

evaluation of the extension of the Certified Community Behavioral Health Clinic (CCBHC) demonstration program.

Section 223 of the Protecting Access to Medicare Act (Pub. L. 113–93; PAMA) authorized the CCBHC demonstration to allow states to test a new strategy for delivering and reimbursing a comprehensive array of services provided in community behavioral health clinics. The demonstration aims to improve the availability, quality, and outcomes of outpatient services provided in these clinics by establishing a standard definition for CCBHCs and develops a new Medicaid prospective payment system (PPS) in each state that accounts for the total cost of providing nine types of services to all people who seek care. The PPS in each state is designed to provide CCBHCs with the financial support and stability necessary to

deliver these required services. The demonstration also aims to incentivize quality through quality bonus payments to clinics and requires CCBHCs to report quality measures and costs.

*Need and Proposed Use of the Information:* PAMA mandates that HHS submit reports to Congress about the Section 223 demonstration that assess (1) access to community-based mental health services under Medicaid in the area or areas of a state targeted by a demonstration program as compared to other areas of the state, (2) the quality and scope of services provided by certified community behavioral health clinics as compared to community-based mental health services provided in states not participating in a demonstration program and in areas of a demonstration state that are not participating in the demonstration, and (3) the impact of the demonstration on

the federal and state costs of a full range of mental health services (including inpatient, emergency, and ambulatory services). The ability of ASPE to provide this information to Congress requires a rigorously designed and independent evaluation of the CCBHC demonstration. The information collected under this submission will help ASPE address research questions for the evaluation and inform required reports to Congress. ASPE is requesting approval of this information collection for a three-year period. Information will be collected from individuals (CCBHC clients), businesses (CCBHC staff) and from state governments.

The total annual burden hours estimated for this information collection request are summarized in the table below.

ESTIMATED ANNUALIZED BURDEN TABLE

Type of respondent	Number of respondents	Number responses per respondent	Average burden per response (in hours)	Total burden hours
