(i) *In general.* The term *passive investment income* means income described in section 954(c), as modified by this paragraph (e)(5)(iv)(C)(5)(i) and paragraph (e)(5)(iv)(C)(5)(ii) of this section. \* \* \*

\* \* \* \* \*

(D) \* \* \*

*Example 5.* \* \* \*

(i) \* \* \*

(A) A country X corporation (Foreign Bank) contributes \$2 billion to a newly-formed country X company (Newco) in exchange for all of the common stock of Newco and securities that are treated as debt of Newco for U.S. tax purposes and preferred stock of Newco for country X tax purposes. A domestic corporation (USP) contributes \$1 billion to Newco in exchange for securities that are treated as preferred stock of Newco for U.S. tax purposes and debt of Newco for country X tax purposes. Newco loans the \$3 billion to a wholly-owned, country X subsidiary of Foreign Bank (FSub) in return for a \$3 billion, seven-year note paying interest currently. The Newco securities held by USP entitle the holder to fixed distributions of \$4 million per year, and the Newco securities held by Foreign Bank entitle the holder to receive \$82 million per year, payable only on maturity of the \$3 billion FSub note in year 7. At the end of year 5, pursuant to a prearranged plan, Foreign Bank acquires USP's Newco securities for a prearranged price of \$1 billion. Country X does not impose tax on dividends received by one country X corporation from a second country X corporation. Under an income tax treaty between country X and the United States, country X does not impose country X tax on interest received by U.S. residents from sources in country X. None of Foreign Bank's stock is owned, directly or indirectly, by USP or any shareholders of USP that are domestic corporations, U.S. citizens or resident alien individuals.

(B) In each of years 1 through 7, FSub pays Newco \$124 million of interest on the \$3 billion note. Newco distributes \$4 million to USP in each of years 1 through 5. The distributions are deductible for country X tax purposes, and Newco pays country X \$36 million with respect to \$120 million of taxable income from the FSub note in each year. For U.S. tax purposes, in each year Newco's post-1986 undistributed earnings are increased by \$124 million of interest income and reduced by accrued interest expense with respect to the Newco securities held by Foreign Bank.

(ii) *Result.* The \$36 million payment to country X is not a compulsory payment, and

thus is not an amount of tax paid, because the foreign payment is attributable to a structured passive investment arrangement. First, Newco is an SPV because all of Newco's income is passive investment income described in paragraph (e)(5)(iv)(C)(5) of this section; Newco's only asset, a note of FSub, is held to produce such income; the payment to country X is attributable to such income; and if the payment were an amount of tax paid it would be paid or accrued in a U.S. taxable year in which Newco meets the requirements of paragraph (e)(5)(iv)(B)(1)(i) of this section. Second, if the foreign payment were an amount of tax paid, USP would be deemed to pay its pro rata share of the foreign payment under section 902(a) in each of years 1 through 5 and, therefore, would be eligible to claim a credit under section 901(a). Third, USP would not pay any country X tax if it directly owned its proportionate share of Newco's assets, a note of FSub. Fourth, for country X tax purposes, Foreign Bank is eligible to receive a tax-free distribution of \$82 million attributable of each of years 1 through 5, and that amount corresponds to more than 10 percent of the foreign base with respect to which USP's share of the foreign payment was imposed. Fifth, Foreign Bank is a counterparty because it owns stock of Newco for country X tax purposes and none of Foreign Bank's stock is owned, directly or indirectly, by USP or shareholders of USP that are domestic corporations, U.S. citizens, or resident alien individuals. Sixth, the United States and country X treat various aspects of the arrangement differently, including whether the Newco securities held by Foreign Bank and USP are debt or equity. The amount of credits claimed by USP if the payment to country X were an amount of tax paid is materially greater than it would be if, for U.S. tax purposes, the securities held by USP were treated as debt or the securities held by Foreign Bank were treated as equity, and the amount of income recognized by Newco for U.S. tax purposes is materially less than the amount of income recognized for country X tax purposes. Because the payment to country X is not an amount of tax paid, USP is not deemed to pay any country X tax under section 902(a). USP has dividend income of \$4 million in each of years 1 through 5.

*Example 8.* \* \* \*

(i) \* \* \*

(B) The transaction is structured in such a way that, for U.S. tax purposes, there is a loan of \$1.5 billion from FC to USP, and USP is the owner of the class C stock and the class A stock. \* \* \*

**Section 1367 Regarding Open Account Debt; Correction**

**AGENCY:** Internal Revenue Service (IRS), Treasury.

**ACTION:** Correcting amendment.

**SUMMARY:** This document contains corrections to final regulations (TD 9428) that were published in the **Federal Register** on Monday, October 20, 2008 (73 FR62199) relating to the treatment of open account debt between S corporations and their shareholders. These final regulations provide rules regarding the definition of open account debt and the adjustments in basis of any indebtedness of an S corporation to a shareholder under section 1367(b)(2) of the Internal Revenue Code for shareholder advances and repayments on advances of open account debt. The regulations affect shareholders of S corporations and are necessary to provide guidance needed to comply with the applicable tax law.

**DATES:** *Effective Date:* This correction is effective November 14, 2008, and is applicable on October 20, 2008.

## PENSION BENEFIT GUARANTY CORPORATION

### 29 CFR Parts 4022 and 4044

#### Benefits Payable in Terminated Single-Employer Plans; Allocation of Assets in Single-Employer Plans; Interest Assumptions for Valuing and Paying Benefits

**AGENCY:** Pension Benefit Guaranty Corporation.

**ACTION:** Final rule.

**SUMMARY:** The Pension Benefit Guaranty Corporation's regulations on Benefits Payable in Terminated Single-Employer Plans and Allocation of Assets in Single-Employer Plans prescribe interest assumptions for valuing and paying benefits under terminating single-employer plans. This final rule amends the regulations to adopt interest assumptions for plans with valuation dates in December 2008. Interest assumptions are also published on the PBGC's Web site (<http://www.pbgc.gov>).

**DATES:** Effective December 1, 2008.

**FOR FURTHER INFORMATION CONTACT:** Catherine B. Klion, Manager, Regulatory and Policy Division, Legislative and Regulatory Department, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202–326–4024. (TTY/TDD users may call the

Federal relay service toll-free at 1–800–877–8339 and ask to be connected to 202–326–4024.)

**SUPPLEMENTARY INFORMATION:** The PBGC's regulations prescribe actuarial assumptions—including interest assumptions—for valuing and paying plan benefits of terminating single-employer plans covered by title IV of the Employee Retirement Income Security Act of 1974. The interest assumptions are intended to reflect current conditions in the financial and annuity markets.

Three sets of interest assumptions are prescribed: (1) A set for the valuation of benefits for allocation purposes under section 4044 (found in Appendix B to Part 4044), (2) a set for the PBGC to use to determine whether a benefit is payable as a lump sum and to determine lump-sum amounts to be paid by the PBGC (found in Appendix B to Part 4022), and (3) a set for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology (found in Appendix C to Part 4022).

This amendment (1) adds to Appendix B to Part 4044 the interest assumptions for valuing benefits for allocation purposes in plans with valuation dates during December 2008, (2) adds to Appendix B to Part 4022 the interest assumptions for the PBGC to use for its own lump-sum payments in plans with valuation dates during December 2008, and (3) adds to Appendix C to Part 4022 the interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology for valuation dates during December 2008.

For valuation of benefits for allocation purposes, the interest assumptions that the PBGC will use (set forth in Appendix B to part 4044) will be 7.92 percent for the first 20 years following the valuation date and 6.99 percent thereafter. These interest assumptions represent an increase (from those in effect for November 2008) of 0.83 percent for the first 20 years following the valuation date and 0.83 percent for all years thereafter.

The interest assumptions that the PBGC will use for its own lump-sum payments (set forth in Appendix B to part 4022) will be 4.75 percent for the period during which a benefit is in pay status and 4.00 percent during any years preceding the benefit's placement in pay status. These interest assumptions represent an increase (from those in

effect for November 2008) of 1.00 percent in the immediate annuity rate and are otherwise unchanged. For private-sector payments, the interest assumptions (set forth in Appendix C to part 4022) will be the same as those used by the PBGC for determining and paying lump sums (set forth in Appendix B to part 4022).

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect current market conditions as accurately as possible.

Because of the need to provide immediate guidance for the valuation and payment of benefits in plans with valuation dates during December 2008, the PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a “significant regulatory action” under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).
