

3:30 p.m. - 5 p.m.--Receive the Reef Fish Management Committee report.

5 p.m. - 5:30 p.m.--(Closed Session) Receive the report of the Joint Personnel/Administrative Policy Committee.

January 15, 2004

8:30 a.m. - 9 a.m.--Receive the Habitat Protection Committee report.

9 a.m. - 9:15 a.m.--Receive the Shrimp Management Committee report.

9:15 a.m. - 9:45 a.m.--Receive the Mackerel Management Committee report.

9:45 a.m. - 10 a.m.--Receive the Joint Reef Fish/Mackerel/Red Drum Management Committee report.

10 a.m. - 10:15 a.m.--Receive the Joint Reef Fish/Mackerel Management Committee Report.

10:15 a.m. - 10:30 a.m.--Receive the Red Drum Management Committee report.

10:30 a.m. - 10:45 a.m.--Receive the Joint Personnel/Administrative Policy Committee report.

10:45 a.m. - 11 a.m.--Receive the Law Enforcement Committee report.

11 a.m. - 11:15 a.m.--Receive the South Atlantic Fishery Management Council (SAFMC) Liaison Report.

11:15 a.m. - 11:30 a.m.--Receive a report on the Gulf Safety Committee.

11:30 a.m. - 11:45 a.m.--Receive a report on the Joint Council meeting.

11:45 a.m. - 12 noon--Receive Enforcement Reports.

12 noon - 12:15 p.m.--Receive the NMFS Regional Administrator's Report.

12:15 p.m. - 12:30 p.m.--Receive Director's Reports.

12:30 p.m. - 12:45 p.m.--Other Business

#### Committees

January 12, 2004

8:30 a.m. - 9:30 a.m.--Convene a joint meeting of the Personnel and Administrative Policy Committees to consider contracting a court reporter and to discuss personnel issues.

9:30 a.m. - 11:30 a.m.--Convene the Joint Reef Fish/Mackerel/Red Drum Management committees to review and approve the Aquaculture Amendment Scoping Document, select scoping hearing sites, and receive a presentation on a cage culture study.

1 p.m. - 5:30 p.m.--Convene the Reef Fish Management Committee to review the Vermilion Snapper Draft Amendment 23 that contains alternatives for arresting overfishing of that stock by commercial and recreational fishermen. The committee will also review and take final action on the Secretarial Reef Fish Amendment 1

that contains alternatives for arresting overfishing of red grouper by the commercial and recreational fishermen; as well as review and take final action on the Draft Reef Fish Amendment 22 that contains alternatives for a red snapper rebuilding plan. The species groupings for status determination criteria will also be discussed. The Committee will also review the Proposed Rule for Reef Fish Amendment 21 and address their intent on the definition of surface trolling. The Committee will address their intent on Reef Fish Amendment 21's definition of surface trolling. The Committee will develop recommendations for consideration by full Council on Wednesday afternoon.

January 13, 2004

8:30 a.m. - 9:30 a.m.--Convene the Shrimp Management Committee to review Draft Shrimp Amendment 13/EA that includes alternatives for status criteria and benchmarks as well as a revised standardized bycatch reporting methodology. The Committee will also review Texas Closure analyses.

9:30 a.m. - 10:30 a.m.--Convene the Red Drum Management Committee to hear the issue of shipping of stock across the EEZ and to discuss overfishing of the stock.

10:30 a.m. - 12 noon--Convene the Mackerel Management Committee to review the Options Paper for Amendment 15, discuss trip limit revisions, and select scoping meeting sites.

1:30 p.m. - 2:30 p.m.--Convene the Joint Reef Fish/Mackerel Committees will meet to review a scoping document for joint reef fish/mackerel limited access program and select sites for scoping hearings.

2:30 p.m. to 3 p.m.--Convene the Law Enforcement Committee to review the issue of criminal penalties under the Magnuson-Stevens Fishery Conservation and Management Act (MSFCMA)

3 p.m. to 5:30 p.m.--Convene the Habitat Protection Committee to review the comments/response section of the Environmental Impact Statement (EIS) for the Generic Essential Fish Habitat (EFH) Amendment; and to hear comments from the Texas Habitat Protection Advisory Panel meeting.

Although non-emergency issues not contained in the agenda may come before the Council for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (MSFCMA), those issues may not be the subject of formal Council action during this meeting. Council action will be restricted to those issues specifically

identified in this notice and any issues arising after publication of this notice that require emergency action under section 305 (c) of the MSFCMA, provided the public has been notified of the Council's intent to take final action to address the emergency. A copy of the Committee schedule and agenda can be obtained by calling (813) 228-2815.

#### Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Anne Alford at the Council (see ADDRESSES) by January 5, 2004.

Dated: December 16, 2003.

#### DEPARTMENT OF COMMERCE

##### National Oceanic and Atmospheric Administration

[I.D. 121503B]

##### Gulf of Mexico Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public meeting.

**SUMMARY:** The Gulf of Mexico Fishery Management Council will convene a public meeting of the Shrimp Advisory Panel (AP).

**DATES:** The Shrimp AP meeting is scheduled to begin at 8:30 a.m. on Friday, January 9, 2004.

**ADDRESSES:** The meeting will be held at the New Orleans Airport Hilton, 901 Airline Highway, Kenner, LA; telephone: (504) 469-5000.

*Council address:* Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301 North, Suite 1000, Tampa, FL 33619.

**FOR FURTHER INFORMATION CONTACT:** Dr. Richard Leard, Senior Fishery Biologist, Gulf of Mexico Fishery Management Council; telephone: (813) 228-2815.

**SUPPLEMENTARY INFORMATION:** The Shrimp AP will receive reports from NMFS on the status and health of the shrimp stocks as well as a report on the biological and economic aspects of the 2003 Cooperative Shrimp Closure with the state of Texas. The Shrimp AP may make recommendations for a

cooperative closure with Texas for 2004. The Shrimp AP will also review Draft Amendment 13 to the Shrimp Fishery Management Plan (FMP) addressing maximum sustainable yield (MSY), optimum yield (OY), minimum stock size threshold (MSST), and maximum fishing mortality threshold (MFMT) for shrimp stocks, as well as improved effort alternatives and standardized bycatch reporting methodologies. The Shrimp AP will also review an Options Paper for Amendment 14 that includes alternatives for vessel monitoring systems (VMS), additional bycatch reduction measures, and measures to reduce effort in order to achieve OY.

The Shrimp AP consists principally of commercial shrimp fishermen, dealers, and association representatives.

Although other non-emergency issues not on the agenda may come before the AP for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during these meetings. Actions of the AP will be restricted to those issues specifically identified in the agenda and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Copies of the agenda can be obtained by calling 813-228-2815.

#### Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Trish Kennedy at the Council (*see ADDRESSES*) by December 29, 2003.

Dated: December 16, 2003.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

[I.D. 121503A]

#### Gulf of Mexico Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public meeting.

**SUMMARY:** The Gulf of Mexico Fishery Management Council (Council) will convene public meetings of the Red Snapper Advisory Panel (AP) and the Standing and Special Reef Fish Scientific and Statistical Committee (SSC) from January 6 through January 7, 2004.

**DATES:** The Council's Red Snapper AP and SSC will convene jointly at 2 p.m. on Tuesday, January 6, 2004, to receive a presentation on the vermilion snapper and make recommendations. The AP and SSC will hold separate meetings to discuss Draft Reef Fish Amendment 22 (a red snapper rebuilding plan) beginning at 8:30 a.m. on Wednesday, January 7, 2004, and will conclude by 3 p.m.

**ADDRESSES:** The meetings will be held at the Hilton Tampa Airport Westshore Hotel, 2225 Lois Avenue, Tampa, FL; telephone: 813-877-6688.

*Council address:* Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301 North, Suite 1000, Tampa, FL 33619.

**FOR FURTHER INFORMATION CONTACT:** Mr. Steven Atran, Population Dynamics Statistician, Gulf of Mexico Fishery Management Council; telephone: 813-228-2815.

**SUPPLEMENTARY INFORMATION:** The AP and SSC will meet jointly on Tuesday, January 6 2004 to receive a presentation on the vermilion snapper catch-per-unit-effort (CPUE) indices from the NOAA Fisheries Southeast Fisheries Science Center. Vermilion snapper were recently declared to be overfished by the NOAA Fisheries Regional Office, which triggers a requirement that the Council develop a rebuilding plan. However, the most recent vermilion snapper stock assessment was conducted in 2001 using data through 1999, and some fishermen feel that it may not be representative of the current status of the stock. The updated CPUE analyses, which uses data through 2002, will show if there has been any change in catch rates since 1999, but it is not a full stock assessment. Based on the results of the new CPUE analyses, the AP and SSC will each be asked to recommend whether the Council should request a new vermilion snapper stock assessment from NOAA Fisheries. The SSC will also be asked to evaluate the scientific validity of the new CPUE analyses. If a new stock assessment is requested, the earliest it could be done is 2005, and it would replace a scamp assessment that is currently scheduled for that year. Scamp, one of the most commonly caught grouper species after red grouper and gag, has never had a

stock assessment done, and its status is unknown.

On Wednesday, January 7, 2004, the AP and SSC will convene separately to discuss Draft Reef Fish Amendment 22, a red snapper rebuilding plan. Although there is a red snapper rebuilding plan currently in place, that plan was developed prior to implementation of the Sustainable Fisheries Act of 1996 (SFA), and it is not in full compliance with provisions of the SFA. Draft Amendment 22 will create a new rebuilding plan that is in compliance by establishing status determination criteria (minimum stock size threshold, maximum fishing mortality rate, maximum sustainable yield, and optimum yield). Draft Amendment 22 will also contain alternatives to select a rebuilding strategy that will restore the red snapper stock within the time frame allowed under SFA (the recovery time in the absence of fishing mortality plus one generation time, equal to 32 years for red snapper). The amendment will also contain alternatives to implement or revise bycatch reporting methodologies in the commercial and recreational red snapper fisheries.

The recommendations of the AP and SSC will be presented to the Gulf Council at its January 12-15, 2004 meeting in Austin, TX. At that meeting, the Council will decide whether to request a vermilion snapper stock assessment in place of a scamp assessment in 2005, and will take final action on selection of proposed alternatives for Amendment 22.

Copies of the updated vermilion snapper CPUE analyses and Draft Reef Fish Amendment 22 can be obtained by calling the Council office at 813-228-2815 (toll-free 888-833-1844), or can be downloaded from the Council website (<http://www.gulfcouncil.org>).

Although other non-emergency issues not on the agenda may come before the AP/SSC for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during these meetings. Actions of the AP/SSC will be restricted to those issues specifically identified in the agendas and any issues arising after publication of this notice that require emergency action under Section 305 (c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take action to address the emergency.
