*The Standards Council of Canada (SCC)
voted to end its Laboratory Accreditation
Program for Substance Abuse (LAPSA)
effective May 12, 1998. Laboratories certified
through that program were accredited to
conduct forensic urine drug testing as
required by U.S. Department of
Transportation (DOT) regulations. As of that
date, the certification of those accredited
Canadian laboratories will continue under
DOT authority. The responsibility for
conducting quarterly performance testing
plus periodic on-site inspections of those
LAPSA-accredited laboratories was
transferred to the U.S. DHHS, with the
DHHS' National Laboratory Certification
Program (NLCP) contractor continuing to
have an active role in the performance testing
and laboratory inspection processes. Other
Canadian laboratories wishing to be
considered for the NLCP may apply directly
to the NLCP contractor just as U.S.
laboratories do.

Upon finding a Canadian laboratory to be
qualified, the DHHS will recommend that
DOT certify the laboratory (**Federal Register**,
16 July 1996) as meeting the minimum
standards of the "Mandatory Guidelines for
Workplace Drug Testing" (59 **Federal
Register**, 9 June 1994, Pages 29908-29931).

After receiving the DOT certification, the
laboratory will be included in the monthly
list of DHHS certified laboratories and
participate in the NLCP certification
maintenance program.
