

waters of the Ohio River between MM 731.0 to MM 734.0 in Troy, IN.

(b) *Effective period.* This temporary safety zone will be in effect from April 14, 2020 through April 23, 2020.

(b) *Period of enforcement.* This temporary safety zone will be enforced from 7 a.m. through 6 p.m. each day from April 14, 2020, through April 23, 2020.

(c) *Regulations.* (1) In accordance with the general regulations in § 165.23 of this part, entry into this zone is prohibited unless specifically authorized by the Captain of the Port Sector Ohio Valley (COTP) or a designated representative. Persons or vessels desiring to enter into or pass through the zone must request permission from the COTP or a designated representative. They may be contacted on VHF-FM radio channel 16 or phone at 1-800-253-7465.

(2) Persons and vessels permitted to enter this safety zone must transit at the slowest safe speed and comply with all lawful directions issued by the COTP or a designated representative.

(d) *Informational broadcasts.* The COTP or a designated representative will inform the public through Broadcast Notices to Mariners and the Local Notice to Mariners of the enforcement period for the temporary safety zone as well as any changes in the planned schedule.

Dated: February 13, 2020.

A.M. Beach,

Captain, U.S. Coast Guard, Captain of the Port Sector Ohio Valley.

BILLING CODE 9110-04-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[EPA-HQ-OPP-2019-0384; FRL-10000-85]

Receipt of a Pesticide Petition Filed for Residues of Pesticide Chemicals in or on Various Commodities (PP 8F8708)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of filing of petition and request for comment.

SUMMARY: This document announces the Agency's receipt of a corrected filing of a pesticide petition requesting the establishment of regulations for residues of indoxacarb in or on certain popcorn commodities.

DATES: Comments must be received on or before March 26, 2020.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2019-0384, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

Michael L. Goodis, Director, Registration Division (7505P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Avenue NW, Washington, DC 20460-0001; main telephone number: (703) 305-7090; email address: RDfRNotices@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then

identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What action is the Agency taking?

In the **Federal Register** of August 2, 2019 (84 FR 37818) (FRL-9996-78), EPA issued a document pursuant to the Federal Food, Drug, and Cosmetic Act (FFDCA) section 408(d)(3), 21 U.S.C. 346a(d)(3), announcing the filing of a pesticide petition (PP 8F8708) by E.I. DuPont de Nemours and Company, 974 Centre Road, Wilmington, DE 19805. EPA's notice stated that the petition requested that the Agency establish tolerances for residues of the insecticide indoxacarb in or on corn, pop, grain at 0.02 parts per million (ppm) and corn, pop, stover at 15 ppm.

In a comment submitted to the docket for that notice, FMC Corporation informed the Agency that although the August 2, 2019 notice identified E.I. DuPont de Nemours and Company as the petitioner, FMC Corporation had actually submitted the petition to the Agency requesting the indoxacarb tolerances. In addition, FMC Corporation noted that the summary of the petition included in the docket for this action was not the petition that FMC Corporation had submitted requesting tolerances for residues of indoxacarb on popcorn, but rather, it was a resubmission of the 2016

summary of the petition from E.I. DuPont de Nemours and Company for the other corn commodities. Subsequently, FMC Corporation submitted a revised petition requesting tolerances for residues of indoxacarb in or on corn, pop, grain at 0.02 ppm and corn, pop, stover at 15 ppm. Upon receiving the corrected petition, EPA determined that the petition contains the data or information prescribed in FFDCA section 408(d)(2), 21 U.S.C. 346a(d)(2). EPA is now publishing notice of that receipt for public comment pursuant to section 408(d)(3) of FFDCA. The summary of the petition (pesticide petition 8F8708) as drafted and submitted by FMC Corporation, 2929 Walnut Street, Philadelphia, PA 19104, is included in the docket for this petition, at <http://www.regulations.gov> with the docket identification number EPA-HQ-OPP-2019-0384. After considering public comments, EPA intends to evaluate whether and what action may be warranted.

Authority: 21 U.S.C. 346a.

Dated: January 3, 2020.

Michael L. Goodis,

Director, Registration Division, Office of Pesticide Programs.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 271

[EPA-R04-RCRA-2019-0673; FRL-10005-60-Region 4]

Florida: Proposed Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Florida has applied to the Environmental Protection Agency (EPA) for final authorization of changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA), as amended. EPA has reviewed Florida's application and has determined, subject to public comment, that these changes satisfy all requirements needed to qualify for final authorization. Therefore, we are proposing to authorize the State's changes. EPA seeks public comment prior to taking final action.

DATES: Comments must be received on or before March 26, 2020.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R04-

RCRA-2019-0673, at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from www.regulations.gov. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT:

Leah Davis, RCRA Programs and Cleanup Branch, LCR Division, U.S. Environmental Protection Agency, Atlanta Federal Center, 61 Forsyth Street SW, Atlanta, Georgia 30303-8960; telephone number: (404) 562-8562; fax number: (404) 562-9964; email address: davis.leah@epa.gov.

SUPPLEMENTARY INFORMATION:

A. Why are revisions to state programs necessary?

States that have received final authorization from EPA under RCRA section 3006(b), 42 U.S.C. 6926(b), must maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal program. As the Federal program changes, states must change their programs and ask EPA to authorize the changes. Changes to state programs may be necessary when Federal or state statutory or regulatory authority is modified or when certain other changes occur. Most commonly, states must change their programs because of changes to EPA's regulations in 40 Code of Federal Regulations (CFR) parts 124, 260 through 268, 270, 273, and 279.

New Federal requirements and prohibitions imposed by Federal regulations that EPA promulgates pursuant to the Hazardous and Solid Waste Amendments of 1984 (HSWA) take effect in authorized states at the same time that they take effect in unauthorized states. Thus, EPA will

implement those requirements and prohibitions in Florida, including the issuance of new permits implementing those requirements, until the State is granted authorization to do so.

B. What decisions has EPA made in this proposed rule?

Florida submitted a final complete program revision application, dated September 16, 2019, seeking authorization of changes to its hazardous waste program that correspond to certain Federal rules promulgated between July 1, 2017 and June 30, 2019 (including RCRA Clusters¹ XXVI, XXVII, and the May 30, 2018 Amendments to Checklist² 233 from Cluster XXIV, Response to Vacatur of Certain Provisions of the Definition of Solid Waste Rule).³ EPA concludes that Florida's application to revise its authorized program meets all of the statutory and regulatory requirements established under RCRA, as set forth in RCRA section 3006(b), 42 U.S.C. 6926(b), and 40 CFR part 271. Therefore, EPA proposes to grant Florida final authorization to operate its hazardous waste program with the changes described in the authorization application, and as outlined below in Section F of this document.

Florida has responsibility for permitting treatment, storage, and disposal facilities within its borders (except in Indian country, as defined at 18 U.S.C. 1151) and for carrying out the aspects of the RCRA program described in its program revision application, subject to the limitations of HSWA, as discussed above.

C. What is the effect of this proposed authorization decision?

If Florida is authorized for the changes described in Florida's authorization application, these changes will become part of the authorized State hazardous waste program, and will therefore be federally enforceable. Florida will continue to have primary enforcement authority and responsibility for its State hazardous waste program. EPA would maintain its authorities under RCRA sections 3007,

¹ A "cluster" is a grouping of hazardous waste rules that EPA promulgates from July 1st of one year to June 30th of the following year.

² A "checklist" is developed by EPA for each Federal rule amending the RCRA regulations. The checklists document the changes made by each Federal rule and are presented and numbered in chronological order by date of promulgation.

³ Florida was originally authorized for Checklist 233 on May 10, 2019, but deemed to be broader in scope than the Federal program given that it only adopted the 2015 Revisions to the Definition of Solid Waste Rule. With Florida's adoption of the May 2018 revisions, it is now equivalent to the Federal program.
