SUPPLEMENTARY INFORMATION:

The Department of the Air Force may grant the prospective license unless a timely objection is received that sufficiently shows the grant of the license would be inconsistent with the Bayh-Dole Act or implementing regulations. A competing application for a patent license agreement, completed in compliance with 37 CFR 404.8 and received by the Air Force within the period for timely objections, will be treated as an objection and may be considered as an alternative to the proposed license.

Abstract of Patents and Patent Application(s)

A new apparatus and method for tracking a moving object with a moving camera provides a real-time, narrow field-of-view, high resolution and on target image by combining commanded motion with an optical flow algorithm for deriving motion and classifying background. Commanded motion means that movement of the pan, tilt and zoom (PTZ) unit is "commanded" by a computer, instead of being observed by the camera, so that the pan, tilt and zoom parameters are known, as opposed to having to be determined, significantly reducing the computational requirements for tracking a moving object. The present invention provides a single camera pan and tilt system where the known pan and tilt rotations are used to calculate predicted optical flow points in sequential images, so that resulting apparent movement can be subtracted from the movement determined by an optical flow algorithm to determine actual movement, following by use of a Kalman filter algorithm to predict subsequent locations of a determined moving object and command the pan and tilt unit to point the camera in that direction.

Intellectual Property

U.S. Patent No. U.S. Patent No. 9,696,404 B1, that issued on July 4, 2017, and entitled "Real-time camera tracking system using optical flow feature points."

The Department of the Air Force may grant the prospective license unless a timely objection is received that sufficiently shows the grant of the

license would be inconsistent with the Bayh-Dole Act or implementing regulations. A competing application for a patent license agreement, completed in compliance with 37 CFR 404.8 and received by the Air Force within the period for timely objections, will be treated as an objection and may be considered as an alternative to the proposed license.

Adriane Paris,

Air Force Federal Register Liaison Officer.

BILLING CODE 5001-10-P

DEPARTMENT OF DEFENSE

Department of the Air Force

[Docket ID: USAF-2022-HQ-0009]

Proposed Collection; Comment Request

AGENCY: Department of the Air Force, Department of Defense (DoD).

ACTION: 60-Day information collection notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, Space Force, Space Systems Command, Space Domain Awareness & Combat Power (SDACP) and Battle Management Command, Control and Communications (BMC³) Program Executive Offices (PEOs) announce a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by January 24, 2023.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <https://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: Department of Defense, Office of the Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency, Regulatory Directorate, 4800 Mark Center Drive, Mailbox #24,

Suite 08D09, Alexandria, VA 22350-1700.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <https://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT:

To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Space Force, Space Systems Command, SDACP & BMC³ Program Executive Offices, 483 N. Aviation Blvd., El Segundo, CA 90245-2808, Brent L. Davis, Lt Col, USSF, Chief of Staff to PEO SDACP & BMC³, (310) 653-1813, ssc.sz.exec@spaceforce.mil.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Space Systems Command (SSC), Space Domain Awareness & Combat Power (SDACP) and Battle Management Command, Control and Communications (BMC³) Culture Assessment Survey; OMB Control Number 0701-SCAS.

Needs and Uses: SDACP and BMC³ leadership want to better understand the current culture within their two PEOs. The Culture Assessment Survey is designed to (1) collect information about the current climate to create a baseline and (2) identify potential obstacles. The voluntary Culture Assessment Survey focuses on the Space Force Values and Cultural Attributes and the questions ask whether the workforce is familiar with these values and cultural attributes and if there are barriers to achieving them. Booz Allen has been contracted to aggregate survey results to allow for anonymity. Booz Allen will highlight themes from the aggregated data and provide recommendations (e.g. job aids, branding, communications) to PEO leadership to help them achieve their desired culture.

Affected Public: Individuals or households.

Annual Burden Hours: 288.7.

Number of Respondents: 866.

Responses per Respondent: 1.

Annual Responses: 866.

Average Burden per Response: 20 minutes.

Frequency: Once.

Description: The SDACP & BMC³ Culture Assessment Survey co-sponsors

(Deputy Program Executive Officers) will send an email to the workforce requesting they complete the voluntary survey, and this email will include the link to the survey, which is hosted on the web-based interface SurveyMonkey. The survey captures questions pertaining to participant demographics (e.g., location), Space Force values and cultural attributes, and organizational change management. Participants will submit their responses electronically and anonymously.

Dated: November 18, 2022.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Department of the Army

[Docket ID: USA-2022-HQ-0017]

Proposed Collection; Comment Request

AGENCY: Department of the Army, Department of Defense (DoD).

ACTION: 60-Day information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the United States Army Network Enterprise Technology Command announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by January 24, 2023.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: Department of Defense, Office of the Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency, Regulatory Directorate,

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Headquarters, Network Enterprise Technology Command, Military Auxiliary Radio System, Salado, TX 76571, ATTN: Paul English, or call 254-947-3141.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Army Military Auxiliary Radio System (MARS) Application; Army MARS Form 1; OMB Control Number 0702-0140.

Needs and Uses: The information collection requirement is necessary to operate a Military Auxiliary Radio System (MARS) Station. The MARS program is a civilian auxiliary consisting primarily of licensed amateur radio operators who are interested in assisting the military with communications on a local, national, and international basis as an adjunct to normal communications and providing worldwide auxiliary emergency communications during times of need. The information collection requirement is necessary not only an application to join ARMY MARS, but to maintain an accurate roster of civilians enrolled in the program for the purpose of providing contingency communications support to the Department of Defense. Additionally, the collected information is used by the MARS program manager to determine an individual's eligibility for the program, as well as to initiate a background investigation should a security clearance be required. Location information may be used to show the geographic dispersion of the members who participate in the global High Frequency radio network in support of the Department of Defense and to ensure our radio spectrum authorizations cover the geographic areas from which our members will operate. The information is also used periodically to email informational updates about the MARS program.

Affected Public: Individuals or households.
