Full Text of Announcement**I. Funding Opportunity Description**

Purpose of Program: The Assistive Technology Act of 1998, as amended (AT Act), authorizes support for State AT programs that increase the availability of, funding for, access to, provision of, and training about AT devices and AT services. According to section 3(15) of the AT Act, the term "State AT program" means a program authorized under section 4 of the AT Act. Section 4 authorizes both the State Grant for AT program and the Alternative Financing Program under Title III of the Assistive Technology Act of 1998 as in effect prior to the enactment of the 2004 amendments.

These programs are required to collect data and report on the activities they conduct to determine whether those activities are being conducted appropriately and successfully and to assess the outcomes of those activities. Section 6(b)(5) of the AT Act authorizes support to assist State AT Programs with this data collection and reporting.

Priority: We are establishing this priority for the FY 2006 grant competition only, in accordance with section 437(d)(1) of the General Education Provisions Act (GEPA).

Absolute Priority: For FY 2006 this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is:

Assistive Technology Act Data Collection and Reporting Assistance

This priority is for a project to develop, as necessary, implement, maintain, and update a data collection and reporting system for use by all State AT programs and the U.S. Department of Education.

The purpose of this system is to—

(a) Ensure that all States collect consistent, comparable, high-quality quantitative and qualitative data that validly and reliably reflect the activities conducted by State AT programs and the outcomes of those activities;

(b) Enable State AT programs and the U.S. Department of Education to access and analyze data for purposes of program monitoring, evaluation, planning, management, and improvement; and

(c) Provide data to the U.S. Department of Education for reporting to Congress and the public.

The project must—

(a) Assist entities that carry out State AT programs in developing and implementing effective data collection and reporting systems that—

(1) Focus on quantitative and qualitative data elements;

(2) Measure the outcomes of the activities described in section 4 of the AT Act that are implemented by the States;

(3) Measure the progress of the States toward achieving the measurable goals described in section 4(d)(3) of the AT Act;

(4) Provide States with the necessary information required under the AT Act or by the Secretary for reports described in section 4(f)(2) of the AT Act; and

(5) Help measure the accrued benefits of the activities to individuals who need AT devices and AT services;

(b) Develop, as appropriate, maintain, and update a data collection and reporting system capable of collecting

consistent, high-quality qualitative and quantitative data on the activities conducted by all State AT programs and the outcomes of those activities. This system must—

(1) Be designed and implemented to collect and analyze data using accepted research methodologies for ensuring validity and reliability;

(2) Provide for analysis of aggregated and disaggregated data;

(3) Have the capacity to compare data across States;

(4) Meet standard guidelines for accessibility of software and Internet applications;

(5) Allow States and the U.S.

Department of Education to independently access data at any time;

(6) Allow appropriate public access to data;

(7) Have the capacity to be appropriately modified or adapted to meet emerging or specialized needs; and

(8) Be able to incorporate relevant data from other data systems, as appropriate;

(c) Develop, as appropriate, maintain, and update the system with the input of directors of State AT programs, the entity conducting the National Assistive Technology Training and Technical Assistance Program, and other appropriate entities or individuals;

(d) Provide ongoing technical assistance to all States and the U.S. Department of Education on the use of this system;

(e) Provide technical assistance to all States on the development, use, and improvement of their State-level data collection infrastructures;

(f) Provide to States and the U.S. Department of Education data to meet State and Federal reporting requirements;

(g) Conduct analyses of data for planning, management, and improvement of State AT programs;

(h) Collaborate with the National Assistive Technology Training and Technical Assistance Program to use data for planning, management, and improvement of State AT programs; and

(i) Collaborate, as appropriate, with entities that maintain or have developed data collection systems for use by State AT programs.

Waiver of Proposed Rulemaking:

Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed priorities. Ordinarily, this practice would have applied to the absolute priority for the Assistive Technology Act Data Collection and Reporting Assistance. Section 437(d)(1) of GEPA (20 U.S.C. 1232(d)(1)), however, allows the

Secretary to exempt from rulemaking requirements regulations governing the first grant competition under a new or substantially revised program authority. This is the first grant competition for this program under section 6(b)(5) of the AT Act and therefore qualifies for this exemption. In order to ensure timely grant awards, the Secretary has decided to forego public comment on the proposed absolute priority under section 437(d)(1). This absolute priority will apply to the FY 2006 grant competition only.

In order to assess the success of the grantee in meeting these goals, in addition to other information the grantee's annual performance report must include a description of—

- (a) State-specific and national technical assistance provided to State AT programs to support their data collection and reporting infrastructure, and the outcomes of that technical assistance as evidenced by improvement in those infrastructures;

- (b) State-specific and national data analyses performed and how, in collaboration with the National Assistive Technology Training and Technical Assistance Program, these analyses were used for planning, management, and improvement of State AT programs; and
