the specialized cancer agency of the World Health Organization. To accomplish its mission, the IARC Handbooks on Cancer Prevention program provides definitive, independent evidence-based evaluations of cancer-preventive interventions.

The program was established more than 20 years ago to identify and assess which interventions can prevent cancer or detect cancer at an early stage, to reduce cancer cases worldwide and save lives. The handbooks are regarded as trustworthy sources of information by national and international health agencies around the world.

Summary of the Award

Recipient: The International Agency for Research on Cancer (IARC).

Purpose of the Award: The purpose of this award is to provide a five-year grant to the International Agency for Research on Cancer (IARC) to provide support for the IARC Handbooks on Cancer Prevention program and ensure its continuity over five years. The outcomes include: Expanded dissemination of information about effective strategies and interventions to reduce cancer risk; and expanded utilization of the IARC Handbooks evaluations among health agencies to

develop evidence-based interventions or policy recommendations for reducing cancer risk at the population level.

Amount of Award: \$200,000 in Federal Fiscal Year (FFY) 2022 funds, with a total estimated \$1,000,000 for a five-year period of performance, subject to availability of funds.

Authority: Public Health Service Act, 42 U.S.C. 241(a) and 247b(k)(2).

Period of Performance: July 1, 2022 through June 30, 2027.

Dated: February 15, 2022.

Terrance Perry,

Chief Grants Management Officer, Centers for Disease Control and Prevention.

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS–10786, CMS–10792 and CMS–10575]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS' intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (PRA), federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, and to allow
