

affiliated. Paulding IV acquired the undivided ownership interests from Paulding III for \$4,694,270, which the parties stated was net book value.

13. Given the Commission's more limited oversight over transactions subject to section 203(a)(7), we believe that the information collected in these notification filings was adequate to ensure compliance with the statute and the Commission's regulations. That is, the information collected is far less than the information required for full section 203 applications pursuant to part 33 of the Commission's regulations, but more than a brief notice establishing that the underlying transaction was consummated. Thus, the Commission continues to be able to track who controls the Commission-jurisdictional facilities at issue in these transactions as well as whether these transactions are executed at arm's length or could affect a public utility's rates.

V. Request for Comment

14. As discussed above, the Act specified that, not later than two years after the date of enactment of the Act, the Commission shall submit to Congress a report that assesses the effects of the amendment made by section 1 and takes into account any information collected under section 203(a)(7). The Act also required that the Commission provide for notice and comment with respect to this report.

15. Consistent with this directive from Congress, we request comment on this report. Comments are due June 29, 2020. The Commission will review the comments prior to submitting the report to Congress by September 28, 2020.

VI. Comment Procedures

16. The Commission invites interested persons to submit comments on the matters and issues proposed in the report, including any related matters that commenters may wish to discuss. Comments are due on or before June 29, 2020. Comments must refer to Docket No. RM19-4-000 and must include the commenter's name, the organization they represent, if applicable, and their address.

17. The Commission encourages comments to be filed electronically via the eFiling link on the Commission's website at <http://www.ferc.gov>. The Commission accepts most standard word processing formats. Documents created electronically using word processing software should be filed in native applications or print-to-PDF format and not in a scanned format. Commenters filing electronically do not need to make a paper filing.

18. Commenters that are not able to file comments electronically must send an original of their comments to: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE, Washington, DC 20426.

19. All comments will be placed in the Commission's public files and may be viewed, printed, or downloaded remotely. Commenters on this report are not required to serve copies of their comments on other commenters.

Dated: May 27, 2020.

Secretary.
