**Overhead Door Counterbalance Torsion Springs From the People's Republic of China and India: Postponement of Preliminary Determinations in the Less-Than-Fair-Value Investigations**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**DATES:** Applicable March 11, 2025.

**FOR FURTHER INFORMATION CONTACT:**

Jacob Keller at (202) 482–4849 (the People's Republic of China (China) and Seth Brown at (202) 482–0029 (India), AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230.

**SUPPLEMENTARY INFORMATION:****Background**

On November 18, 2024, the U.S. Department of Commerce (Commerce) initiated less-than-fair-value (LTFV) investigations of imports of overhead door counterbalance torsion springs (overhead door springs) from China and India.<sup>1</sup> Currently, the preliminary determinations are due no later than April 7, 2025.

**Postponement of Preliminary Determinations**

Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), requires Commerce to issue the preliminary determination in a LTFV investigation within 140 days after the date on which Commerce initiated the investigation. However, section 733(c)(1)(A)(b)(1) of the Act permits Commerce to postpone the preliminary determination until no later than 190 days after the date on which Commerce initiated the investigation if: (A) the petitioner makes a timely request for a postponement; or (B) Commerce concludes that the parties concerned are cooperating, that the investigation is extraordinarily complicated, and that additional time is necessary to make a preliminary determination. Under 19 CFR 351.205(e), the petitioner must submit a request for postponement 25 days or more before the scheduled date of the preliminary determination and must state the reasons for the request.

Commerce will grant the request unless it finds compelling reasons to deny the request.

On March 4, 2025, the petitioners<sup>2</sup> submitted a timely request that Commerce postpone the preliminary determinations in these LTFV investigations.<sup>3</sup> The petitioners requested postponement to provide Commerce with additional time to review and analyze questionnaire responses and accurately determine antidumping duty margins.<sup>4</sup>

For the reasons stated above and because there are no compelling reasons to deny the request, Commerce, in accordance with section 733(c)(1)(A) of the Act, is postponing the deadline for the preliminary determinations by 50 days (*i.e.*, 190 days after the date on which these investigations were initiated). As a result, Commerce will issue its preliminary determinations no later than May 27, 2025. In accordance with section 735(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final determinations of these investigations will continue to be 75 days after the date of the preliminary determinations, unless postponed at a later date.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: March 5, 2025.

Aluminum Extrusions from China (A–570–967/C–570–968); screw covers;<sup>4</sup>

<sup>2</sup> The products are carbon steel alloy and non-alloy submerged arc welded pipes with an outer diameter exceeding 16” and meeting the ASTM specifications for ASTM A671, ASTM A672 (Grades 60, 65, and 70), or ASTM A691 (Grades 1.25 Cr, 2.25 CR, 5 CR, and 9 CR). The external diameter of the product can vary from 16” to 168”, with a wall thickness ranging from 3/8” to 2” and length ranging from 10’ to 40’.

<sup>3</sup> The products are three styles of heavy-duty, fire-resistant gun safes, which are identified by their stock keeping unit (SKU) numbers: 2880553, 2904454, and 2761927. Each style: (1) fully contains firearms for secure storage, (2) includes a combination lock with at least 10,000 possible combinations, (3) has five or more one-inch steel locking bolts, (4) has 14-gauge exterior steel walls lined with 15.9mm fire-retardant gypsum board, (5) has a 14-gauge steel door that is lined with 15.9mm fire-retardant gypsum board and fitted with Palusol expanding heat seal on the door frame, which is activated at 100 degrees Celsius (212 degrees Fahrenheit), (6) has active and inactive locking bolts designed to protect against door removal, and (7) is imported in the fully assembled condition.

<sup>4</sup> The products are screw covers. A screw cover consists of an internally threaded aluminum disk and a removable externally and internally threaded ring insert in the center which, together, hide the exposed head of a screw. In the center of one end of the disk, there is an internally threaded hole to accommodate the insert. There is a threaded hole in the center of the insert to accommodate the screw. Screw covers are sold in sets of four and each cover comes with an insert for mounting. The aluminum disk and the insert are made from extruded aluminum and extruded brass, respectively. Screw Covers are available in the following three types: traditional, tamper proof, and tapcon (for use with concrete). Tamper proof screw covers have a set screw on the side that tightens into the insert with an Allen wrench to prevent easy removal. Tapcon screw covers have a specially designed ring to accommodate tapcon (concrete) screws. MBS screw covers range in diameter from 1/2 to 1”. All screw covers are anodized. Screw covers are wholly ornamental, providing a decorative cover for exposed screw heads used for mounting pictures, art, or signs, *i.e.*, media, on a wall or other structure. The screw covers do not in any way support or improve the mounting process of the media. Screw covers do not function as fasteners. Their only function is to add to the decorative effect to the media. The ornamental nature of the screw covers is emphasized in the variety of shapes, sizes, and colors. This variety allows the purchaser to select the specific decorative effect that he or she is looking for and demonstrates that the fundamental purpose of the screw covers is ornamentation.

#### Notification to Interested Parties

This list of scope ruling applications is not an identification of scope inquiries that have been initiated. In accordance with 19 CFR 351.225(d)(1), if Commerce has not rejected a scope ruling application nor initiated the scope inquiry within 30 days after the filing of the application, the application will be deemed accepted and a scope inquiry will be deemed initiated the following day—day 31.<sup>6</sup> Commerce’s practice generally dictates that where a deadline falls on a weekend, Federal holiday, or other non-business day, the appropriate deadline is the next business day.<sup>7</sup> Accordingly, if the 30th day after the filing of the application falls on a non-business day, the next business day will be considered the “updated” 30th day, and if the application is not rejected or a scope inquiry initiated by or on that particular business day, the application will be deemed accepted and a scope inquiry will be deemed initiated on the next business day which follows the “updated” 30th day.<sup>8</sup>

<sup>6</sup> In accordance with 19 CFR 351.225(d)(2), within 30 days after the filing of a scope ruling application, if Commerce determines that it intends to address the scope issue raised in the application in another segment of the proceeding (such as a circumvention inquiry under 19 CFR 351.226 or a covered merchandise inquiry under 19 CFR 351.227), it will notify the applicant that it will not initiate a scope inquiry, but will instead determine if the product is covered by the scope at issue in that alternative segment.

merchandise from the same country of origin, the scope inquiry will be conducted on the record of the AD proceeding. Further, please note that pursuant to 19 CFR 351.225(m)(1), Commerce may either apply a scope ruling to all products from the same country with the same relevant physical characteristics, (including chemical, dimensional, and technical characteristics) as the product at issue, on a country-wide basis, regardless of the producer, exporter, or importer of those products, or on a company-specific basis.

For further information on procedures for filing information with Commerce through ACCESS and participating in scope inquiries, please refer to the Filing Instructions section of the Scope Ruling Application Guide, at [https://access.trade.gov/help/Scope\\_Ruling\\_Guidance.pdf](https://access.trade.gov/help/Scope_Ruling_Guidance.pdf). Interested parties, apart from the scope ruling applicant, who wish to participate in a scope inquiry and be added to the public service list for that segment of the proceeding must file an entry of appearance in accordance with 19 CFR 351.103(d)(1) and 19 CFR 351.225(n)(4). Interested parties are advised to refer to the case segment in ACCESS as well as 19 CFR 351.225(f) for further information on the scope inquiry procedures, including the timelines for the submission of comments.

Please note that this notice of scope ruling applications filed in AD and CVD proceedings may be published before any potential initiation, or after the initiation, of a given scope inquiry based on a scope ruling application identified in this notice. Therefore, please refer to the case segment on ACCESS to determine whether a scope ruling application has been accepted or rejected and whether a scope inquiry has been initiated.

Interested parties who wish to be served scope ruling applications for a particular AD or CVD order may file a request to be included on the annual inquiry service list during the anniversary month of the publication of the AD or CVD order in accordance with 19 CFR 351.225(n) and Commerce’s procedures.<sup>9</sup>
