Federal Railroad Administration

[Docket No. FRA-2014-0011-N-18]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, this notice announces that the Information Collection Request (ICR) abstracted below requesting regular review is being forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden. The **Federal Register** notice with a 60-day comment period soliciting comments on the following collection of information was published on June 30, 2014 (79 FR 36860).

DATES: Comments must be submitted on or before November 3, 2014.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 25, Washington, DC 20590 (Telephone: (202) 493-6292), or Ms. Kimberly Toone, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 35, Washington, DC 20590 (Telephone: (202) 493-6132). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, sec. 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 CFR 1320.5, 1320.8(d)(1), 1320.12. On June 30, 2014, FRA published a 60-day notice in the **Federal Register** soliciting comments on the ICR for which the agency is seeking OMB approval. See 79 FR 36860. The ICR relates to the Emergency Order (EO) issued on May 7, 2014, by the Secretary of Transportation (Docket No. DOT-OST-2014-0067). The EO requires affected railroad carriers to provide certain information to the State Emergency Response Commissions (SERCs) for each State in which they operate individual trains carrying 1 million gallons or more of petroleum crude oil sourced from the Bakken shale formation in the Williston Basin (Bakken crude oil). FRA received one comment in response to its 60-day notice.

On August 29, 2014, FRA received a joint comment from the Association of American Railroads (AAR) and the American Short Line and Regional Railroad Association (ASLRRA) (Commenters). The Commenters raised three main points. First, the Commenters assert that the crude oil routing information the EO requires railroads to provide to SERCs is sensitive information from a security perspective and should only be available to persons with a need-to-know the information (e.g., emergency responders and emergency response planners). Second, the Commenters assert that the same information is commercially-sensitive information that should remain confidential and not be publically available. Finally, the Commenters assert that the EO is not serving a useful purpose as the information required by the EO to be provided to the SERCs is already provided to emergency responders through AAR Circular OT-55-N. See AAR, "Circular OT-55-N: Recommended Railroad Operating Practices For Transportation of Hazardous Materials," (Aug. 5, 2013) (OT-55). The Commenters specifically suggest that the EO "be withdrawn because it has resulted in information confidential from security, safety, and business perspectives being made public and because the objective of the emergency order, informing government
