Department's information collection requirements and provide the requested data in the desired format. The Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: School Pulse Panel 2025–26 Data Collection Activities. OMB Control No.: 1850-0975.

Type of Review: A revision of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 53.955.

Total Estimated Number of Annual

Burden Hours: 10,175. Abstract: The School Pulse Panel (SPP) is a data collection that was originally designed to collect voluntary responses from a nationally representative sample of public schools to better understand how schools, students, and educators were responding to the ongoing stressors of the coronavirus pandemic. The School Pulse Panel is conducted by the National Center for Education Statistics (NCES), part of the Institute of Education Sciences (IES), within the United States Department of Education. Initially, the purpose of the study was to collect extensive data on issues brought to light by the COVID-19 pandemic, as well as other important education-related issues that could inform data-driven policy decisions, in U.S. public schools. Due to the immediate need to collect pandemic-era information from schools as described in Executive Order 14000, an emergency clearance was issued to develop and field the first several monthly collections of the SPP in 2021 and a full review of the SPP data collection was performed in 2022 (OMB# 1850-0969). SPP's innovative design and timely dissemination of findings have been used and cited frequently among

Department of Education senior

leadership, the White House Domestic

Policy Council, the USDA's Food and

Nutrition Service, the Centers for Disease Control and Prevention, Congressional deliberations, and the media. The growing interest from stakeholders resulted in a request for funding to create an established NCES quick-turnaround data collection vehicle to become a mainstay for NCES. Funding for a mainstay collection was approved in late 2022, and NCES conducted a new collection during the 2023-24 and 2024-25 school years.

The School Pulse Panel study is one of the few reliable, nationally representative, quick-turnaround studies that produces data on U.S. public schools. The sample design for the 2025–26 collection will roughly be the same as the 2023-24 and 2024-25 collections with 4,000 public schools randomly selected to an initial sample and 4,000 in a reserve sample. It is expected these schools will come from roughly 3,000 districts. The goal is national representation from about 1,200 responding schools each month in order to report out national estimates. School staff will be asked to provide requested data monthly during the 2025-26 school year. This approach provides the ability to collect detailed information on various topics while also assessing changes over time for items that are repeated from year to year. Given the demand for data collection, the content of the survey is expected to change monthly. For the 2025-26 school year, the survey may ask school staff about a wide range of topics, including but not limited to staffing; learning recovery; absenteeism; usage of federal funds; facilities; transportation; technology; and overall principal and staff experiences.

This submission will undergo a 60day public comment period, followed by an additional 30-day public comment period. We continue to make revisions to the communication materials (Appendix A) and will present final versions for the 30-day comment period. Items in the Item Bank (Appendix B) that have not already been approved are consider draft and will undergo cognitive testing and revision before final administration. Final instruments for the August, September, and October 2025 surveys (Appendix C1) will be added to this package during the 30-day public comment, to be posted in spring 2025. Final items will be submitted to OMB through a change request. Subsequent quarterly instruments will also be posted for 30-day comment in the months immediately preceding their administration, potentially followed by change requests to allow for small changes in items as deemed necessary by cognitive testing. Materials for SPP

are cleared under two OMB Number sequences. Materials for SPP 2022 and SPP 2024–25 were cleared under OMB# 1850-0969, while SPP 2023-24 and now SPP 2025-26 are cleared under OMB# 1850-0975.

Dated: January 10, 2025.

Stephanie Valentine,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

Federal Energy Regulatory Commission

Combined Notice of Filings

Take notice that the Commission has received the following Natural Gas Pipeline Rate and Refund Report filings:

Filings Instituting Proceedings

Docket Numbers: AC25-44-000. Applicants: Columbia Gulf Transmission, LLC.

Description: Columbia Gulf Transmission, LLC submits request for approval of accounting treatment for deferred taxes associated with sale and purchase re a transaction with Global Infrastructure Partners, LP on 10/04/

Filed Date: 1/8/25.

Accession Number: 20250108-5096. Comment Date: 5 p.m. ET 1/29/25. Docket Numbers: AC25-45-000. Applicants: Columbia Gas

Transmission, LLC.

Description: Columbia Gas Transmission, LLC submits request for approval of accounting treatment for deferred taxes associated with sale and purchase re a transaction with Global Infrastructure Partners, LP on 10/04/ 2023.

Filed Date: 1/8/25. Accession Number: 20250108-5097. Comment Date: 5 p.m. ET 1/29/25.

Any person desiring to intervene, to protest, or to answer a complaint in any of the above proceedings must file in accordance with Rules 211, 214, or 206 of the Commission's Regulations (18 CFR 385.211, 385.214, or 385.206) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

The filings are accessible in the Commission's eLibrary system (https:// elibrary.ferc.gov/idmws/search/

fercgensearch.asp) by querying the docket number.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: http://www.ferc.gov/docs-filing/efiling/filing-req.pdf. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or *OPP@ ferc.gov*.

Dated: January 8, 2025.

Carlos D. Clay,

Acting Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Privacy Act of 1974; System of Records

AGENCY: Federal Energy Regulatory Commission (FERC), Department of Energy (DOE).

ACTION: Rescindment of system of records notice.

SUMMARY: Pursuant to the Privacy Act of 1974 and Office of Management and Budget (OMB) Circular No. A–108, the Federal Energy Regulatory Commission (Commission or FERC) proposes to rescind two existing systems of records notices (SORNs). The Rescindment of System of Records Notice identifies the systems of records and explains why each is being rescinded.

DATES: Comments on this rescindment notice must be received no later than 30 days after the date of publication in the Federal Register. If no public comment is received during the period allowed for comment or unless otherwise published in the Federal Register by FERC, the rescindment will become effective a minimum of 30 days after the date of publication in the Federal Register. If FERC receives public comments, FERC shall review the

comments to determine whether any changes to the notice are necessary.

ADDRESSES: Comments may be submitted in writing to Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, or electronically to *privacy@ferc.gov*. Comments should indicate that they are submitted in response to "Management, Administrative, and Payroll System (MAPS) (FERC–36)" and "Commission Employee Assistance Program Records (FERC–54)".

FOR FURTHER INFORMATION CONTACT:

Michelle Lipinski, Director, Human Resources Division, Office of the Executive Director, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, (202) 502– 6852.

supplementary information: Two (2) systems of records were identified for rescindment from the FERC's Privacy Act systems of records inventory. Those two systems of records were identified for rescindment because: (1) the records will be maintained as part of a modified system of records; or (2) the records are no longer maintained by FERC.

- 1. OMB requires that each agency provide assurance that systems of records do not duplicate any existing agency or government-wide systems of records (Appendix I, OMB Circular A-130). Management, Administrative, and Payroll System (MAPS) (FERC–36) was identified for rescindment because FERC is no longer using the Management, Administrative, and Payroll System (MAPS) and is instead using Federal Personnel Payroll System (FPPS) which is covered by Federal Personnel and Payroll Records (FERC-57) and PeopleSoft Financials which is covered by Financial Management Records (FERC-56).
- 2. Commission Employee Assistance Program Records (FERC-54) was identified for rescindment because FERC no longer keeps records on employees who have been counseled or referred to the Employee Assistance Program for problems relating to alcoholism, drug abuse, job stress, chronic illness, family or relationship concerns, emotional and other similar issues. Instead, records of employees who sought assistance through that program are maintained by the Federal Occupational Health Program which is part of the Department of Health and Human Services.

SYSTEM NAME(S) AND NUMBER(S):

Management, Administrative, and Payroll System (MAPS) (FERC–36) Commission Employee Assistance

Program Records (FERC–54)

HISTORY:

System No.	Federal Register No. and publication date
FERC-36	65 FR 21753 (April 24, 2000).
FERC-54	65 FR 21763 (April 24, 2000).

Issued: January 8, 2025.

Debbie-Anne A. Reese,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP25-37-000]

Transwestern Pipeline Company, LLC; Notice of Application and Establishing Intervention Deadline

Take notice that on December 20, 2024, Transwestern Pipeline Company, LLC (Transwestern), 1300 Main Street, Houston, Texas, 77002, filed an application under section 7(c) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations requesting authorization for its WT-0 Compressor Station Project (Project). The Project involves the construction of a new WT-0 Compressor Station including one new Solar Mars 90 natural gas turbinedriven compressor unit providing 13,220 horsepower in Chaves County, New Mexico. The Project will enable Transwestern to deliver up to 80,000 million British thermal units per day of new firm transportation capacity of natural gas to be utilized by ETC Marketing, Ltd. Transwestern estimates the total cost of the Project to be \$51,990,551 and proposes a negotiated rate with service provided under Rate Schedule FTS-1 for the cost recovery. all as more fully set forth in the application which is on file with the Commission and open for public inspection.
